From Self to Society, 1919-1941 Robert Morse Crunden, 1972 Alienation disillusionment the individual alone in society these are not problems new to the United States of the 1970s In this unique multifaceted volume Robert M Crunden provides a fresh viewpoint on the crucial years between the two world wars years which witnessed dramatic changes in the intellectual and social mood of the country Focusing on the problem of the individual's role in society Crunden presents portraits of representative figures from the arts literature and the social sciences to demonstrate how the intellectual optimism of the Progressive Era was assaulted by the violence of World War I and finally gave way to the pessimism of the twenties and the collectivism of the thirties Analyzing the work of John Marin Frank Lloyd Wright Ruth Benedict George Antheil Robert Park and Conrad Aiken among others Crunden documents how the basic relationship of the individual to society at large changed during this period from the self in society to the self apart from society to the self submerged in society Publisher *American History After 1865* Ray Allen Billington, Martin Ridge, 1981 Essays on educational theory written in the 1800s record the beliefs of many influential figures on the topics of public education and democracy The First Sexual Revolution Kevin White, 1993 In the early 1900s a sexual revolution took place that was to define social relations between the sexes in America for generations As Victorian values gradually faded and a commercialized consumer culture emerged the female figure of the flapper came to embody early twentieth century femininity Simultaneously masculine ideals were also undergoing radical change Who then was this New Man to accompany the New Woman Who was the flapper's boyfriend In this remarkable book Kevin White draws on a vast array of sources to examine the ideology spread through movies advertisements sex confession magazines social hygienists sex manuals and Freudian popularizers that has defined modern American manhood Examining attitudes toward masturbation homosexuality violence against women feminism free love and the emerging dating system The First Sexual Revolution shows how American men in the Jazz Age were subjected to a barrage of information and advice about their sexuality that stressed not character but personality and sex appeal Repression was out sexual expression performance was in This New Man was more egalitarian and more sexual than the Victorian patriarch But the diffusion to the middle class of the Victorian underworld ethos of primitivism and violence against women and the flight from commitment to relationships heralded instability and tensions that continues to define American sexual relations To illustrate this point Dr White takes a close look through letters and diaries at the successes and failures of nine marriages involving actively feminist women demonstrating the pressures that this revolution in values caused Dr White concludes that the return to primitivism characterized by the men's movement marks the most recent aftershock of the revolution that has shaped us all *American Studies* Jack Salzman, 1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of American Studies An Annotated Bibliography of Works on the Civilization of the United States published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of

and of Black Friday October 29 1929 when the plunging stock market ushered in the great depression But the 1920s were much more Lynn Dumenil brings a fresh interpretation to a dramatic important and misunderstood decade As her lively work makes clear changing values brought an end to the repressive Victorian era urban liberalism emerged the federal bureaucracy was expanded pluralism became increasingly important to America's heterogeneous society and different religious ethnic and cultural groups encountered the homogenizing force of a powerful mass consumer culture The Modern Temper brings these many developments into sharp focus *Rebels Within the Ranks* Katherine Pandora, 2002-08-22 During the 1930s psychologists Gordon Allport Gardner Murphy and Lois Barclay Murphy emerged from the fields of social and personality psychology to challenge the neo behaviorist status quo in American social science Willing to experiment with the idea of science itself these rebels within the ranks contested ascendent conventions that cast the study of human life in the image of classical physics Drawing on the intellectual social and political legacies of William James radically empiricist philosophy and radical Social Gospel theology these three psychologists developed critiques of scientific authority and democratic reality as they worked at the crossroads of the social and the personal in New Deal America Appropriating models from natural history they argued for the significance of individuality contextuality and diversity as scientific concepts as they explored what they envisioned as the nature of democracy and the democracy of nature *Works about John Dewey, 1886-1995* Barbara Levine, 1996 Levine has included all of the material published about Dewey during the 108 years between 1886 1994 and has included many 1995 items as well She has verified all items and whenever possible obtained copies

David C Paul tells the new story of how Ives's music was shaped by shifting conceptions of American identity within and outside of musical culture charting the changes in the reception of Ives across the twentieth century and into the twenty-first century. Paul focuses on the critics, composers, performers, and scholars whose contributions were most influential in shaping the critical discourse on Ives, many of them marquee names of American musical culture themselves, including Henry Cowell, Aaron Copland, Elliott Carter, and Leonard Bernstein. Paul explores both how Ives positioned his music amid changing philosophical and aesthetic currents and how others interpreted his contributions to American music. Although Ives's initial efforts to find a public in the early twenties attracted a few devotees, the resurgence of interest in the American literary past during the thirties made a concert staple of his Concord Sonata, a work dedicated to nineteenth-century transcendentalist writers. Paul shows how Ives was subsequently deployed as an icon of American freedom during the early Cold War period and how he came to be instigated at the head of a line of American maverick composers. Paul also examines why a recent cadre of scholars has beset the composer with Gilded Age social anxieties. By embedding Ives's reception within the changing developments of a wide range of fields, including intellectual history, American studies, literature, musicology, and American politics and society in general, *Charles Ives in the Mirror: American Histories of an Iconic Composer* greatly advances our understanding of Ives and his influence on nearly a century of American culture. *Catalog of Copyright Entries. The Art of Curating Sally Anne Duncan, Andrew McClellan, 2018-08-07. From 1921 until 1948, Paul J. Sachs (1878-1965) offered a yearlong program in art museum training, Museum Work and Museum Problems, through Harvard University's Fine Arts Department. Known simply as the Museum Course, the program was responsible for shaping a professional field: museum curatorship and management. That, in turn, defined the organizational structure and values of an institution through which the American public came to know art. Conceived at a time of great museum expansion and public interest in the United States, the Museum Course debated curatorial priorities and put theory into practice through the placement of graduates in museums, big and small, across the land. In this book, authors Sally Anne Duncan and Andrew McClellan examine the role that Sachs and his program played in shaping the character of art museums in the United States in the formative decades of the twentieth century. *The Art of Curating* is essential reading for museum studies scholars, curators, and historians.
