**United States Foreign Policy and Economic Reform in Three Giants** John Echeverri-Gent, 2017-07-28 Three of the largest and strategically most important nations in the world, the Soviet Union, China and India, are currently in the throes of historic change. The reforms in the giants are transforming global economic and geopolitical relations. The United States must reexamine central tenets of its foreign policy if it is to seize the opportunities presented by these changes. This pathbreaking volume in the Overseas Development Council's series analyzes economic reform in the giants and its implications for U.S. foreign policy. Each of the giants is opening up its economy to foreign trade and investment. What consequences will this have for international trade? Each giant is attempting to catch up to global technological frontiers by absorbing foreign technologies. In what areas might cooperation enhance American interests and in what areas must the U.S. protect its competitive and strategic assets? What role can key international economic institutions play to help integrate the giants into the international economy? The contributors suggest how U.S. foreign policy should anticipate these new circumstances in ways that enhance international cooperation and security.

**Economic Reform in Asia** Sara

Hsu,2016-02-26 Economic Reform in Asia compares and analyzes the reform and development patterns of China India and Japan from both historical and developmental perspectives Sara Hsu specifically focuses on China s reform and opening up in 1979 India s accelerated liberalization in 1991 and the outset of the Meiji Restoration in Japan in 1878 This detailed overview of growth patterns in Asia s largest economies is invaluable especially in its determination to understand which development policies work what role institutions play in development and what issues may arise during said development The book first provides an overview of the countries development trajectories and introduces the theoretical constructs associated with them The text focuses on key aspects of development for comparison such as poverty and inequality rural to urban migration human capital and the impact of development on the environment trade and economic future of these three countries The relative success of reforms and their political and economic effects are also discussed This comprehensive book will be of interest to students as it provides an impressive overview of three Asian countries development as well as for scholars in the field who are looking for a thoughtful and complex discussion of reform from different perspectives Russian Economic Reform James Leitzel,2005-06-22 Transitions from socialism to capitalism are complex both in theory and practice Russian Economic Reform enables the reader to come to a much better understanding of these momentous changes by providing a clear and accessible account of the major features of transition It argues that attempts to portray the reform process as a disaster are misconceived because they fail to take account of just how badly the pre reform economy was doing Many of the problems that are emerging now have their antecedents in the earlier economic system **Economic Thought and Economic Reform in the Soviet Union** Pekka Sutela,1991-07-26 Although the history of centrally planned economies has been widely studied the development of socialist thinking on the subject has remained largely uncharted In this 1991 work Pekka Sutela presents a detailed analysis of Soviet economic thought and theory Dr Sutela traces the competing currents in the Marxist tradition of socialist economies from the Revolution to the present day In particular he shows how the Gorbachev economic reform programme of 1987 rose from the work of Nobel Prize economist L V Kantorovich and his followers However this programme failed and the author explains in some detail why this happened Since then Soviet economists have tried to abandon their traditional theory of central planning and move along the path and long established contacts with leading Soviet economists Pekka Sutela is able to show how Soviet economic thinking has moved from dogmatism through reformism to pragmatism *Money, Incentives and Efficiency in the Hungarian Economic Reform* Joseph C. Brada,Istvan Dobozi,2019-07-04 The essays in this volume document the serious shortcomings of the Hungarian economic reform which in two decades has brought deteriorating economic performance declining real wages a fiscal deficit and severe inflationary pressures It has proved unexpectedly difficult to substitute a regulated market economy for a centrally planned one The authors of these essays argue that the problems stem from the incompleteness of the reforms and their compromise character Today as the Hungarians prepare to implement more radical measures constraining the Communist party and

rolling back state ownership they do so under economically difficult conditions      *Political Competition, Economic Reform and Growth* Ivan Pavletic, 2010 Which political and institutional factors trigger reforms that enable the poor to benefit from the process of economic growth How can the incentives of policy makers be influenced in order to achieve such a dynamic These are the questions this study seeks to address by examining the transition process in post communist countries The author argues that political competition within an accepted and respected institutional environment has been a driving force in shaping the direction and success of transition reforms Evidence shows that in countries with a sufficient degree of political competition citizens responded to economic crises by calling for economic liberalization Economic liberalization removed existing distortions increased economic efficiency and raised public welfare This activated a dynamic self enforcing reform process that also strengthened the political and economic power of the poor In the absence of political competition such a process failed to emerge thereby contributing to the persistence of poverty Based on these findings there is good reason to postulate that some level of political competition is essential for transition reforms to improve economic efficiency and public welfare in a sustainable manner      *Changing Attitudes Toward Economic Reform During the Yeltsin Era* Terry D. Clark, Ernest Goss, Larisa Kosova, 2003-07-30 On December 31 1999 Boris Yeltsin stepped down as president of the Russian Federation marking the end of an era While scholars and observers alike continue to debate the degree to which Russia succeeded in establishing democracy or a free market economy the enormity of the social transformation that occurred during the Yeltsin era is far less disputable For the social stratification that emerged changed the very face of Russian society Much criticism has been leveled at the political corruption that marred the Yeltsin era However the economic and political reforms enacted under Yeltsin also permitted the opening of new channels of social mobility particularly in the larger cities Those who benefited most from the reforms became its strongest supporters allowing the creation of a nascent middle class The book s focus on this socioeconomic group is unique as most analyses of the Yeltsin era largely ignore it      **Ideology and Economic Reform Under Deng Xiaoping 1978-1993** Wei-Wei Zhang, 2013-02-01 First published in 1996 Is ideology still relevant in post Mao China Deng Xiaoping s wide ranging economic reforms have led to declarations that ideology in China is merely a cynical sham or already dead but a closer look at China seems to suggest a constant conflict of different ideologies associated with the profound transformation of the Chinese society since 1978 This study is an attempt to explore the interactions between major ideological currents and economic reforms      *The Chinese State in the Era of Economic Reform* Gordon White, 1991 13 Privatisation and politics in rural China Index      **Economic Reform Processes in South Asia** Philippa S. Dee, 2012 While South Asia s economic reform initiatives of the last two decades were often born in crisis this alone does not account for their occurrence This book looks at the processes and institutional arrangements behind these reforms and analyses what lessons can be learnt about how South Asia can improve its policy efficiency The book develops ideas about how to overcome the political restraints to reform by drawing on recent theories of political economy and policy

learning It tests these ideas against authoritative case studies of actual reform initiatives in South Asia which illustrate processes and institutional arrangements that have helped South Asian governments to sustain reform efforts even in the absence of a strong political base This offers valuable lessons for the global economy as it moves into a phase of rebalancing with the structural adjustments that this will require The book goes on to identify weaknesses that could be addressed by South Asian national governments and regional forums It is an important contribution to studies on South Asian Politics and International Political Economy      Socialism, Perestroika, And The Dilemmas Of Soviet Economic Reform John E Tedstrom,2019-07-09 This book highlights that Soviet economic planners and politicians must come to recognize the need to make fundamental changes not simply incremental refinements in the failing Soviet system It examines the dynamics of the process of perestroika and the complexity of individual economic issues      Politicians and Economic Reform in New Democracies Kent Eaton,2010-11 As economic reform in developing countries has shifted from macroeconomic stabilization to liberalization opportunities for legislators to influence the process and outcome of reform have increased and their role has become more important This book focuses attention on differences in institutional structure in political parties and electoral rules to show how they create incentives that can explain the varying ways in which legislators respond to policy initiatives from the executive branch In Argentina and the Philippines presidents proposed similar fiscal reforms in the 1990s expanding tax bases strengthening tax administration and redesigning tax revenue sharing with subnational governments Drawing on archival research and interviews with policy makers Kent Eaton follows the path of legislation in these three areas from initial proposal to final law to reveal how it was shaped by the legislators participating in the process Obstacles to the adoption of reform he demonstrates are greater in candidate centered systems like the Philippines where the cultivation of personal reputations is paramount than in party centered systems like Argentina s where loyalty to party leaders is emphasized To test his argument further Eaton looks finally at other kinds of reform ventured in these two countries and at tax reforms attempted in some other countries      **Encouraging Political and Economic Reform in Poland** United States. President (1989-1993 : Bush),1989      Institutions for Economic Reform in Asia Philippa Dee,2009-12-16 Consisting of theoretical chapters and six country case study chapters this book sets out some of the principles that are critical to success in regional cooperation and the ways APEC can promote structural reform efforts in APEC economies
