## **Frontier Stories Of The Klamath Country:**

**Frontier Stories of the Klamath Country** Carrol B. Howe,1989      **Lava Beds National Monument** Lee Juillerat,2015-09-14 The region in far northeastern California encompassed by Lava Beds National Monument is often called the Land of Burnt Out Fires The name reflects a landscape created by fiery volcanic forces including cataclysmic events that created more than 700 lava tube caves and an aboveground landscape shaped and fractured by lava flows and other geologic turmoil Despite its tortured landscape the region has also been a place of human habitation for thousands of years Early natives traveled through the lava beds as part of their seasonal travels for food and shelter The Modoc Indians knowledge of that landscape a natural lava fortress now known as Captain Jack s Stronghold was used during the Modoc War of 1872 and 1873 Modocs settlers and others who followed sheep ranchers homesteaders cave discoverers tourists spelunkers and US Forest Service and National Park Service managers have played prominent roles in creating the region s and Lava Beds National Monument s always evolving human history      The Center of the World, the Edge of the World Frederick L. Brown,2011      *Beyond the Frontier* Joseph Montague,1927      *The Klamath Project* Eric A. Stene,1994      **The Centennial History of Oregon, 1811-1912** Joseph Gaston,1912      *PNLA Quarterly* Pacific Northwest Library Association,1989      **History of the State of California and Biographical Record of Coast Counties, California** James Miller Guinn,1902      *History of Butte County, California* George C. Mansfield,1918      *Oregon Historical Quarterly* Oregon Historical Society,2014      *The Golden Frontier* Herman Francis Reinhart,2014-08-27 The gold rush was Herman Francis Reinhart s life for almost twenty years From the summer of 1851 when as a boy in his late teens he traveled the Oregon trail to California until a January day in 1869 when he climbed aboard an eastbound train at Evanston Wyoming he was a part of every gold discovery that stirred the West Reinhart dipped his pan in the streams of northern California and western Oregon in Humbug Creek Indian Creek Rogue River and Sucker Creek He made the arduous and dangerous overland journey through Indian occupied western Washington and British Columbia to find the Fraser River gold even more elusive than that farther south With his teams and wagons he traversed all of the inland mine areas from Walla Walla to Fort Benton from Boise Basin to South Pass City Reinhart s German common sense soon turned him from actual mining to other sources of income but whatever his labor was the mines were always the focal point of his activities When he operated a bakery and saloon it was a business whose customers were miners whose transactions were more likely to involve gold dust than legal tender and whose gambling tables saw the exchange of mining fortunes When he operated a whipsaw mill the timbers cut there were used by miners for sluices and cradles For a while Reinhart farmed but planting and harvesting suffered from interruption by frequent expeditions to the mines And when he prospered as a teamster it was to and from the mining towns that he hauled passengers supplies and equipment The men who like Herman Francis Reinhart hopefully followed the golden frontier were not an articulate group and the written records of their lives are few and fragmentary But Reinhart in his later

years recorded his experiences in five long narrow hardback ledgers Many years after he died his daughter gave the ledgers to a friend in Chanute Kansas Nora Cunningham who read the narrative became fascinated by it and typed it for publication Reinhart s account written in a grammar and language all his own is not a record of the historian s West but of the West of the individual miner The pages are filled with the details of day to day life of the miners the subjects that interested them the problems that plagued them their fun and feuding their frustrations and hopes Edited by an authority of the history of the West it is a book that will offer exciting reading to casual readers and scholars alike

### **The Frontiers of Women's**

**Writing** Brigitte Georgi-Findlay, 2022-05-10 Although the myth of the American frontier is largely the product of writings by men a substantial body of writings by women exists that casts the era of western expansion in a different light In this study of American women s writings about the West between 1830 and 1930 a European scholar provides a reconstruction and new vision of frontier narrative from a perspective that has frequently been overlooked or taken for granted in discussions of the frontier Brigitte Georgi Findlay presents a range of writings that reflects the diversity of the western experience Beginning with the narratives of Caroline Kirkland and other women of the early frontier she reviews the diaries of the overland trails letters and journals of the wives of army officers during the Indian wars professional writings focusing largely on travel by women such as Caroline Leighton from the regional publishing cultures that emerged in the Far West during the last quarter of the century and late nineteenth and early twentieth century accounts of missionaries and teachers on Indian reservations Most of the writers were white literate women who asserted their own kind of cultural authority over the lands and people they encountered Their accounts are not only set in relation to a masculine frontier myth but also investigated for clues about their own involvement with territorial expansion By exploring the various ways in which women writers actively contributed to and at times rejected the development of a national narrative of territorial expansion based on empire building and colonization the author shows how their accounts are implicated in expansionist processes at the same time that they formulate positions of innocence and detachment Georgi Findlay has drawn on American studies scholarship feminist criticism and studies of colonial discourse to examine the strategies of women s representation in writing about the West in ways that most theorists have not She critiques generally accepted stereotypes and assumptions both about women s writing and its difference of view in particular and about frontier discourse and the rhetoric of westward expansion in general as she offers a significant contribution to literary studies of the West that will challenge scholars across a wide range of disciplines

**Landscapes of Promise** William G. Robbins, 2009-11-23 Landscapes of Promise is the first comprehensive environmental history of the early years of a state that has long been associated with environmental protection Covering the period from early human habitation to the end of World War II William Robbins shows that the reality of Oregon s environmental history involves far more than a discussion of timber cutting and land use planning Robbins demonstrates that ecological change is not only a creation of modern industrial society Native Americans altered their environment in a number

of ways including the planned annual burning of grasslands and light burning of understory forest debris Early Euro American settlers who thought they were taming a virgin wilderness were merely imposing a new set of alterations on an already modified landscape Beginning with the first 18th century traders on the Pacific Coast alterations to Oregon s landscape were closely linked to the interests of global market forces Robbins uses period speeches and publications to document the increasing commodification of the landscape and its products Environment melts before the man who is in earnest wrote one Oregon booster in 1905 reflecting prevailing ways of thinking In an impressive synthesis of primary sources and historical analysis Robbins traces the transformation of the Oregon landscape and the evolution of our attitudes toward the natural world Reopening the Frontier Brian Q.
