**Introduction to Hong Kong** Gilad James, PhD, Hong Kong is a special administrative region of the People's Republic of China. It is situated on the southeastern coast of China and has a population of over 7 million people. Hong Kong is made up of a main island and a series of smaller islands and is known for its impressive skyline and bustling port. The official languages of Hong Kong are Chinese and English and the region is known for its vibrant culture and cuisine. Hong Kong has a rich history that encompasses both Chinese and British influences. In 1842 the region was handed over to Great Britain by China in the Treaty of Nanking. Hong Kong remained under British rule until 1997 when it was returned to China under the principle of one country, two systems. Today Hong Kong has a highly developed economy that is centered on international trade and finance. The region also boasts a highly efficient public transportation system that includes buses, trains, trams, and ferries. With a unique blend of Eastern and Western cultures and a strong economic landscape, Hong Kong is truly a global city.

**Skills Formation for Economic Growth** David Lim, 2025-03-31. This book explores the vocational education programmes of Hong Kong programmes that are repeatedly noted for their excellence. The book traces the founding and development of the Vocational Training Council of Hong Kong which was set up in 1982 to offer sub-degree programmes in vocational and professional education and training. It shows how it transformed itself from an institution seen by industry, government and the public alike as not meeting the needs of Hong Kong to one that has spearheaded the development of this form of education in Hong Kong, including offering degree programmes in these areas through its Technological and Higher Education Institute. Written by a leading scholar of vocational education with extensive experience of devising and

implementing vocational education programmes it offers this as a valuable resource to students and scholars of education particularly in an Asian context as well as of vocational and professional education and training

**Widening Income Distribution in Post-Handover Hong Kong** Hon-Kwong Lui, 2013-03-20 Before the handover to China in 1997 Hong Kong's economic growth was very strong and the unemployment rate dropped to a record low of 2.2 per cent. In recent years the widening income dispersion in Hong Kong has caught public attention. This book investigates the economic development and changes in income distribution of Hong Kong from different perspectives. Based on latest empirical evidence of Hong Kong, the book examines the relationship between economic restructuring and rising income disparity. Public housing programmes in Hong Kong affect half of the population directly and the other half indirectly. This book assesses the redistributive effect of public rental housing on income distribution. Moreover, Hong Kong embarked on an ambitious expansion programme of tertiary education in 1989. The expansion represents an exogenous increase in the supply of university graduates and the book evaluates the impact on income distribution. It also investigates the income dispersion among and between natives and immigrants. Researchers, politicians and policy makers should be interested to learn about the causes of rising income dispersion in post-handover Hong Kong uncovered in this book. Although economic restructuring is named as the prime suspect that caused rising income inequality, the empirical evidence proves otherwise. The book will be of interest to policy makers with implications on the social security system and income disparity.
