Frommersr Europe:

The Unwanted Michael Robert Marrus, There have always been homeless people but only in the twentieth century have refugees become an important part of international politics seriously affecting relations between states Since the 1880s the number of displaced persons has climbed astronomically with people scattered over vaster distances and for longer periods of time than ever before Tracing the emergence of this new variety of collective alienation *The Unwanted* covers everything from the late nineteenth century to the present encompassing the Armenian refugees the Jews the Spanish Civil War migr s the Cold War refugees in flight from Soviet states and much more Marrus shows not only the astounding dimensions of the subject but also depicts the shocking apathy and antipathy of the international community toward the homeless He also examines the impact of refugee movements on Great Power diplomacy and considers the evolution of agencies designed to assist refugees noting outstanding successes and failures

The Outsiders Philipp Ther,2019-11-26 The history of Europe as a continent of refugees European history has been permeated with refugees *The Outsiders* chronicles every major refugee movement since 1492 when the Catholic rulers of Spain set in motion the first mass flight and expulsion in modern European history Philipp Ther provides needed perspective on today s refugee crisis demonstrating how Europe has taken in far greater numbers of refugees in earlier periods of its history in wartime as well as peacetime His sweeping narrative crosses the Mediterranean and the Atlantic taking readers from the Middle East to the shores of America In this compelling book Ther examines the major causes of mass flight from religious intolerance and ethnic cleansing to political persecution and war He describes the perils and traumas of flight and explains why refugees and asylum seekers have been welcomed in some periods such as during the Cold War and why they are rejected in times such as our own He also examines the afterlives of the refugees in the receiving countries which almost always benefited from admitting them Tracing the lengthy routes of the refugees he reconceptualizes Europe as a unit of geography and historiography Turning to the history of refugees in the United States Ther also discusses the anti refugee politics of the Trump administration explaining why they are un American and bad for the country By setting mass flight against fifteen biographical case studies and drawing on his subjects experiences itineraries and personal convictions Ther puts a human face on a global phenomenon that concerns all of us

Distance Daniel Trilling,2018-09-18 Immersive engrossing report on the European refugee crisis A mother puts her children into a refrigerator truck and asks What else could I do A runaway teenager comes of age on the streets sleeping in abandoned buildings A student leaves his war ravaged country behind because he doesn't want to kill Everyone among the thousands of people who come to Europe in search of asylum each year possesses a unique story But those stories don't end as they cross into the West In *Lights in the Distance* acclaimed journalist Daniel Trilling draws on years of reporting to build a portrait of the refugee crisis as seen through the eyes of the people who experienced it firsthand As the European Union has grown so has a tangled and often violent system designed to filter out unwanted migrants Visiting camps and hostels

sneaking into detention centers and delving into his own family's history of displacement Trilling weaves together the stories of people he met and followed from country to country In doing so he shows that the terms commonly used to define them refugee or economic migrant legal or illegal deserving or undeserving fall woefully short of capturing the complex realities The founding story of the EU is that it exists to ensure the horrors of the twentieth century are never repeated Now as it comes to terms with the worst refugee crisis since the Second World War its declared values of freedom tolerance and respect for human rights are being put to the test *Lights in the Distance* is a uniquely powerful and illuminating exploration of the nature and human dimensions of the crisis *The Dream of Europe* Geert Mak, 2021-08-31 **Rediscovering the**

Hotel Years Joseph Roth, 2015-09-03 The hotel that I love like a fatherland is situated in one of the great port cities of Europe and the heavy gold Antiqua letters in which its banal name is spelled out shining across the roofs of the gently banked houses are in my eye metal flags metal bannerets that instead of fluttering shine out their greeting In the 1920s and 30s Joseph Roth travelled extensively in Europe leading a peripatetic life living in hotels and writing about the towns through which he passed Incisive nostalgic curious and sharply observed and collected together here for the first time his pieces paint a picture of a continent racked by change yet clinging to tradition From the compulsive exercise regime of the Albanian army the rickety industry of the new oil capital of Galicia and split and scalped houses of Tirana forced into modernity to the individual and idiosyncratic characters that Roth encounters in his hotel stays these tender and quietly dazzling vignettes form a series of literary postcards written from a bygone world creeping towards world war **Fortress Europe** Matthew

Carr, 2016-01-12 Singled out by Foreign Affairs for its reporting on the brutal frontiers of new Europe *Fortress Europe* is the story of how the world's most affluent region and history's greatest experiment with globalization has become an immigration war zone where tens of thousands have died in a humanitarian crisis that has galvanized the world's attention Journalist Matthew Carr brings to life remarkable human dramas based on extensive interviews and firsthand reporting from the hot zones of Europe's immigration battles in a narrative that moves from the desperate immigrant camps at the mouth of

the Channel Tunnel in Calais France to the chaotic Mediterranean sea where African migrants have drowned by the thousands Speaking with key European policy makers police soldiers on the front lines immigrant rights activists and an astonishing range of migrants themselves Carr offers a lucid account both of the broad issues at stake in the crisis and its exorbitant human costs The paperback edition includes a new afterword by the author which offers an up to the minute assessment of the 2015 crisis and a searing critique of Europe's response to the new waves of refugees The Unsettling of Europe Peter Gatrell,2021-01-28 Migration is perhaps the most pressing issue of our time and it has completely decentred European politics in recent years But as we consider the current refugee crisis acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move The end of World War II left Europe in a state of confusion with many Europeans virtually stateless Later as former colonial states gained national independence colonists and their supporters migrated to often unwelcoming metropolises The collapse of communism in 1989 marked another fundamental turning point Gatrell places migration at the centre of post war European history and the aspirations of migrants themselves at the centre of the story of migration This is an urgent history that will reshape our understanding of modern Europe **Reflections on the Revolution In Europe** Christopher Caldwell,2010-07-13 In light of cultural crises such as the Danish cartoon controversy and the terrorist attack on the Charlie Hebdo newspaper in Paris Christopher Caldwell's incisive perspective has never been more timely or indispensable Reflections on the Revolution in Europe is destined to become the classic work on how Muslim immigration permanently reshaped the West This provocative and unflinching analysis of Europe's unexpected influx of immigrants investigates the increasingly prominent Muslim populations actively shaping the future of the continent Muslims dominate or nearly dominate many important European cities including Amsterdam and Rotterdam Strasbourg and Marseille the Paris suburbs and East London and in those cities Islam has challenged the European way of life at every turn becoming in effect an adversary culture In Reflections on the Revolution in Europe Caldwell examines the anger of natives and newcomers alike He exposes the strange ways in which welfare states interact with Third World customs the anti Americanism that brings European natives and Muslim newcomers together and the arguments over women and sex that drive them apart He considers the appeal of sharia resistance and jihad to a second generation that is more alienated from Europe than the first and addresses a crisis of faith among native Europeans that leaves them with a weak hand as they confront the claims of newcomers **Stalin's Nose** Rory MacLean,1992 The New Odyssey Patrick Kingsley,2017-05-18 Europe is facing a wave of migration unmatched since the end of World War II and no one has reported on this crisis in more depth or breadth than the Guardian's migration correspondent Patrick Kingsley Throughout 2015 Kingsley travelled to 17 countries along the migrant trail meeting hundreds of refugees making epic odysseys across deserts seas and mountains to reach the holy grail of Europe This is Kingsley's unparalleled account of who these voyagers are It's about why they keep coming and how they do it It's about the smugglers who help them on their way

and the coastguards who rescue them at the other end The volunteers that feed them the hoteliers that house them and the border guards trying to keep them out And the politicians looking the other way **In Europe's Shadow** Robert D.
