**Failed Frontiersmen** James J. Donahue, 2015-02-04 In *Failed Frontiersmen* James Donahue writes that one of the founding and most persistent mythologies of the United States is that of the American frontier Looking at a selection of twentieth century American male fiction writers E L Doctorow John Barth Thomas Pynchon Ishmael Reed Gerald Vizenor and Cormac McCarthy he shows how they reevaluated the historical romance of frontier mythology in response to the social and political movements of the 1960s particularly regarding the Vietnam War civil rights and the treatment of Native Americans Although these writers focus on different moments in American history and different geographic locations the author reveals their commonly held belief that the frontier mythology failed to deliver on its promises of cultural stability and political advancement especially in the face of the multicultural crucible of the 1960s

**Landscapes of the New West** Krista Comer, 1999 In the early 1970s empowered by the civil rights and women's movements a new group of women writers began speaking to the American public Their topic broadly defined was the postmodern American West By the mid 1980s their combined works made for a bona fide literary groundswell in both critical and commercial terms However as Krista Comer notes despite the attentions of publishers the media and millions of readers literary scholars have rarely addressed this movement or its writers Too many critics Comer argues still enamored of western images that are both masculine and antimodern have been slow to reckon with the emergence of a new far more feminine postmodern multiracial and urban west Here she calls for a redesign of the field of western cultural studies one that engages issues of gender and race and is more self conscious about space itself\_ especially that cherished symbol of western authenticity open landscape

Surveying works by Joan Didion Wanda Coleman Maxine Hong Kingston Leslie Marmon Silko Barbara Kingsolver Pam Houston Louise Erdrich Sandra Cisneros and Mary Clearman Blew Comer shows how these and other contemporary women writers have mapped new geographical imaginations upon the cultural and social spaces of today's American West

**Bad Land Pastoralism in Great Plains Fiction** Matthew J. C. Cella, 2010-04-15 At the core of this nuanced book is the question that ecocritics have been debating for decades what is the relationship between aesthetics and activism between art and community By using a pastoral lens to examine ten fictional narratives that chronicle the dialogue between human culture and nonhuman nature on the Great Plains Matthew Cella explores literary treatments of a succession of abrupt cultural transitions from the Euroamerican conquest of the Indian wilderness in the nineteenth century to the Buffalo Commons phenomenon in the twentieth By charting the shifting meaning of land use and biocultural change in the region he posits this bad land the arid West as a crucible for the development of the human imagination Each chapter deals closely with two

novels that chronicle the same crisis within the Plains community Cella highlights for example how Willa Cather reconciles her persistent romanticism with a growing disillusionment about the future of rural Nebraska how Tillie Olsen and Frederick Manfred approach the tragedy of the Dust Bowl with strikingly similar visions and how Annie Proulx and Thomas King use the return of the buffalo as the centerpiece of a revised mythology of the Plains as a palimpsest defined by layers of change and response By illuminating these fictional quests for wholeness on the Great Plains Cella leads us to understand the intricate interdependency of people and the places they inhabit Cella uses the term pastoralism in its broadest sense to mean a mode of thinking that probes the relationship between nature and culture a discourse concerned with human engagement material and nonmaterial with the nonhuman community In all ten novels discussed in this book pastoral experience the encounter with the Beautiful leads to a renewed understanding of the integral connection between human and nonhuman communities Propelling this tradition of bad land pastoralism are an underlying faith in the beauty of wholeness that comes from inhabiting a continuously changing biocultural landscape and a recognition of the inevitability of change The power of story and language to shape the direction of that change gives literary pastoralism the potential to support an alternative series of ideals based not on escape but on stewardship community continuity and commitment

Little House, Long Shadow Anita Clair Fellman, 2008-05-21 Beyond their status as classic children's stories Laura Ingalls Wilder's Little House books play a significant role in American culture that most people cannot begin to appreciate Millions of children have sampled the books in school played out the roles of Laura and Mary or visited Wilder homesites with their parents who may be fans themselves Yet as Anita Clair Fellman shows there is even more to this magical series with its clear emotional appeal a covert political message that made many readers comfortable with the resurgence of conservatism in the Reagan years and beyond In Little House Long Shadow a leading Wilder scholar offers a fresh interpretation of the Little House books that examines how this beloved body of children's literature found its way into many facets of our culture and consciousness even influencing the responsiveness of Americans to particular political views Because both Wilder and her daughter Rose Wilder Lane opposed the New Deal programs being implemented during the period in which they wrote their books reflect their use of family history as an argument against the state's protection of individuals from economic uncertainty Their writing emphasized the isolation of the Ingalls family and the family's resilience in the face of crises and consistently equated self sufficiency with family acceptance security and warmth Fellman argues that the popularity of these books abetted by Lane's overtly libertarian views helped lay the groundwork for a negative response to big government and a positive view of political individualism contributing to the acceptance of contemporary conservatism while perpetuating a mythic West Beyond tracing the emergence of this influence in the relationship between Wilder and her daughter Fellman explores the continuing presence of the books and their message in modern cultural institutions from classrooms to tourism newspaper editorials to Internet message boards Little House Long Shadow shows how ostensibly apolitical artifacts of popular culture can help

explain shifts in political assumptions It is a pioneering look at the dissemination of books in our culture that expands the discussion of recent political transformations and suggests that sources other than political rhetoric have contributed to Americans renewed appreciation of individualist ideals *Judith Merrill* Dianne Newell, Victoria Lamont, 2014-01-10

Remembered as one of science fiction's best editors Judith Merrill 1923 1997 also wrote prolifically and stands as one of the genre's central figures in the United States and Canada This work offers a much needed literary biography and critical commentary on Merrill's groundbreaking science fiction anthologies reviews memoir and other endeavors A thorough account of Merrill's 50 year career it is a valuable source for students of science fiction women's life writing women's contributions to frontier mythology and women's activism *The New Western History* Forrest Glen Robinson, 1998 Seven scholars examine the work of the new western historians who retell the story of the American West from the point of view of the oppressed and colonized and discuss ways to expand the horizons of this new approach to include fiction literature by women racial categories writers who presaged the movement popular culture and natural history **Professionals in Western Film and Fiction** Kenneth E. Hall, 2019-06-17 In American Westerns the main characters are most often gunfighters lawmen ranchers and dancehall girls Civil professionals such as doctors engineers and journalists have been given far less representation usually appearing as background characters in most films and fiction In Westerns about the 1910 Mexican Revolution however civil professionals also feature prominently in the narrative often as members of the intelligentsia an important force in Mexican politics This book compares the roles of civil professionals in most American Westerns to those in films on the 1910 Mexican Revolution Included are studies on the Santiago Toole novels by Richard Wheeler *Strange Lady in Town* with Greer Garson and *La sombra del Caudillo* by Martin Luis Guzman **Serving Their Country** Paul C Rosier, 2012-09-03

Over the twentieth century American Indians fought for their right to be both American and Indian In an illuminating book Paul C Rosier traces how Indians defined democracy citizenship and patriotism in both domestic and international contexts Battles over the place of Indians in the fabric of American life took place on reservations in wartime service in cold war rhetoric and in the courtroom The Society of American Indians founded in 1911 asserted that America needed Indian cultural and spiritual values In World War II Indians fought for their ancestral homelands and for the United States The domestic struggle of Indian nations to defend their cultures intersected with the international cold war stand against termination the attempt by the federal government to end the reservation system Native Americans seized on the ideals of freedom and self determination to convince the government to preserve reservations as places of cultural strength Red Power activists in the 1960s and 1970s drew on Third World independence movements to assert an ethnic nationalism that erupted in a series of protests in Iroquois country in the Pacific Northwest during the occupation of Alcatraz Island and at Wounded Knee Believing in an empire of liberty for all Native Americans pressed the United States to honor its obligations at home and abroad Like African Americans twentieth century Native Americans served as a visible symbol of an America searching for rights and

justice American history is incomplete without their story      **Staging Migrations toward an American West** Marta Effinger-Crichlow, 2014-06-15 *Staging Migrations toward an American West* examines how black women's theatrical and everyday performances of migration toward the American West expose the complexities of their struggles for sociopolitical emancipation. While migration is often viewed as merely a physical process, Effinger-Crichlow expands the concept to include a series of symbolic internal journeys within confined and unconfined spaces. Four case studies consider how the featured women—activist Ida B. Wells, singer Sissieretta "Birdie" Black, Patti Jones, World War II black female defense industry workers, and performance artist Rhodessa Jones—imagined and experienced the American West geographically and symbolically at different historical moments. Dissecting the varied ways they used migration to survive in the world from the viewpoint of theater and performance theory, Effinger-Crichlow reconceptualizes the migration histories of black women in nineteenth and twentieth century America. This interdisciplinary study expands the understanding of the African American struggle for unconstrained movement and full citizenship in the United States and will interest students and scholars of American and African American history, women and gender studies, theater, and performance theory.

**The Six-gun Mystique Sequel** John G. Cawelti, 1999 To this structural analysis, he adds a new account of the genre's history and its relationship to the myths of the West which have played such an influential role in American history. **BOOK JACKET**      *The Myths That Made America* Heike Paul, 2014-08-15 This essential introduction to American studies examines the core foundational myths upon which the nation is based and which still determine discussions of US American identities today. These myths include the myth of discovery, the Pocahontas myth, the myth of the Promised Land, the myth of the Founding Fathers, the melting pot myth, the myth of the West, and the myth of the self-made man. The chapters provide extended analyses of each of these myths using examples from popular culture, literature, memorial culture, school books, and everyday life. Including visual material as well as study questions, this book will be of interest to any student of American studies and will foster an understanding of the United States of America as an imagined community by analyzing the foundational role of myths in the process of nation building.

*Willa Cather and the American Southwest* John N. Swift, Joseph R. Ugo, 2002-01-01 The American Southwest was arguably as formative a landscape for Willa Cather's aesthetic vision as was her beloved Nebraska. Both landscapes elicited in her a sense of raw incompleteness. They seemed not so much finished places as things unassembled, more like countries still waiting to be made into a landscape. Cather's fascination with the Southwest led to its presence as a significant setting in three of her most ambitious novels: *The Song of the Lark*, *The Professor's House*, and *Death Comes for the Archbishop*. This volume focuses a sharp eye on how the landscape of the American Southwest served Cather creatively and the ways it shaped her research and productivity. No single scholarly methodology prevails in the essays gathered here, giving the volume rare depth and complexity.      *The Ecological Eugene O'Neill* Robert Baker-White, 2015-09-25 The dramas of Eugene O'Neill, often called America's first serious playwright, exhibit an imagining of the natural world that enlivens the plays and marks the

boundaries of the characters' fates O'Neill's figures move within purposefully animated natural environments: ocean, dense forest, desert, plains, the rocky soil of New England. This new approach to O'Neill's dramas explores these ecological settings as crucial to his characters' ability to carry out their conscious and unconscious desires. O'Neill's career is covered from his youthful one acts to the middle years' experimental dramas to the mature tragedies of his late period. Special attention is paid to the connection of ecology and theological quest and to O'Neill's persistent evocation of an exotic natural other. Combining an ecocritical approach with an examination of Classical and philosophical influences on the playwright's creative process, the author reveals a new, less hermetic O'Neill.
