answers to some of these complex questions Minding the Heart Saucy, Robert, 2013-09-13 The heart is the most important biblical term for the person's nature and actions. Indeed, the heart is the control center of life. It is the very place where God works to change us. But how does this growth take place? How are Christians to discover the steadfast spirit of David's psalm? In Minding the Heart, Robert L. Saucy offers insightful instruction on what spiritual transformation is and how to achieve it. He shows how renewing one's mind through meditation, action, and community can begin the process of change, but ultimately, the final change—the change that brings abundant life—can only come through a vital relationship with God. The renewing of the heart is an inescapable human need, writes Saucy, but the solution lies only within the realm of the divine. Drawing from inspiring Bible passages as well as selected scientific studies, Saucy demonstrates how to make lasting change so Christians can finally achieve the joys of becoming more like Christ. **Stronger Than You Think** Kim Gaines Eckert, 2013-03-05 Kim Gaines Eckert has spent years helping women tackle the issues life throws their way. At the heart of their struggle, she believes, is not the desire to be perfect but the desire to be whole. As Kim invites you into her conversations with women, you'll discover you are not alone in your struggles and you'll find help to become the whole, healthy woman he created you to be. *Spirituality and Religion Within the Culture of Medicine* Dr. Michael Balboni, Dr. John Peteet, 2017-05-10 *Spirituality and Religion Within the Culture of Medicine* addresses the need to better understand the broad relevance of religion and spirituality to the culture of medicine. The authors focus on the critical need to establish evidence-based recommendations for clinicians of various specialties who engage in the spiritual dimension of practice. Lost - Liberated - Loved Claudia Mariéle Wulf, 2023-09-01 Christian ethics, also called moral theology in the tradition, is one of the most controversial topics within theology as well as outside it. Yet the goal of these ethics is a life in fullness and freedom. Without ethical guidelines and personal responsibility, a life cannot succeed. Norms and laws aim to create space for life and protect it. To fill this freedom, people are responsible for that. And being responsible means owing an answer to someone. Ethics therefore always takes place in relation to one's own conscience, to the good that can be accomplished, and in relation to other living beings and nature. Christian ethics moreover places this responsibility in relation to God. People are free but also limited; they hurt each other and need forgiveness and reconciliation. Often people can reconcile with each other, but sometimes accounts remain open: the evil was too great or the reconciliation failed. Christian theology can refer to redemption here. It is just not easy to reconcile its content with the everyday reality of modern people. This systematic introduction to moral theology offers an explanation in understandable anthropological terms. It shows how the Christian message provides a meaningful answer to the open question of how a human life can succeed. Anyone who tries to mediate meaningfully between tradition and modernity in the pastoral practice of the church will find this book a guide. Healing, Hope, and Joy Wayne Beatty, 2011-08-15 Why do our lives sometime go in unexpected and even unpleasant directions? The apostle Paul in Romans 5:1-5 provides a major insight into dealing with this life question when he reflects upon the life
