Jean-Pierre Devroey, 2024-10-28 The origins of the large estate of Carolingian Europe and the role it played in the evolution of Frankish society and economy are the themes of this volume The first group of articles focus on documentary evidence especially the polyptychs and their interpretation Though there is insufficient material for any true quantitative history Professor Devroey argues that the evidence points to demographic expansion coupled with the exploitation of new agricultural methods and crops and a reliance on the family as the unit of production Further studies relate these estates to the commercial networks of the area from a local to an international level A final concern is to demonstrate that the large estate formed a key component of the Carolingian rulers aim to establish the bonum commune and a stable society with assured food supplies regulated markets and a just system of weights and measures L origine du grand domaine de l Europe carolingienne et le r le qu il jouait dans l volution de la soci t et de l conomie du monde franc sont les th mes de ce volume Le premier groupe d articles se concentre sur des documents et plus sp cialement sur les polyptyques et leur interpr tation Bien qu il n y ait pas de mat riel suffisant pour une histoire quantitative le professeur Devroey soutient que tout indique une

expansion démographique laquelle viennent s'ajouter l'exploitation de nouvelles méthodes agricoles et de récoltes ainsi qu'une dépendance vis-à-vis de la famille en tant qu'unité de production. Des études supplémentaires font le lien entre ces propriétés et les réseaux commerciaux de cette partie du monde du niveau local au niveau international. L'auteur s'efforce finalement de démontrer que le grand domaine était un des facteurs à la base de la volonté des dirigeants carolingiens d'instaurer le bonum commune et une société stable avec des approvisionnements assurés des marchés. *Théorie économique du système féodal* Witold Kula, 2011-11-21 No detailed description available for *Théorie économique du système féodal* *Projet d'un système des finances basé sur l'unité de la République helvétique et les convenances de chaque canton* Pierre Louis Roguin, 1800
