Bessonova,1990 **Russian Genre Painting in the Nineteenth Century** Rosalind Polly Blakesley,2000 This book addresses the little studied area of Russian genre painting in the first three quarters of the nineteenth century Rosalind Gray begins by examining artistic patronage and published texts which engaged with the visual arts in order to illustrate the context in which Russian artists were working Five major painters Venetsianov Bryullov Ivanov Fedotov and Perov are then discussed in detail Dr Gray identifies the vital contribution which these artists made to Russian intellectual life as genre painting was appropriated as a medium in the dissemination of popular values and social change At the same time the relationship between Russian and European art is explored The book demonstrates that far from being a self contained movement Russian genre painting instead engaged in a fluid and complex dialogue with the art of the West

Rabinow,Dorthe Agesen,Metropolitan Museum of Art (New York, N.Y.),2012 Throughout his long career Henri Matisse 1869 1954 continually expanded the boundaries of his

art By repeating images in pairs trios and series he conducted an ongoing dialogue with his earlier works in order to as he put it push further and deeper into true painting In this fresh approach to a much studied artist prominent scholars from the United States and Europe examine more than sixty works in concise chapters that focus on this aspect of Matisse s working process From early pairs such as Young Sailor I and II 1906 and Le Lexe I and II 1907 8 through a series of late studio scenes from Vence 1946 48 Matisse is shown revisiting a given theme with the aim of devising innovative often radical solutions to such problems as how to portray light handle paint select colors and manipulate perspective New technical studies of the early paired works and photographs documenting the evolution of his later paintings help to elucidate Matisse s complex evolution In numerous excerpts from letters and interviews he is revealed as an artist who regularly questioned himself and his methods a man of powerful intellect who regarded each new painting as an adventure A significant addition to art historical literature Matisse In Search of True Painting is a revelatory study of a seminal figure in 20th century modernism

Page 4 of cover **The Empress of Art** Susan Jaques,2016-04-15 A German princess who married a decadent and lazy Russian prince Catherine mobilized support amongst the Russian nobles playing off of her husband s increasing corruption and abuse of power She then staged a coup that ended with him being strangled with his own scarf in the halls of the palace and herself crowned the Empress of Russia Intelligent and determined Catherine modeled herself off of her grandfather in law Peter the Great and sought to further modernize and westernize Russia She believed that the best way to do this was through a ravenous acquisition of art which Catherine often used as a form of diplomacy with other powers throughout Europe She was a self proclaimed glutton for art and she would be responsible for the creation of the Hermitage one of the largest museums in the world second only to the Louvre Catherine also spearheaded the further expansion of St Petersburg and the magnificent architectural wonder the city became is largely her doing There are few women in history more fascinating than Catherine the Great and for the first time Susan Jaques brings her to life through the prism of art

Exploring Gogol Robert A. Maguire,1996-08-01 For the past 150 years critics have referred to the Gogol problem by which they mean their inability to account for a life and work that are puzzling often opaque yet have proved consistently fascinating to generations of readers This book proceeds on the assumption that Gogol s life and work in all their manifestations form a whole it identifies in ways that have eluded critics to date the rhetorical strategies and thematic patterns that create the unity These larger concerns emerge from a close study of the major texts fictional and nonfictional and in turn are set in a broad artistic and intellectual context Russian and European with special attention to German philosophy the visual arts and Orthodox Christian theology **Portraits by Ingres** Jean-Auguste-Dominique Ingres,National Gallery (Great Britain),1999 Om portr tter af den franske maler Jean Auguste Dominique Ingres 1780 1867 **Beyond the Easel** Gloria Lynn Groom,Nicholas Watkins,Jennifer Paoletti,Thérèse Barruel,Metropolitan Museum of Art (New York, N.Y.),2001-01-01 The Contributions of Artists Pierre Bonnard Edouard Vuillard Maurice Denis and Ker Xavier Roussel to the

French avant garde of the 1890s as members of the Nabis are widely recognized What is less known about these artists careers is their extraordinary work in decorative painting work on a large or unusual scale for private interiors This illustrated book focuses on the many decorative works carried out by the four artists between 1890 and 1930 During these years they moved beyond the narrow parameters of easel painting and applied their wholly untraditional aesthetic of decoration to a wide range of works for domestic interiors from wall size ensembles to folding screens The cosmopolitan group of patrons who made this work possible ranged from the avant garde circle of La Revue Blanche to prominent members of the French establishment An examination of their role and tastes is another fascinating feature of this publication The book and accompanying exhibition reunite paintings that have long been dispersed introducing contemporary viewers to a group of bold and evocative works which had a wide ranging though little recognized influence on modern art As the book s authors argue the aesthetic embodied by these works indeed helped set the stage for the large non narrative paintings by artists as diverse as Rothko and Lichtenstein that came to dominate the avant garde after World War II
