Economic Restructuring And Political Response:

Economic Restructuring and Political Response Robert A. Beauregard, 1989 Economic Restructuring and Political Response clarifies theoretical issues of economic restructuring developed as a result of the economic upheavals which began in the early seventies and have had major social and political consequences It explores the theoretical nature of economic restructuring in the postwar period and examines actual qualitative transformations in capitalistic social formation It then focuses on the political response to these transformations considering the influence of economic restructuring on political action *Political Economy, Diversity and Pragmatism* Patsy Healey, 2017-03-02 Planning Theory has a history of common debates about ideas and practices and is rooted in a critical concern for the improvement of human and environmental well being particularly as pursued through interventions which seek to shape environmental conditions and place qualities The second volume in this series covers in detail critical political economy the turn to diversity and critical pragmatism It provides an authoritative collection in an accessible form of the most important and influential articles and papers along with a detailed introduction by the editors It offers a unique reference resource for planning scholars upper level undergraduate and post graduate students The Political and Economic Transition in East Asia Xiaoming Huang, 2013-09-05 The book examines the political and economic developments in East Asia since the end of the Cold War in an attempt to identify a broad pattern of transition particularly in terms of the reshaping of the state's relations with forces and institutions in economy politics and domestic international interactions The chapters are organised into three parts I The state in the new economy II The state in the new politics III The state in the new global environment The contributors find a general pattern of the state's withdrawal from these three areas But it is not simply that the market takes over as some envisaged Instead the transition is moving towards a set of governance producing arrangements in which the role of both the market and the state are appreciated The book concludes that a more sophisticated approach is needed to the problems of development vs governance the state vs the market and global dynamics vs national interests for a better understanding of the dynamic transition and the consequent new political economy in East Asia **Economic Transition, Unemployment and Active Labour Market Policy** Corinne Nativel, 2004-05-26 No Marketing Blurb **The New Localism** Edward G. Reform and Reaction in Post-Mao China Richard Baum, 2018-09-18 The decade of the 1980s began in China with great expectations of the societal benefits of modernisation and ended with gunfire in Tiananmen Square This book first published in 1991 presents essays that explore the political and economic reform policies that emerged in post Mao China under Deng Xiaoping In general they conclude that the advent of partial marketization and structural reform tended to magnify structural contradictions rather than solve them

China's Great Economic Transformation Loren Brandt, Thomas G. Rawski, 2008-04-14 This landmark study provides an integrated

analysis of China's unexpected economic boom of the past three decades. The authors combine deep China expertise with broad disciplinary knowledge to explain China's remarkable combination of high speed growth and deeply flawed institutions. Their work exposes the mechanisms underpinning the origin and expansion of China's great boom. Penetrating studies track the rise of Chinese capabilities in manufacturing and in research and development. The editors probe both achievements and weaknesses across many sectors including China's fiscal, legal and financial institutions. The book shows how an intricate minuet combining China's political system with sectorial development, globalization, resource transfers across geographic and economic space and partial system reform delivered an astonishing and unprecedented growth spurt. **Europe and**

Economic Reform in Africa Obed O. Mailafia, 2005-08-12. The post colonial relationship between European and African states is complex. This book examines the unprecedented changes since the oil crisis of the 1970s using new field work from Zambia as well as existing material. **Networks of Privilege in the Middle East: The Politics of Economic Reform**

Revisited S. Heydemann, 2004-08-20. This volume explores the role of informal networks in the politics of Middle Eastern economic reform. The editor's introduction demonstrates how network based models overcome limitations in existing approaches to the politics of economic reform. The following chapters show how business state networks in Egypt, Morocco, Tunisia, Syria, Lebanon and Jordan have affected privatization programs and the reform of fiscal policies. They help us understand patterns and variation in the organization and outcome of economic reform programs including the opportunities that economic reforms offered for reorganizing networks of economic privilege across the Middle East. Party Politics and

Economic Reform in Africa's Democracies M. Anne Pitcher, 2012-05-07. In Party Politics and Economic Reform in Africa's Democracies M. Anne Pitcher offers an engaging new theory to explain the different trajectories of private sector development across contemporary Africa. Pitcher argues that the outcomes of economic reforms depend not only on the kinds of institutional arrangements adopted by states in order to create or expand their private sectors but also on the nature of party system competition and the quality of democracy in particular countries. To illustrate her claim Pitcher draws on several original data sets covering twenty seven countries in Africa and detailed case studies of the privatization process in Zambia, Mozambique and South Africa. This study underscores the importance of formal institutions and political context to the design and outcome of economic policies in developing countries. Democratic Politics and Economic Reform in India

Rob Jenkins, 1999. This book takes issue with existing theories of the relationship between democracy and economic liberalisation. **An Introduction to Political Geography** Martin Jones, Rhys Jones, Michael Woods, 2004. An Introduction to Political Geography provides a broad based introduction to how power interacts with space, how place influences political identities and how policy creates and remoulds territory. By pushing back the boundaries of what we conventionally understand as political geography, the book emphasizes the interactions between power, politics and policy, space, place and territory in different geographical contexts. This is both an essential text for political geographers and also a valuable

resource for students of related fields with an interest in politics and geography **Social Movements and Economic Transition** Heather L. Williams, 2001-01-15 This book examines patterns of political mobilization among groups in Mexico whose livelihoods have been threatened by trade opening, fiscal retrenchment and market liberalization. Using data from case studies of a worker based movement and a farmer based movement, Williams argues that economic transition, in altering modes of state-society bargaining, has shifted the locus of contention and has altered the form and shape of distributive protest. Williams further argues that social movements make strategic choices in their use of resources in order to widen their constituencies and extend the length of their insurgencies **From Economic Crisis to Reform** Grigore Pop-Eleches, 2008-12-08 The wave of neoliberal economic reforms in the developing world since the 1980s has been regarded as the result of both severe economic crises and policy pressures from global financial institutions such as the International Monetary Fund (IMF). Using comparative evidence from the initiation and implementation of IMF programs in Latin America and Eastern Europe, *From Economic Crisis to Reform* shows that economic crises do not necessarily persuade governments to adopt IMF style economic policies. Instead, ideology, interests and institutions at both the international and domestic levels mediate responses to such crises. Grigore Pop-Eleches explains that the IMF's response to economic crises reflects the changing priorities of large IMF member countries. He argues that the IMF gives greater attention and favorable treatment to economic crises when they occur in economically or politically important countries. The book also shows how, during the neoliberal consensus of the 1990s, economic crises triggered IMF style reforms from governments across the ideological spectrum and how these reforms were broadly compatible with democratic politics. By contrast, during the Latin American debt crisis, the contentious politics of IMF programs reflected the ideological rivalries of the Cold War. Economic crises triggered ideologically divergent domestic policy responses and democracy was often at odds with economic adjustment. The author demonstrates that an economic crisis triggers neoliberal economic reforms only when the government and the IMF agree about the roots and severity of the crisis.
