The World Turned Upside Down Melanie Phillips, 2011-12-13 In what we tell ourselves is an age of reason we are behaving increasingly irrationally An astonishing number of people subscribe to celebrity endorsed cults Mayan armageddon prophecies scientism and other varieties of new age anti enlightenment philosophies Millions more advance popular conspiracy theories AIDS was created in a CIA laboratory Princess Diana was assassinated and the 9/11 attacks were an inside job In *The World Turned Upside Down* Melanie Phillips explains that the basic cause of this explosion of irrationality is the slow but steady marginalization of religion We tell ourselves that faith and reason are incompatible but the opposite is the case It was Christianity and the Hebrew Bible Phillips asserts that gave us

our concepts of reason progress and an orderly world on which science and modernity are based Without its religious traditions the West has drifted into mass derangement where truth and lies right and wrong victim and aggressor are all turned upside down Scientists skeptical of global warming are hounded from their posts Israel is demonized and the US is vilified over the war on terror all on the basis of blatant falsehoods and obscene propaganda Worst of all asserts Phillips this abandonment of rationality leaves the West vulnerable to its legitimate threats Faced with the very real challenges of spiraling demographics and violent confrontational Islamism the West is no longer willing or able to defend the modernity and rationalism that it once brought into being The "Summa Theologica" of St. Thomas Aquinas Saint Thomas

Nessler,2016-03-14 Reinterpreting the Haitian Revolution as both an islandwide and a circum Caribbean phenomenon Graham Nessler examines the intertwined histories of Saint Domingue the French colony that became Haiti and Santo Domingo the Spanish colony that became the Dominican Republic Tracing conflicts over the terms and boundaries of territory liberty and citizenship that transpired in the two colonies that shared one island Nessler argues that the territories borders and governance were often unclear and mutually influential during a tumultuous period that witnessed emancipation in Saint Domingue and reenslavement in Santo Domingo Nessler aligns the better known history of the French side with a full investigation and interpretation of events on the Spanish side articulating the importance of Santo Domingo in the conflicts that reshaped the political terrain of the Atlantic world Nessler also analyzes the strategies employed by those claimed as slaves in both colonies to gain liberty and equal citizenship In doing so he reveals what was at stake for slaves and free nonwhites in their uses of colonial legal systems and how their understanding of legal matters affected the colonies relationships with each other and with the French and Spanish metropolises*

Conditional Freedom Thomas Mareite,2022-12-19 While the literature on slave flight in nineteenth century North America has commonly focused on fugitive slaves escaping to the U S North and Canada Conditional Freedom provides new

insights on the social and political geography of freedom and slavery in nineteenth century North America by exploring the development of southern routes of escape from slavery in the U S South and the experiences of self emancipated slaves in the U S Mexico borderlands In *Conditional Freedom* Thomas Mareite offers a social history of U S refugees from slavery and provides a political history of the clash between Mexican free soil and the spread of slavery west of the Mississippi valley during the nineteenth century *Conditional Freedom* is now available in paperback for individual customers

The Secular Contract Alex Schulman, 2011-06-23 *The Secular Contract* seeks to defend the European Enlightenment s secularization of political philosophy by promoting an understanding of Enlightenment secular liberalism and extending it to contemporary issues The work proposes that the Enlightenment united the secularizing trends that occurred at the time across all areas of knowledge into a secular contract for modern politics It argues that this was a normatively valuable enterprise whose aims and arguments need to be recovered today especially in light of the challenges faced by the West including fundamentalist Christianity in the US and radical Islam in Europe Looking at the works of many thinkers such as Hobbes Jefferson Madison Rousseau the book then shifts to the present day to argue for a different liberalism as suggested by such contemporary thinkers as William Galston or Stephen Macedo An engaging read *The Secular Contract* will appeal to anyone interested in political theory and the history of ideas
