**Linking Ecology and Ethics for a Changing World** Ricardo Rozzi, S.T.A. Pickett, Clare Palmer, Juan J. Armesto, J. Baird Callicott, 2014-02-06 To comprehensively address the complexities of current socio ecological problems involved in global environmental change it is indispensable to achieve an integration of ecological understanding and ethical values Contemporary science proposes an inclusive ecosystem concept that recognizes humans as components Contemporary environmental ethics includes eco social justice and the realization that as important as biodiversity is cultural diversity inter cultural inter institutional and international collaboration requiring a novel approach known as biocultural conservation Right action in confronting the challenges of the 21st century requires science and ethics to be seamlessly integrated This book resulted from the 14th Cary Conference that brought together leading scholars and practitioners in ecology and environmental philosophy to discuss core terminologies methods questions and practical frameworks for long term socio ecological research education and decision making

**The Ethics of the Environment** Robin Attfield, 2017-05-15 This book brings together over thirty of the foremost contributions to environmental ethics from pioneering papers to recent work at the cutting edge of thought in this field It also unites them through an innovative introductory essay which appraises both strengths and weaknesses and presents a distinctive view of the subject Areas covered include the land ethic Deep Ecology biocentric approaches environmental virtue ethics feminist contributions debates on equity and on the interests and representation of future generations preservation sustainability and sustainable development The importance of attempts to discover a comprehensive ethic relevant both to the environment and other key areas of ethical debate is highlighted Robin Attfield has been working in this field for thirty years and has published several related collections and monographs of which the latest is **Environmental Ethics An Overview for the Twenty First Century** published by Polity in 2003 **The Ethics of The Environment** complements that work from which it incorporates a significant extract about the considerable practical difference that environmental ethics is capable of making

**Ecology and Environmental Ethics** Robert Jay Goldstein, 2021-07-09 Originally published in 2004 Examining the successes and failures

of three decades of environmental law this absorbing book reconsiders some of the policies devised to remedy centuries of abuse of the planet It acknowledges the advances made using technological standards to effect pollution control as well as rudimentary systems that regulate use of land at the local level However as the author observes these systems have limitations in solving vexing problems such as sprawl and non point source pollution as the cost of their use can easily outweigh the benefits He suggests a system termed Green Wood in the Bundle of Sticks that provides the necessary theoretical and historical bases to bridge the gap between the potentials of each system Using objective criteria based on science this system is tied to a land ownership system that also takes into account societal concerns at a broader level

*Environmental Ethics* Michael Boylan, 2022-03-15 The latest edition of an essential resource in the theory and applications of environmental ethics In the newly revised Third Edition of *Environmental Ethics* internationally renowned philosopher Michael Boylan delivers another accessible introduction for students new to ethics and an invaluable reference for scholars of all levels The anthology includes important essays both established and contemporary as well as eight brand new contributions commissioned specifically for this edition This new material is the foundation for students understanding of the most recent ethical debates on the environment and humanity's place within it The balanced combination of new material on recent developments in the field and well known foundational articles appears alongside helpful pedagogical materials including case studies and sample questions The book brings students up to speed on all the main themes in the area including worldview arguments for environmentalism the anthropocentric vs biocentric debate and a variety of applied environmental problems *Environmental Ethics* also offers A thorough introduction to the theoretical background of environmental ethics including discussions of ethical reasoning nature and the tragedy of the commons Comprehensive explorations of eco feminism and social justice aesthetics and deep ecology Practical discussions of anthropocentric and biocentric justifications in environmental ethics In depth examinations of applied environmental problems including climate change animal rights sustainability and public policy Perfect for undergraduate and graduate students studying topics in ethics the environment law and policy *Environmental Ethics* will also earn a place in the libraries of philosophers with an interest in applied or environmental ethics and industry consultants to ecologists environmental scientists or environmental policymakers

*Environmental Ethics and Process Thinking* Clare Palmer, 1998 In this study Clare Palmer challenges the belief that the process thinking of writers like A N Whitehead and Charles Hartshorne has offered an unambiguously positive contribution to environmental ethics She compares process ethics to a variety of other forms of environmental ethics as well as deep ecology and reveals a number of difficulties associated with process thinking about the environment

**The Ethics of Environmental Concern** Robin Attfield, 2011-03-15 First published in 1983 *The Ethics of Environmental Concern* has become a classic in the relatively new field of environmental ethics Examining traditional attitudes toward nature and the degree to which these attitudes enable us to cope with modern ecological problems Robin Attfield looks particularly at the

Judeo Christian heritage of belief in humankind's dominion the tradition of stewardship and the more recent belief in progress to determine the extent to which these attitudes underlie ecological problems and how far they embody resources adequate for combating such problems He then examines concerns of applied ethics and considers our obligations to future generations the value of life and the moral standing and significance of nonhumans Simultaneously he offers and defends a theory of moral principles appropriate for dealing with such concerns as pollution scarce natural resources population growth and the conservation and preservation of the environment The second edition includes a new preface and introduction as well as a bibliographic essay and an updated list of references incorporating relevant scholarship since the publication of the first edition

*Environmental Ethics* Richard George Botzler, Susan Jean Armstrong, 1998 This anthology edited by a professor of wild life science and a professor of philosophy offers the most current and comprehensive collection on the topic of environmental ethics available today It surveys diverse approaches to environmental ethics by leading writers from a variety of disciplines and provides an historical survey of thought on our responsibility to the environment The perspectives are represented by their most articulate spokespersons and are accompanied by appraisals of their respective strengths and weaknesses Chapter introductions headnotes discussion questions and annotated bibliographies are provided Twenty eight of the 64 articles are new The new edition deletes those articles with which students had difficulty because they were hard to read and substitutes newer or better written articles All chapter introductions were revised to reflect changes in the field New topics include biodiversity ecological restoration environmental justice and genetic engineering A new section in the appendix on conflict resolution was requested by students

**Environment and Philosophy** Emily Brady, with Jane Howarth, Vernon Pratt, 2005-07-26 Environment and Philosophy provides an accessible introduction to the radical challenges that environmentalism poses to concepts that have become almost second nature in the modern world These include the ideas of science and objectivity the conventional placement of the human being within the environment the individualism of conventional Modern thought Written in an accessible way for those without a background in philosophy this text examines ways of thinking about ourselves nature and our relationship with nature It offers an introduction to the phenomenological perspective on environmental issues and also to the questions of what natural beauty is

**Environmental Ethics** Andrew Light, Holmes Rolston, III, 2002-08-16 Environmental Ethics An Anthology brings together both classic and cutting edge essays which have formed contemporary environmental ethics ranging from the welfare of animals versus ecosystems to theories of the intrinsic value of nature

**Case Studies in Environmental Ethics** Patrick George Derr, Edward M. McNamara, 2003 A collection of more than 40 case studies covering diverse topics such as genetic engineering aesthetics pollution animal rights population and resource management Case Studies in Environmental Ethics is intended as a supplemental book for college courses primarily in environmental ethics Each case presents factual information on a particular topic followed by a discussion of the ethical

implications of each topic and several insightful discussion questions      **Environmental Philosophy** Michael E. Zimmerman, 2005 This text explores the full spectrum of concerns in contemporary eco philosophy environmental ethics ecofeminism and social justice environmental continental philosophy and political ecology      Ecology, Ethics and Hope Andrew T. Brei, 2015-11-30 Ecology Ethics and Hope explores what hope is how it operates and whether or not it is important in our response to ecological challenges like climate change deforestation biodiversity loss and pollution The book offers an accessible and timely overview of this emerging topic within environmental ethics a platform for further discussion and refinement of the notion of hope Hope has started to receive more theoretical attention from philosophers and social scientists In light of worsening ecological conditions the concept of hope may offer motivation for us to change our destructive ways and conserve the ecosystem goods and systems we depend on The authors in this collection take stock of the various accounts of what hope is or is not what it does or does not and how relevant it is to ecological thinking The book covers topics including the psychology of hope how it might operate and change minds hope as a motivator of positive action and hope's essence in the context of a virtue or obligation focused morality Contributors Elizabeth Andre Assistant Professor of Outdoor Education Northland College USA Jonathan Beever Postdoctoral Scholar Rock Ethics Institute Penn State University USA Andrew T Brei Visiting Assistant Professor of Philosophy St Mary's University Andrew Fiala Professor of Philosophy California State University Fresno USA Trevor Hedberg Graduate Student University of Tennessee Knoxville USA Lisa Kretz Assistant Professor of Philosophy University of Evansville USA Michael Nelson Professor of Environmental Ethics and Philosophy Oregon State University USA John Nolt Professor of Philosophy University of Tennessee Knoxville USA Brian Treanor Professor of Philosophy Loyola Marymount University USA      The Structural Links between Ecology, Evolution and Ethics Donato Bergandi, 2013-01-06 Evolutionary biology ecology and ethics at first glance three different objects of research three different worldviews and three different scientific communities In reality there are both structural and historical links between these disciplines First some topics are obviously common across the board Second the emerging need for environmental policy management has gradually but radically changed the relationship between these disciplines Over the last decades in particular there has emerged a need for an interconnecting meta paradigm that integrates more strictly evolutionary studies biodiversity studies and the ethical frameworks that are most appropriate for allowing a lasting co evolution between natural and social systems Today such a need is more than a mere luxury it is an epistemological and practical necessity      Beyond the Land Ethic J. Baird Callicott, University Distinguished Research Professor J Baird Callicott, 1999-01-01 A leading theorist addresses a wide spectrum of topics central to the field of environmental philosophy

**In Accord with Nature** Clifford E. Knapp, 1999 This book demonstrates how educators and youth leaders can help middle school and older students understand and define their relationship with nature and learn the importance of protecting the environment Chapter 1 defines environmental ethics and discusses biocentric and anthropocentric ways of seeing the

world Chapter 2 examines how ecology nature technology and human communities relate to environmental ethics Chapter 3 classifies types of environmental ethics discusses misconceptions and excuses that act as barriers to following an environmental ethic and provides details on specific ethics Wise Use movement social ecology ecofeminism land stewardship or management Leopold's ecological conscience or land as community Schweitzer's reverence for life deep ecology or bioregionalism indigenous or traditional ethics animal liberation and rights and radical ecoactivism Chapter 4 discusses strategies for teaching environmental ethics and values criticisms of such education in public schools instructional challenges and authentic assessment of student progress Chapter 5 describes 40 outdoor and classroom activities to help students develop an environmental ethic The activities fall into 11 categories thinking and discussion solo reflection writing nature study questioning codes of ethics role models action projects aesthetics literature and games Chapter 6 lists environmental ethics curricular resources and periodicals A bibliography contains approximately 180 references An index and chapter notes are included SV

*The Rights of Nature* Roderick Frazier Nash, 1989-01-17 Charting the history of contemporary philosophical and religious beliefs regarding nature Roderick Nash focuses primarily on changing attitudes toward nature in the United States His work is the first comprehensive history of the concept that nature has rights and that American liberalism has in effect been extended to the nonhuman world A splendid book Roderick Nash has written another classic This exploration of a new dimension in environmental ethics is both illuminating and overdue Stewart Udall His account makes history come alive Sierra So smoothly written that one almost does not notice the breadth of scholarship that went into this original and important work of environmental history Philip Shabecoff New York Times Book Review Clarifying and challenging this is an essential text for deep ecologists and ecophilosophers Stephanie Mills Utne Reader

**The Environmental Ethics and Policy Book** Donald VanDeVeer, Christine Pierce, 1998 This text and sourcebook crosses disciplinary boundaries and attends seriously to economic reasoning and its implications for environmental policy issues while taking a broad view of questions of ethics It is appropriate and valuable not only for philosophy and environmental science students but also for students of economics biology engineering and public policy

*The Environment and Christian Ethics* Michael S. Northcott, 1996-09-28 This book is about the extent origins and causes of the environmental crisis Dr Northcott argues that Christianity has lost the biblical awareness of the interconnectedness of all life He shows how Christian theologians and believers might recover a more ecologically friendly belief system and life style The author provides an important corrective to secular approaches to environmental ethics including utilitarian individualism animal rights theories and deep ecology
