### **From Pacesetters To Dropouts Post Soviet Youth In Comparative Perspective:**

*From Pacesetters to Dropouts* Tamar Horowitz, Bella Kotik-Friedgut, Stefani Hoffman, 2003-05-13 The book is a combined effort of scholars who participated in a conference entitled Post Soviet Youth A Comparative Study The book focuses on the post perestroika period a time of great instability and change on the national and individual level It analyzes the effect of this dynamic on youth who in the transitional phase of adolescence are particularly susceptible to social disruption The scope includes not only youth who remained in the former Soviet Union but also those who emigrated to the West Israel Germany the U S and Greece It was considered important to place this study in a cross cultural framework in order to differentiate between local influences and the common denominators from the Soviet background From Pacesetters to Dropouts offers an important contribution to the study of the effect of a particular form of socialization on youth in a period of stress and change It is relevant not only to understanding the changes undergone by an important segment of society in the former Soviet Union but also to studying the experience of other immigrant groupings in an era characterized by widespread migration

Performing Political Opposition in Russia Laura Lyytikäinen, 2016-10-04 Drawing on fieldwork conducted in Moscow and St Petersburg among the political opposition's youth group Oborona Defence this ground breaking work brings forward a multifaceted and colourful image of the life of political opposition activists in a restricted political environment Existing studies on youth political activism in Russia have mainly dealt with the pro Kremlin youth movements such as Nashi while youth opposition activism has been studied very little Lyytikäinen contributes to this gap by showing how youth are also actively organizing against the current government and how Russian oppositional youth activist practices are diverse and constantly evolving Theoretically this book contributes to discussions on activist identities as well as to an understanding of social movements and protest by analysing political protests as social performances The research illustrates how Soviet continuities and liberal ideas are entangled in Russian political activism to create new post socialist political identities and practices It also questions the idea of Russian democratization being tied to its totalitarian past and that of western type liberal democracy being the goal of this process Instead the book proposes that Russian political culture should be analysed on its own and as an entanglement of various interacting systems of thought

Learning to Labour in Post-Soviet Russia Charles Walker, 2010-11-12 This book explores the changing nature of growing up working class in post Soviet Russia a country dislocated by the experience of neo liberal economic reform Based on extensive ethnographic research in a provincial Russian region it follows the experiences of vocational education graduates whose colleges continue to channel them into the ailing industrial and agricultural sectors Rather than settling for transitions into poor work the book shows how these young men and women develop a range of strategies aimed at overcoming the poverty of opportunity available to them in traditional enterprises pursuing instead emerging opportunities in higher education jobs in the new service sector and the prospect of migration Drawing on a range of theoretical perspectives Charles Walker analyses these strategies and their

significance for wider processes of social change and social stratification in post Soviet Russia Bilingual Pre-teens Janet M. Fuller, 2012 This volume examines the connection between socio economic class and bilingual practices a previously under researched area through looking at differences in bilingual settings that are classified as immigrant or elite and are thus linked to socio economic class categories Fuller chooses for this examination bilingual pre teen children in Germany and the U S in order to demonstrate how local identities are embedded in a wider social world and how ideologies and identities both produce and reproduce each other In so doing she argues that while pre teen children are clearly influenced by macro level ideologies they also have agency in how they choose to construct their identities with relation to hegemonic societal discourses and have many other motivations and identities aside from social class membership which shape their linguistic practices The Palgrave Handbook of Race and Ethnic Inequalities in Education P. Stevens, A. Dworkin, 2014-01-22 This comprehensive state of the art reference work provides the first systematic review to date of how sociologists have studied the relationship between race ethnicity and educational inequality over the last thirty years in eighteen different national contexts *The Oxford Handbook of Moral Development* Lene Arnett Jensen, 2020-01-24 The nature of people's moral lives the similarities and differences in the moral concepts of individuals and groups and how these concepts emerge in the course of human development are topics of perennial interest In recent years the field of moral development has turned from a focus on a limited set of theories to a refreshingly vast array of research questions and methods This handbook offers a comprehensive international and up to date review of this research on moral development Drawing together the work of over 90 authors hailing from diverse disciplines such as anthropology education human development psychology and sociology the handbook reflects the dynamic nature of the field Across more than 40 chapters this handbook opens the door to a broad view of moral motives and behaviors ontogeny and developmental pathways and contexts that children adolescents and adults experience with respect to morality It offers a comprehensive and timely tour of the field of moral development

*The Palgrave Handbook of Race and Ethnic Inequalities in Education* Peter A.J. Stevens, A. Gary Dworkin, 2019-07-05 This authoritative state of the art reference work builds on its first edition to provide a cutting edge systematic review of the relationship between race ethnicity and educational inequality Studying 25 different national contexts drawn from every inhabited continent on earth and building upon material from the earlier edition the work analyses educational policies practices and research on minority students immigrants and refugees The editors and contributors explore principal research traditions from countries as diverse as Argentina China Norway and South Africa examining the factors promoting social cohesion as well as considerations regarding the use of international test score data Seamlessly integrating findings of national reviews the editors and contributors analyse how national contexts of race ethnic relations shape the character and content of educational inequalities and deftly map out new directions for future research in the area Global in its perspective and definitive in content this one stop volume will be an indispensable reference resource for a wide range of academics

students and researchers in the fields of education sociology race and ethnicity studies and social policy Chapter 20 of this book is available open access under a CC BY 4.0 license at SpringerLink [https://link.springer.com/chapter/10.1007/978-3-319-94724-2\\_20](https://link.springer.com/chapter/10.1007/978-3-319-94724-2_20) *Culture, Ethnicity and Migration After Communism* Anton Popov, 2016-06-10 This book addresses the issue of emerging transnationalism in the conditions of post socialism through focusing on migrants identity as a social construction resulting from their experience of the transnational circuit of culture as well as from post Soviet shifts in political and economic conditions in their home regions Anton Popov draws upon ethnographic research conducted among Greek transnational migrants living on the Black Sea coast and in the North Caucasus regions of Russia who have become involved in extensive cross border migration between the former Soviet Union the Russian Federation Kazakhstan and Georgia and Greece as well as Cyprus It is estimated that more than 150 000 former Soviet citizens of Greek origin have resettled in Greece since the late 1980s Yet many of those who emigrate do not cut their connections with the home communities in Russia but instead establish their own transnational circuit of travel between Greece and Russia This study demonstrates how migrants employ their ethnicity as symbolic capital available for investment in transnational migration Simultaneously they rework their practices of family networking property relations and political participation in a way which strengthens their attachment to the local territory The findings presented in the book imply that the social identities economic strategies political practices and cultural representation of the Russia's Pontic Greeks are all deeply embedded in the shifting social and cultural landscape of post Soviet Russia and extensively influenced by the global movement of ideas goods and people

*Teenage Citizens* Constance A. Flanagan, 2013-02-14 Too young to vote or pay taxes teenagers are off the radar of political scientists Yet civic identities form during adolescence and are rooted in experiences as members of families schools and community organizations Flanagan helps us understand how young people come to envisage civic engagement and how their political identities take form *Integration, Identity and Language Maintenance in Young Immigrants* Ludmila Isurin, Claudia Maria Riehl, 2017-04-12 The volume presents a selection of contributions related to integration adaptation language attitudes and language change among young Russian speaking immigrants in Germany At the turn of the century Germany which defined itself as a mono ethnic and mono racial society has become a country integrating various immigrant groups Among those there are three different types of Russian immigrants Russian Germans Russian Jews and ethnic Russians all three often perceived as Russians by the host country The three groups have the same linguistic background but a different ethnicity known as nationality a separate entry in Russian official documents This defined the immigration paths and the subsequent integration into German society where each group strives to position itself in relation to two other groups in the same migrant space The book discusses the complexities of belonging and self other assignment to groups as well as the attitude to language maintenance among young Russian speaking immigrants **Practicing Social Science** Devorah Kalekin-Fishman, 2016-12-01 How is the process of globalization effecting changes in the structure of knowledge in sociology

This path breaking volume looks at the human dimension of developments in the discipline by compiling a set of interviews that exemplify the life and work of a sociologist today Their ideas and conceptualizations show to what extent a paradigm shift has taken root answering questions such as whether sociology still remains a differentiated relatively autonomous social science The chosen interviewees are about equally divided according to gender and have been selected from among professional sociologists in different parts of the globe with an emphasis on areas that are under represented in English publications such as East Asia Latin America and Africa Analysis focuses on changes which are becoming clear from the on going confrontation between traditional sociology which emerged as a project of modernity and the sociology practiced by sociologists who are called upon to adapt the discipline to the upheavals of the twenty first century *Cultural Transmission* Ute Schönplüg,2008-11-10 *Cultural Transmission* covers psychological developmental social and methodological research on how cultural information is socially transmitted from one generation to the next within families Studying processes of cultural transmission may help analyze the continuity or change of cultures including those that have to cope with migration or the collapse of a political system An evolutionary perspective is elaborated in the first part of the book the second takes a cross cultural perspective by presenting international research on development and intergenerational relations in the family the third provides intra cultural analyses of mechanisms and methodological aspects of cultural transmission Made up of contributions by experts in the field this source book is intended for anyone with interests in cultural issues especially researchers and teachers in disciplines such as psychology social and behavioral sciences and education and for applied professionals in culture management and family counseling as well as professionals dealing with migrants Canadian Slavonic Papers ,2004 **Slavic Review** ,2003 American quarterly of Soviet and East European studies varies
