*In Troubled Times* Adrian Jarvis, 2017-10-18 This study provides a history of the Port of Liverpool between 1905 and 1938 during its decline It is particularly interested in the history of the Mersey Docks and Harbour Board Liverpool's enormous and sole port authority Adrian Jarvis contrasts the decision making process of the Board with the financial history of the docks in attempt to evaluate the Board successes and failures The study accounts for and explores the factors which contributed to the decline of Liverpool's shipping industry with topics ranging from the growth of railways the advances in shipping technology the success of commercial liners to the Great Depression and Great War The study is complemented with an appendix exploring the efficiency of ports a bibliography a note on the sources an index and a conclusion that asserts the overall merit of the Mersey Docks and Harbour Board when considering the tremendous and often unpredictable challenges the Board faced such as wartime disruption

**Hope in Troubled Times** Bob Goudzwaard, Mark Vander Vennen, David Van Heemst, 2007-05-01 We want to have it all financial strength secure homes clean air and water for our children With the latest technological advances available we deserve to have every dilemma resolved Isn't that the way it's supposed to work Hope in Troubled Times dares to say no Poverty terrorism and overtaxed land are planetary problems that make even believers despair But the authors point to Christ as the source of hope Our choice is obvious We work together learning to live unselfishly or we watch civilization sink further into the abyss With a foreword by renowned human rights activist Archbishop Desmond Tutu Hope in Troubled Times provides real world solutions to life threatening problems The authors show that with God's guidance we can knock down the idols that stunt clear thinking

**Teaching Literacy in Troubled Times** Allison Skerrett, Peter Smagorinsky, 2022-07-18 Upending deficit narrative of learning loss combating broken approaches to racial equity and wading deep into the contested waters of democratic principles of learning within today's schools Dr Skerrett and Dr Smagorinsky offer an accessible guidebook for making our classrooms sites of justice and joy Perhaps most importantly theirs is a book that reveals classroom practices as they really are the voices of teachers are situated as co authors in this important journey I cannot think of a more timely or relevant book for English educators than Teaching Literacy in Troubled Times Antero Garcia Ph D Associate Professor Graduate School of Education Stanford University Relevant instruction to move education forward instead of back to normal Educators often bemoan the so called learning gap that followed the upheaval to schooling in 2020 but the real learning gap will occur if the watershed events and social shifts of the early 2020s are not integrated into school instruction and learning

For today's learning to be relevant to today's students it must reflect their lives and the true social worlds they inhabit. But how? Teaching Literacy in Troubled Times empowers educators to engage students in critical thinking literacy activities and inquiry to investigate the personal and social issues of pressing importance to today's middle and high school students. Six units of study each co-authored by a teacher who road tested the activities in their own classroom guide teachers through the process of teaching literacy around the topics of identity, social inequity, global justice, empathy, racism, and racial literacy and conflicting ideas of patriotism. This urgent, timely guide to creating a relevant classroom includes instructional methods, content knowledge, and learning activities for each unit that engage students in critical inquiry and social action. Insights and guidance from teachers who put the full unit plans in action with students. Reflection questions to help teachers envision the work in their own classrooms. Templates, rubrics, examples of student work, and other tools that help teachers to plan and implement activities that grow students' capacity to understand and act in society. Prime your students with the critical thinking, investigative, and communicative skills they need to connect themselves to broader social movements and create a new generation of educated changemakers.

**Needing Isaiah's God in Troubled Times** Carole Streeter, 2017-10-30. The time has come, Isaiah said, to talk of many things: Of shanties in the garden patch and ships and foreign kings, Of rivers, seas and flowing streams, of lions, ewes and lambs, Of pelicans and porcupines, of owls and wild goats, Of people tall and smooth of skin, of scorching drought and rain, Of words that judge and words that weep and words that sing, Of sovereignty and covenant, and One who reigns forevermore. Approaching Isaiah through his words used often is like entering an ivy-covered side door that no one has opened recently. In her reflections on the twelve words, Carole Streeter draws from the prophets' love for Yahweh and Israel and the natural world and love for the past, present, and all that is to come in God's wondrous kingdom.

**EU Labour Migration in Troubled Times** Dr Béla Galgóczi, Dr Janine Leschke, Mr Andrew Watt, 2012-10-28. The debate on the free movement of labour within the EU has gained new momentum in the wake of the economic crisis. Building on the earlier Ashgate publication *EU Labour Migration Since Enlargement*, the editors have assembled a team of experts from across Europe to shed light on the critical issues raised by internal labour mobility within the EU in the context of economic crisis and labour market pressures. The book's chapters tease out the links between economic developments, regulatory frameworks, and migration patterns in different European countries. A central focus is on issues of skills and skills mismatch and how they relate to migration forms, duration, and individual decisions to stay or return. Based on detailed analysis of European and national level sources, the results presented clearly contradict assumptions about a knowledge-driven migration. Rather, over-qualification and the corresponding under-utilisation of migrant workers' skills emerge as a pervasive phenomenon. At the same time, the characteristics of migrants, not just skills but socio-

demographic characteristics and attitudes and also their labour market integration are shown to be very diverse and to vary substantially between different sending and receiving countries This calls for a differentiated analysis and raises complex issues for policymakers Examples where policy has contributed to positive outcomes for both migrants and domestic workforces are identified Unique in analysing labour migration flows within the European Union in a comparative manner putting skills into the centre and taking account of the effects of the economic crisis while addressing policy concerns this is a valuable resource for academics policymakers and practitioners alike **Franklin D.
