**Economic Diplomacy** Maaïke Okano-Heijmans, 2013-07-04 This book by Maaïke Okano Heijmans makes an important contribution to the concept of economic diplomacy A conceptual study mode of economic diplomacy is combined with applied analysis of Japan's economic diplomacy practice The two approaches reinforce one another yielding a conceptualization of economic diplomacy that is grounded in practical insights A comprehensive approach A core argument in the book is that economic diplomacy strategically affirms that economic commercial interests and political interests reinforce one another and should thus be seen in tandem This contrasts with the predominant approach in the transatlantic world which attaches relatively greater importance to the military economic linkage in the quest for influence The case of Japan Japan has employed economic diplomacy as a central instrument of its foreign policy and quest for national security since the post war period The reconfiguration of regional and global power that started in the 1990s encouraged the Japanese government in coordination and cooperation with the private sector to reassess its economic diplomacy policy Power shifts Economic Diplomacy Japan and the Balance of National Interests illuminates the debates underlying these shifts the various ways by which Japan's reinvention of its economic diplomacy is implemented and the consequences for Japanese foreign policy at large Practical relevance The critical insights offered by the examination of Japan are pertinent for Western countries as well as for other East Asian nations They will be of interest to scholars and practitioners of diplomacy international relations and international economic law and policy This book is the ninth volume in the Diplomatic Studies series edited by Jan Melissen and published by Brill Martinus Nijhoff Publishers For more information see [brill.com/economic-diplomacy](http://brill.com/economic-diplomacy) 0 Economic Diplomacy and the Geography of International Trade Peter A. Foreign Affairs MoFA of various states This book provides useful insights into how modern diplomacy works especially the integration of informalities into formal diplomatic practices in complex peace and security environments within such a framework of change     The European Union and Global Politics Richard Youngs, 2021-03-31 This accessible new textbook situates the European Union in a dramatically changed world order Resisting a more traditional and abstract introduction to the institutions structures and policy making processes of the EU this innovative new text cuts through the jargon to demonstrate how hard the EU must work to retain its international influence Taking into account the latest empirical developments including the spread of war and violence in the East with Ukraine and the ongoing turbulent politics of North Africa and the Middle East Richard Youngs an expert in the field introduces us to how the EU has been forced to act differently The book is unique in offering an outside in conceptual framework that inverts the way that the EU external action is studied and understood It unpacks the different international challenges the EU has faced in recent years including the weakening of global order the need for more protective security geo economic competition climate change and conflicts to its east and south In each case the book examines how the EU has responded and how its core international identity has changed as a result assessing whether the Union still retains strong global influence This book is the ideal companion for students taking modules on the European Union s foreign policy global politics and for students of European Union Politics more broadly at both undergraduate and postgraduate levels     **Small States in EU Policy-Making** Anna-Lena Högenauer, Matúš Mišík, 2024-04-30 Small States in EU Policy Making analyses how small states try to impact European Union policy making through a range of strategies With the last rounds of enlargement and Brexit the number and weight of small states in the European Union have steadily increased At the same time small states face distinct challenges in different institutions which may impact their strategies Nonetheless the existing literature primarily focuses on the Council of the European Union and the European Council and offers few insights into how small states navigate the other institutions The contributions to this volume examine how small states can wield influence in different institutions arguing that they do indeed pursue different strategies depending on institutional context The policy case studies on the EU s foreign and security policies confirm these findings small states can have influence in EU policy making and can create situations where their needs are met They are most likely to succeed when they build foreign policy coalitions when they anticipate major economic developments and when they manage to acquire a high level of expertise in a policy area However the case studies also show that there is a risk of small states becoming policy takers in cases where they cannot provide leadership in terms of ideas and expertise and or fail to build political weight through coalitions This book will be of interest to academics and practitioners of European politics and the EU in particular as well as policy makers and practitioners working on small states The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license     **New Nationalisms and China's Belt and Road**

Mireille Manga Edimo, 2022-10-29 This book is a treatise on cultural globalization and the global political economy By introducing the transnational public domain in the study of China's Belt and Road Initiative BRI the book goes beyond existing theoretical frameworks involving both the clash between civilizations and the time worn division of the world into North and South It advances a new focus on the theoretical and empirical elements that canvass global cultural behaviours and reactionary attitudes to the expanding Chinese economic norms cultures and values in different national contexts Readers of political theory global political economy globalization international relations political sociology cultural sociology public policy and foreign policy analysis will find interest in the book Whereas new nationalism couples with globalism both concepts are rediscovered through various socio economic contexts of BRI policy discourses which produce conflicts solidarities new economic partnerships and cooperation and resistance as types of contemporary nationalism The new nationalism is approached as a dual sided relational and dialectical phenomenon which readers will capture by paying particular attention to both the global and local scales of the social responses to the BRI Chinese Scholars and Foreign Policy Huiyun Feng, Kai He, Yan Xuetong, 2019-01-04 How does China see the rest of the world One way to answer this question is to look at the work of China's scholars in the field of International Relations IR This leads to a second question to what extent do Chinese IR scholars influence Beijing's foreign policy and outlook The contributors to this book seek to answer these key questions drawing on their own first and second hand experiences of involvement in scholarly IR debates in China Discussing fundamental aspects of China's foreign policy such as China's view of the international structure soft power projection maritime disputes and the principle of non interference this book provides insights into the hinterland of Chinese foreign policy making It is an invaluable reference for global IR scholars especially those with a direct interest in understanding and predicting China's actions and reactions on a range of international issues **Power Politics in Africa** Olusola Ogunnubi, Samuel Oyewole, 2020-11-09 This collection of essays examines the subject of power politics in Africa paying special attention to the interests of African regional powers as well as their capabilities and strategies in the international arena It provides a theoretical bridge between concerns for militarised national interest perpetual distrust and insecurity struggles for power and hegemony in power politics and the spirit of pan African solidarity brotherhood consensus cooperation and integration It is on these bases that this volume offers rich empirical insight into leading regional powers in Africa with special attention given to Nigeria and South Africa It serves to contribute African perspectives to the field of International Relations particularly regarding power politics which is important in terms of Africanising the narratives of a subject matter that is largely considered as Eurocentric in African and other non Western societies **Rising Power, Limited Influence** Indrajit Roy, Jappe Eckhardt, Dimitrios Strokos, Simona Davidescu, 2024-01-24 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations China's resurgence has spawned anxieties

about an impending revision of the Liberal International Order Drawing on case studies of Chinese investments across Europe the contributors to this volume investigate the ways in which China translates its growing resources into effective influence with varying degrees of success They find that influence is most effectively achieved by harnessing the agency of states and societies in Europe towards China s preferences Fragmented and messy rather than unified and coherent these preferences comprise an amalgam of domestic regional and international considerations rather than aimed at revising world order Nevertheless as the contributors to this volume demonstrate the interaction of European agency and Chinese preferences could have a variety of unintended consequences that range from straining the Liberal International Order to strengthening it Against narratives that foreground inevitable conflict or assured cooperation *Rising Power Limited Influence* innovates a dynamic framework to understand the granular ways in which states and societies in Europe interact with state and society in China to re shape the Liberal International Order Its contribution is three fold Conceptually it offers a relational definition of power that pinpoints attention to the ways in which China translates its growing investments in Europe towards influencing the preferences of host countries Empirically it outlines the different modalities through which China harnesses the agency of European countries towards its own fragmented preferences Theoretically the book introduces a dynamic framework to understand the interaction between state society relations in China with state society relations in European countries to comprehensively appreciate the extent limits and modalities of resurgent China s global influence
