Machlis, Thor Hanson, Zdravko Špirić, Jean E. McKendry, 2011-05-29 The purpose of this book is specific and ambitious to outline the distinctive elements scope and usefulness of a new and emerging field of applied ecology named warfare ecology Based on a NATO Advanced Research Workshop held on the island of Vieques Puerto Rico the book provides both a theoretical overview of this new field and case studies that range from mercury contamination during World War I in Slovenia to the ecosystem impacts of the Palestinian occupation and from the bombing of coral reefs of Vieques to biodiversity loss due to violent conflicts in Africa Warfare Ecology also includes reprints of several classical papers that set the stage for the new synthesis described by the authors Written for environmental scientists military and humanitarian relief professionals conservation managers and graduate students in a wide range of fields Warfare Ecology is a major step forward in understanding the relationship between war and ecological systems      Railway Workshops of Britain, 1823-1986 Edgar J. Larkin, 1988-06-18 An illustrated history of Britain's railway workshops covering the period from 1823 to 1986 this book deals with the history of the main railway workshops of Britain a subject of wide ranging mechanical and electrical engineering interest      War Material Supplies Manual, Revised to February 28th, 1918 Alexander Pulling, 1918      *War Materials Supplies Manual, Rev. to Febr. 28th, 1918* Great Britain, 1918      **Handbook of British Literature and Culture of the First World War** Ralf Schneider, Jane Potter, 2021-09-20 The First World War has given rise to a multifaceted cultural production like no other historical event This handbook surveys British literature and film about the war from 1914 until today The continuing interest in World War I highlights the interdependence of war experience the imaginative re creation of that experience in writing and individual as well as collective memory In the first part of the handbook the major genres of war writing and film are addressed including of course poetry and the novel but also the short story furthermore it is shown how our conception of the Great War is broadened when looked at from the perspective of gender studies and post colonial criticism The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain All in all the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War      From Workshop to Warfare Carol Adams, 1983      **International Seminar on Nuclear War and Planetary Emergencies** Antonino Zichichi, 2001 Full Title Water Pollution Biotechnology Transgenic Plant Vaccine Energy Black Sea Pollution AIDS Mother Infant HIV Transmission Transmissible Spongiform Encephalopathy Limits of Development Megacities Missile Proliferation and Defense Information Security Cosmic Objects Desertification Carbon Sequestration and Sustainability Climatic Changes Global Monitoring of Planet Mathematics and Democracy Science

*Local History and War Memories in Hokkaido* Philip A. Seaton, 2015-07-24 Hokkaido the northernmost island of Japan barely features in most histories of the Second World War However the combination of distinctive war experiences a vibrant

set of local historian groups and powerful media organizations disseminating local war history has generated an identifiable set of local collective memories Hokkaido's status as an early colonial acquisition also makes the island an important vantage point from which to reassess the course and nature of the Japanese Empire This book argues that Hokkaido's experiences of war and its militarized post war constitutes a local case study with a much greater national and international significance on both theoretical and empirical grounds than first impressions might suggest Using Japanese language sources presented for the first time in English and a number of detailed local history case studies it offers a fascinating and hitherto little known perspective on the Second World War It also combines a comprehensive theory of how war memories operate at the local level within a broad historical context that explains Hokkaido's pivotal role within Japanese imperial history Demonstrating that understanding local history and memories is essential for a nuanced understanding of national history and memories the book will be highly valuable to students and scholars of Japanese history Second World War history and Asian history
