[Privatization and Transition in Russia in the Early 1990s](#) Carol Scott Leonard,David Pitt-Watson,2013-06-19 Few economic events have caused such controversy as the privatization process in Russia Some see it as the foundation of political and economic freedom For others it was economics gone wrong and ended in Russians stealing money from their own country As Russia reasserts itself and its new

brand of capitalism it is ever more important that policy makers and scholars understand the roots of the economic structure and governance of that country what was decided who made the decisions and why what actually transpired and what implications this has for the future of Russia This work written by two senior advisors to the Russian government has unique access to documentation tracking the decision making process in the Russian Mass Privatization process By close reference to events and supplemented by interviews with many of the key participants it shows that the policies adopted were often influenced and shaped by different forces than those cited by current popular accounts The book challenges the interpretation of Russian privatization by some of the West s most eminent economists It underlines that economists of all schools who bring assumptions from the West to the analysis of Russia may reach false or misleading conclusions It is an essential guide for anyone interested in Russian economic reform and anyone who seeks to understand this enigmatic country and its actions today

Agency Matej Blazek, 2016-06-01 This book is a detailed study of children's everyday practices in a small deprived neighbourhood of post socialist Bratislava called Kopany. It provides a novel empirical insight on what it is like to be growing up after 25 years of post socialist transformations and questions the formation of children's agency and the multitude of resources it comes from. What happens if we accept children's practices as cornerstones of communities? What is uncovered if we examine adults' co-presence with children in everyday community spaces? With a background in youth work, the author writes from the unique position of being able to develop in-depth insights into both children's life worlds and practitioners' priorities and needs.
