Economics Of Public Tax Law:

Studies in History, Economics, and Public Law, 1927 **Encyclopedia of Law and Economics: The economics of public and tax law** Boudewijn Bouckaert, Gerrit de Geest, 2000 **The Philosophy of Taxation and Public Finance** Robert W. McGee, 2011-06-27 Most public finance books are texts which are aimed at undergraduate or graduate students They are overly technical in nature and appeal only to a narrow range of bureaucrats and academics Books on taxation are written for tax practitioners and usually emphasize either what the law is or how to maneuver through the labyrinth of tax law to minimize taxes for clients Philosophy books on taxation or public finance simply do not exist The Philosophy of Taxation and Public Finance is different It is written in nontechnical language and is aimed to appeal to a wide range of readers including practitioners academics and students in the fields of taxation public finance economics law philosophy and political science as well as general readers who are interested in learning why they are being taxed the way they are The author addresses the major issues and topics in taxation and public finance and injects them with philosophical insights He discusses questions such as What arguments have been used to justify taxation When is tax evasion unethical Are some taxes better than others What are the proper functions of government How much is enough Is the ability to pay concept valid When can punitive taxes be justified **Studies in History, Economics, and Public Law**, 1901 *Tax and Government in the 21st Century* Miranda Stewart, 2022-09-08 With an accessible style and clear structure Miranda Stewart explains how taxation finances government in the twenty first century exploring tax law in its historical economic and social context Today democratic tax states face an array of challenges including the changing nature of work the digitalisation and globalisation of the economy and rebuilding after the fiscal crisis of the COVID 19 pandemic Stewart demonstrates the centrality of taxation for government budgets and explains key tax principles of equity efficiency and administration Presenting examples from a wide range of jurisdictions and international developments Stewart shows how tax policy and law operate in our everyday lives ranging from family and working life to taxing multinational enterprises in the global digital economy Employing an interdisciplinary approach to the history and future of taxation law and policy this is a valuable resource for legal scholars practitioners and policy makers **Tax Law and Racial Economic Justice** Andre L. Smith, 2015-06-03 No study of Black people in America can be complete without considering how openly discriminatory tax laws helped establish a racial caste system in the United States how they were designed to exclude blacks from lucrative markets and the voting franchise and how tax laws extracted and redistributed vast sums of black wealth Not only was slavery nearly a 100% tax on black labor so too was Jim Crow apartheid and tax laws specified the peculiar institution as negro slavery The first instances of affirmative action in the United States were tax laws designed to attract white men to the South The nineteenth century Federal Tariff indirectly redistributed perhaps a majority of the profits from slavery from the South to the North and is the principle reason the Confederate states seceded The only constitutional amendment obtained by the Civil Rights Movement is the Twenty

Sixth Amendment abolishing poll taxes in federal elections Blending traditional legal theory neoclassical economics and a pan African view of history these six interrelated essays on race and taxes demonstrate that even in today s supposedly post racial society there is no area of human activity where racial dynamics are absent *The Crisis of Distribution and the Regulation of Economic Law* Shouwen Zhang,2022-05-29 The crisis of distribution is one of the longest standing and complicated issues facing human society Imbued with social political historic and cultural elements it varies significantly across different countries as a result of all these factors As an emerging economy which transferred from a planned to a market economy China has experienced large distribution gaps since it implemented the Reform and Opening up Policy in the early 1980s requiring stronger economic law to mitigate and regulate the crisis of distribution The two volumes examine the crisis of distribution that China faces and proposes policy and economic law methods that can be used to overcome the distribution dilemma The author discusses the four main concepts and focus points of the crisis of distribution distribution itself the crises it faces the rule of law and development before proposing a theoretical framework of system distribution development to resolve distribution problems that China faces The set should be of keen interest to researchers and students of law economics and political science *Taxation law & Accounts - SBPD Publications* Dr. R.K. Jain, ,CA Nikhil Gupta,2021-10-14 Main Highlights of Finance Act 2021 1 Income Tax An Introduction 2 Improtant Definition 3 Assessment on Agricultural Income 4 Expemted Incomes 5 Residence and Tax Liability 6 Income From Salaries 7 Income From Salaries Retirement and Retrenchment 8 Income From House Property 9 Depreciation 10 Profits and Gains of Business or profession 11 Capital Gains 12 Income From Other Sources 13 Income Tax Authorities 14 Clubbing of Income and Aggregation of Income 15 Set Off And Carry Forward of Losses 16 Deductions From Gross Total Income 17 Assessment of Individuals Computation of Total Income 18 Computation of Tax Liability of Individuals 19 Deduction of Tax at Source 20 Procedure of Assessment 21 Penalties Offences and Prosecution 22 Appeal and Revision 23 Tax Planning 24 Recovery and Refund of Tax 25 Advance Payment of Tax 26 Assessment of Hindu Undivided Family And Computation of tax Liability 27 Assessment of Firm and Association of Persons and Computation of Tax Liability Capital and Revenue Expenditure and Receipts Rebate and Relief in Tax Provision and Procedure of Filings the Return of Income and e Filing of Income Tax and TDS Returns Tax Law, Religion, and Justice Allen Calhoun,2021-03-08 This book asks why tax policy is both attracted to and repelled by the idea of justice Accepting the invitation of economist Henry Simons to acknowledge that tax justice is a theological concept the work explores theological doctrines of taxation to answer the presenting question The overall message of the book is that taxation is an instrument of justice but only when taxes take into account multiple goods in society the requirements of the government the property rights of society s members and the material needs of the poor It is argued that this answer to the presenting question is a theological and ethical answer in that it derives from the insistence of Christian thinkers that tax policy take into account material human need necessitas Without the necessitas component of the tax balance tax systems

end up honoring only one of the three components of the tax equation and cease to reflect a coherent idea of justice The book will be of interest to academics and researchers working in the areas of tax law economics theology and history *The Political Economy of Corporation Tax* John Snape, 2011-12-09 Excellent technical writing on corporation tax abounds but it tends to be inaccessible to public lawyers political theorists and political economists Although recent years have seen not only an explosion in public law scholarship but also a reawakening of interest in interpretative political theory and political economy the potential of these perspectives to illuminate the corporation tax debate has remained unexplored In this important work John Snape seeks to reconcile these disparate strands of scholarship and to contribute to a new way of understanding and conceptualising the reform of the law relating to corporate taxation Drawing on important developments in public law scholarship the study combines elements of political theory and political economy It advances a new interpretation of corporation tax law as an instrument of rule through the maximisation of a nation's economic potential Snape shows how corporate taxation belongs at the centre of any discussion of economic globalisation not only because of the potential of national tax systems to influence inward investment decisions but also because of the potential of those decisions to shape the public interest that those tax systems might embody Following public law and politics models the book looks afresh at the impact of Britain's political institutions of the processes of its representative government and of the theory that moulds and orders the values that the corporation tax code contains This is a timely exploration of cutting edge issues of public policy

Proceedings of the International Conference on Law, Economic & Good Governance (IC-LAW 2023) Abdul Kadir Jaelani, Irwansyah Irwansyah, Fokke Fernhout, Agus Raharjo, Mohd Rizal Palil, Hilaire Tegnan, Okid Parama Astirin, Sutarno Sutarno, Venty Suryanti, Pranoto Pranoto, Robbi Rahim, 2024-02-21 This is an open access book The position of Indonesia and most countries in IMF calculations facing the same challenges Each country requires the legal instruments of a good and reliable system of Government to guard against the worst possible economic turmoil Good governance is an insistence of the constitution in the economic Article 33 paragraph 5 subsequently published Constitution Number 30 Year of 2014 on Government Administration contains 17 principles of a good governance One of the important points of the principle is a government without corruption and manipulation of policy concepts in order to provide access to consolidation in politics and economy The latest Transparency International report for 2023 shows that Indonesia's corruption perception index was recorded at 34 points on a scale of 0-100 in 2022 This is a 4 point decrease from the previous year This decline in the CPI also brought down the ranking of Indonesia's CPI globally It was noted that Indonesia's CPI in 2022 ranked 110th In the previous year Indonesia's CPI was ranked 96th globally Good Governance is all aspects related to the control and supervision of the power of the Government in carrying out its functions through formal and informal institutions To implement the principles of Good Governance and Clean Government the Government must implement the principles of accountability and efficient resource management Good and clean governance will contribute to

economic growth and economic growth will have an impact on human development During the last decades of 20th century the needs for a good governance has given some impacts and became a recurring theme in literature related to human development The intervention of government or the quality of government become crucially important in relation to the high achievement of human development Whereas an effort in improving society's welfare is through economic development One of dominant aspects in economic development is through legal development Good law or policy in such country will have some impacts to the existence of good economic growth because supremacy of law is one aspect of a good governance Law supremacy is an important institution which is related to economic growth because rule of law ensures personal safety property rights unbiased contract enforcement stability of politics freedom of speech and control of corruption According to those various issues and debates on economic legal development and good governance then the Doctoral Program of the Faculty of Law Sebelas Maret University needs to hold an international conference as a place in exchanging some academic ideas in order to contribute to those legal issues with a theme INTERNATIONAL CONFERENCE ON LAW ECONOMICS AND GOOD GOVERNANCE

Justice, Equality and Tax Law Nevla Čičin-Šain, Mario Riedl, 2022-10-05 An in depth analysis of the specific aspects of justice equality and tax law Justice Equality and Tax Law is a topic that is both old and new at the same time Even if the society changes the demands that tax needs to be just and equal seem to be immutable What changes of course is the perception of the content of those demands International taxation post BEPS has been fraught with new challenges that warranted urgent responses These challenges were mainly provoked by the unprecedented rise of the digital economy which truly marked a change in the way business is conducted how value is created and how goods and services are produced and consumed Digitalization in turn had repercussions on all aspects of taxation direct taxation indirect taxation and even tax procedures For instance the quest for more justice and equality in profit taxes was the reason why in October 2021 a historical deal based on a two pillar

solution to address the tax challenges arising from the digitalization of the economy was negotiated within the OECD G20 Inclusive Framework on Base Erosion and Profit Shifting and agreed upon by 137 member countries. It was also the motive behind the shift from a typical vendor collection model to an intermediary collection model supported by centralized registration points in indirect taxes notably the VAT. GST Abundant data from the European Union or the OECD signaled an ever increasing gap between expected VAT revenues and VAT actually collected making it obvious that the classical system of VAT GST collection was unable to respond to challenges posed by the digital economy. Therefore new solutions based on the participation of digital platforms as intermediaries had been introduced. Finally new technologies such as blockchain paved new avenues in enhancing tax compliance. In this context this volume entitled Justice Equality and Tax Law contains not only a selection of the best master's theses of the full time LL M programme in 2021-2022 but also represents an in depth analysis of various aspects of this evergreen topic.
