From The Foreign Press Two Centuries Of American History:

Spymasters Ralph Weber, 2002-01-01 *Spymasters* is a collection of interviews revealing enlightening perspectives on the covert operations of this powerful secretive arm of the U S government Here former top ranking CIA officials shed light on some of the most sensitive issues and practices in American foreign intelligence to date These men disclose information about President Harry S Truman s demands for a centralized intelligence agency and the stubborn resistance of James F Byrnes J Edgar Hoover and the military services the tumultuous early stages of the National Security Council the failed Bay of Pigs invasion the confusion surrounding the Kennedy assassination Khrushchev s ousting Operation MONGOOSE the Gulf of Tonkin incident The interviews are especially valuable for their portrayal of the relationships between the agency s directors and the presidents during the most anxious and threatening decades of the Cold War The CIA s successes and failures are recounted and carefully evaluated by the men who were there often times issuing the orders *African*

American Foreign Correspondents Jinx Coleman Broussard, 2013-06-07 Though African Americans have served as foreign reporters for almost two centuries their work remains virtually unstudied In this seminal volume Jinx Coleman Broussard traces the history of black participation in international newsgathering Beginning in the mid 1800s with Frederick Douglass and Mary Ann Shadd Cary the first black woman to edit a North American newspaper *African American Foreign Correspondents* highlights the remarkable individuals and publications that brought an often overlooked black perspective to world reporting Broussard focuses on correspondents from 1840 to the present including reporters such as William Worthy Jr who helped transform the role of modern foreign correspondence by gaining the right for journalists to report from anywhere in the world unimpeded Leon Dash a professor of journalism and African American studies at the University of Illinois who reported from Africa for the Washington Post in the 1970s and 1980s and Howard French a professor in Columbia University s journalism school and a globetrotting foreign correspondent *African American Foreign Correspondents* provides insight into how and why African Americans reported the experiences of blacks worldwide In many ways black correspondents upheld a tradition of filing objective stories on world events yet some African American journalists in the mainstream media like their predecessors in the black press had a different mission and perspective They adhered primarily to a civil rights agenda grounded in advocacy protest and pride Accordingly some of these correspondents not all of them professional journalists worked to spur social reform in the United States and force policy changes that would eliminate oppression globally Giving visibility and voice to the marginalized correspondents championed an image of people of color that combatted the negative and racially construed stereotypes common in the American media By examining how and why blacks reported information and perspectives from abroad *African American Foreign Correspondents* contributes to a broader conversation about navigating racial societal and global problems many of which we continue to contend with today

Public Opinion William A. Blade, 2002 Twenty four news networks a plethora of newspapers and magazines vibrant news

talk radio and the ubiquitous Internet highlight our society as information driven With such a steady stream of hard facts mixed with publicised opinions the mainstream population has an opinion on everything Most anyone seems itching to argue their side of an issue making once private beliefs fodder for general consumption A staple of any medium's content is a regular public opinion poll on whatever hot topic strikes the editor's fancy From the significant to the mundane public opinion permeates society Accordingly politicians have taken note of these opinions and adopted stands and values that put them in tune with public sentiment An understanding of the nature of public opinion therefore is paramount in today's world This book assembles and presents a carefully chosen bibliography on public opinion in its many forms The collection of references makes for a valuable resource in studying and researching the critical issue of public opinion Easy access to these pieces of literature are then provided with author title and subject indexes
