**and Identity in South Asia and Beyond** Steven E. Lindquist, 2013-12-01 This volume brings together sixteen articles on the religions literatures and histories of South and Central Asia in tribute to Patrick Olivelle one of North America's leading Sanskritists and historians of early India Over the last four decades the focus of his scholarship has been on the ascetic and legal traditions of India but his work as both a researcher and a teacher extends beyond early Indian religion and literature Religion and Identity and South Asia and Beyond is a testament to that influence The contributions in this volume many by former students of Olivelle are committed to linguistic and historical rigor combined with sensitivity to how the study of Asia has been changing over the last several decades **Beyond Translation** Alton L. **Social Philosophy** Jean-Philippe Dr. Deranty, 2009-06-24 Few thinkers have made such significant contribution to social and political thinking over the last three decades as Axel Honneth His theory of recognition has rejuvenated the political vocabulary and allowed Critical Theory to move beyond Habermas Beyond Communication is the first full scale study of Honneth's work covering the whole range of his writings from his first sociological articles to the latest publications By relocating the theory of recognition within the tradition of European social theory the book exposes the full depth and breadth of Honneth's philosophical intervention The book will be an indispensable resource for anyone interested in contemporary philosophy and the social sciences **Beyond Ontological Blackness** Victor Anderson, 2016-10-06 In this study Victor Anderson traces instances of ontological blackness in African American theological religious and cultural thought arguing that African American critical thought has been trapped in a racial rhetoric that it did not create and which cannot serve it well Drawing together 18th and 19th century accommodationism and its assimilationist heirs with the movements of Black Power and Afrocentrism Anderson shows that all exhibit a similar structure of racial identity He suggests that it is time to move beyond the confines of the cult of black heroic genius to what Bell Hooks has termed postmodern blackness a racial discourse that leaves room to negotiate African American identities along lines of class gender sexuality and age as well as race

**The Sinosphere and Beyond** Joan Judge, Joachim Kurtz, Ori Sela, Dan Shao, Hugh

Shapiro,2024-07-22 The history of East Asia can be most productively studied through a transnational translingual and transcultural approach to the region In *The Sinosphere and Beyond* twenty six leading and emerging scholars use such approaches in rich clusters of essays on Historiography Sino Japanese Encounters Law and Justice Politics Art Literature and Translation Each essay builds on the legacy of Joshua Fogel whose scholarship defined the contours of the Sinosphere in the Western world and beyond The collection will be of interest to scholars and students with specific research concerns within these broader rubrics from the towering progenitors of Japanese Sinology to gendered diplomatic and cultural dimensions of Sino Japanese encounters from Sinitic poetry to legal culture and revolutionary life from art commerce and levels of literary expression to the quandaries of translation In addition to offering a broad range of case studies the volume is testimony to the methodological importance of a dynamic intra and transregional approach for an understanding of the layered history of East Asia

**Moving Beyond Individualism in Pastoral Care and Counseling** Barbara J. McClure,2010-01-01 Despite astute critiques and available resources for alternative modes of thinking and practicing individualism continues to be a dominating and constraining ideology in the field of pastoral psychotherapy and counseling Philip Rieff was one of the first to highlight the negative implications of individualism in psychotherapeutic theories and practices As heirs and often enthusiasts of the Freudian tradition of which Rieff and others are critical pastoral theologians have felt the sting of his charge and yet the empirical research that McClure presents shows that pastoral counseling practitioners resist change Their attempts to overcome an individualistic perspective have been limited and ineffective because individualism is embedded in the field s dominant theological and theoretical resources practices and organizational arrangements Only a radical reappraisal of these will make possible pastoral counseling practices in a post individualistic mode McClure proposes several critical transformations broadening and deepening the operative theologies used to guide the healing practice expanding the role of the pastoral counselor reimagining the operative anthropology reclaiming sin and judgment nuancing the particular against the individual rethinking the ideal outcome of the practices and reimagining the organizational structures that support the practices Only this level of revisioning will enable this ministry of the church to move beyond its individualistic limitations and offer healing in more complex effective and socially adequate ways

**After-Mission, Beyond Evangelicalism** Najib George Awad, 2020-11-04 After Mission touches on three questions The first question is about self perception and identity formation strategies and the various views that we have on the Protestants relation to their Arab Muslim Middle Eastern context This will furnish the basis for the ensuing parts as it will provide the study with coherent and analytical readings of the cultural situation and intellectual views of the Arab Eastern Protestants in their Sitz im Leben from the perspective of the hermeneutic tripod of identity othering relationality The second question about the theological dimension asks what kind of a theological discourse do the Protestants need to develop and how do they need to re form their own theological heritage in such a manner that will allow them to heal the historical enmity and suspicion towards them from the Eastern Orthodox Christian community in the region How should they re think their traditional view on theological subjects common to them and the Eastern Christian tradition Traditional Protestant attitudes towards Eastern Christianity which have been viewed through the lens of evangelicalism and mission have failed to grant the Protestants an influential and truly indigenous presence in the region and have led to them being constantly accused of being a foreign transplant and alien entity In the light of this it is clear that going beyond missiology and traditional evangelicalism demands re thinking certain mutually shared but contentious theological subjects from a new perspective with the focus on more constructive attempts to build fellowship through dialogue Finally the third question touches on the Protestants future in the Arab Muslim Middle East by viewing this inquiry from a broader perspective that is related to all the Middle Eastern Christian communities presence and role in the Muslim majority context It will discuss questions about the kind of presence and role that Christians Protestants included should hope to play in order to guarantee survival and a continuing presence in the region The question of identity formation and the managing of difference without trapping it in the mud of otherizing and self otherizing will also be tackled so that the theological dimension is integrated with the broader multifaceted contextual one

**Ethics Beyond the Limits** Sophie Grace Chappell, Marcel van Ackeren, 2018-12-07 Bernard Williams Ethics and the Limits of Philosophy is widely

**Beyond Party** Mark Voss-Hubbard, 2003-05-22 Captivating disgruntled voters third parties have often complicated the American political scene In the years before the Civil War third party politics took the form of the Know Nothings who mistrusted established parties and gave voice to anti government sentiment Originating about 1850 as a nativist fraternal order the Know Nothing movement soon spread throughout the industrial North In *Beyond Party* Mark Voss Hubbard draws on local sources in three different states where the movement was especially strong to uncover its social roots and establish its relationship to actual public policy issues Focusing on the 1852 ten hour movement in Essex County Massachusetts the pro temperance and anti Catholic agitation in and around Dauphin County Pennsylvania and the movement to restrict immigrants voting rights and overthrow corrupt parties and politicians in New London County Connecticut he shows that these places shared many of the social problems that occurred throughout the North the consolidation of capitalist agriculture and industry the arrival of Irish and German Catholic immigrants and the changing fortunes of many established political leaders Voss Hubbard applies the insights of social history and social movement theory to politics in arguing that we need to understand Know Nothing rhetoric and activism as part of a wider tradition of American suspicion of politics as usual even though of course this antipartyism served agendas that included those of self interested figures seeking to accumulate power

College Writing and Beyond Anne Beaufort, 2008-02-06 Composition research consistently demonstrates that the social context of writing determines the majority of conventions any writer must observe Still most universities organize the required first year composition course as if there were an intuitive set of general writing skills usable across academic and work world settings In *College Writing and Beyond A New Framework for University Writing Instruction* Anne Beaufort reports on a longitudinal study comparing one student's experience in FYC in history in engineering and in his post college writing Her data illuminate the struggle of college students to transfer what they learn about general writing from one context to another Her findings suggest ultimately not that we must abolish FYC but that we must go beyond even genre theory in reconceiving it Accordingly Beaufort would argue that the FYC course should abandon its hope to teach a sort of general academic discourse and instead should systematically teach strategies of responding to

contextual elements that impinge on the writing situation Her data urge attention to issues of learning transfer and to developmentally sound linkages in writing instruction within and across disciplines Beaufort advocates special attention to discourse community theory for its power to help students perceive and understand the context of writing
