Ecos De La Marsellesa Los:

Los ecos de la Marsellesa E. J. Hobsbawm, 2003 Este libro aborda un tema tan importante como desatendido en la historiografía de la Revolución francesa la historia no es de la Revolución misma sino de su recepción e interpretación. Todos nosotros nos dice Hobsbawm formulamos por escrito la historia de nuestro tiempo cuando volvemos la vista hacia el pasado y en cierta medida luchamos en las batallas de hoy con trajes de poca. Pero quienes solo escriben sobre la historia de su propio tiempo no pueden comprender el pasado y lo que este trajo consigo. Quienes han juzgado los acontecimientos de 1789 separando los dos siglos de historia del mundo dominados por los ecos de la Marsellesa se condenan a no entender hasta qué punto la Revolución transformó el mundo irreversiblemente al dar a los pueblos la convicción de que pueden cambiar la historia por sus mismos. Por otra parte los valores reivindicados por los revolucionarios junto a los de la razón y la Ilustración siguen siendo una herencia valiosa que nos conviene preservar cuando el irracionalismo el fanatismo el obscurantismo y la barbarie nos amenazan directamente.

La Revolución francesa Francesco, Antonino, 2022-03-01 Las historias de la Revolución francesa constituyen por sí mismas una verdadera Historia Contemporánea de Occidente. Analizar los hechos que fundaron el mundo de hoy alejándonos progresivamente de la sociedad del Antiguo Régimen ha servido a lo largo del tiempo para escribir la historia de cada presente desde sus múltiples perspectivas políticas vitales e intelectuales. Esto ha hecho que el estudio de la Revolución francesa haya sido una lucha por sus interpretaciones porque contienen a la disputa por los fundamentos del mundo actual. La Revolución francesa. Doscientos años de combates por la historia de Antonino De Francesco ofrece la apasionante reconstrucción de esta batalla intelectual sostenida durante dos largos siglos por dotar de significado al hito fundacional de la contemporaneidad. Por sus páginas desfilan de Mémoires de Stéphane Tocqueville de Thiers a Lamartine de Michelet a Carlyle de Mathiez a Furet sin olvidar a Cobban Lefebvre Soboul Hunt Vovelle y otros muchos historiadores fundamentales de la historiografía contemporánea.

Social Protests in Colombia Mauricio Archila Neira, 2019-06-04 Social Protests in Colombia A History 1958-1990 examines social mobilization in Colombia through a variety of lenses in an interdisciplinary approach. Mauricio Archila Neira incorporates theories from diverse social sciences including subaltern studies and postcolonial approaches to open up an intergenerational dialogue about political transformation and social change. Archila Neira approaches this history from an objective viewpoint offering an analysis from a distance not altered by emotion or hyperbole as he examines the values, traditions and social collective action of subaltern sectors without external influence or motive. The book argues that academia bears the responsibility to put into play its accumulated symbolic capital to critically understand society without abandoning the utopic effort to imagine another world. It is possible. Social Protests in Colombia teaches readers how to inhabit differences of historical experiences, knowledge and understandings and why it is crucial to challenge a world that claims to be homogenous. Scholars of Latin American studies, sociology, political science and history will find this book especially useful.

La celebración del primer centenario de la independencia en las escuelas de la Provincia de Cartagena \(1900-1920\)](#) Rafael Enrique Acevedo Puello,2011-01-01 La celebración del primer centenario de la independencia en las escuelas de la provincia de Cartagena 1900-1920 es un texto en el que se intenta dar cuenta del lugar de la enseñanza y la construcción de la historia en las localidades particularmente en Cartagena durante la conmemoración de su primer centenario de vida independiente Su autor intenta analizar cuál fue el aporte de los maestros y de los estudiantes a la invención de la historia local quienes en la organización de la fiesta centenaria de 1911 por medio de la publicación de cartillas mapas y anagramas locales empezaron a transformar manipular y reconstruir los relatos sobre la independencia de la provincia presentados en los textos de historia patria nacional Se trata precisamente de mostrar cómo la historia de la independencia de Cartagena que había sido vista con recelo y como un error nacional a lo largo del siglo XIX intenta ser recuperada y redefinida como una instancia constitutiva de la organización nacional lo que da lugar al proceso de nacionalización de las epifanías locales En todo este proceso sin duda la participación de las escuelas resulta crucial para entender la invención de la historia en las localidades y la celebración de eventos conmemorativos como el del Primer Centenario de la Independencia de la provincia de Cartagena

Imaginarios psicopolíticos tardomodernos** Ángel Enrique Carretero Pasín, 2022-07-14 Esta obra inserta en el espacio de intersección entre la filosofía y las ciencias sociales tiene por vocación explorar el perfil contradictorio de los pilares sobre los cuales se ha sostenido la

modernidad occidental para luego sondear el signo de sus implicaciones en el espectro cultural de la tardomodernidad a un doble nivel la configuración psicopolítica de los nuevos agentes sociales y los sentidos en la configuración política de las nuevas subjetividades. Examina la proyección de unas ambivalencias estructurales nítidas a la modernidad esclarecedoras de una bipolaridad de planos donde se mueve la acción de unas nuevas subjetividades desde una indefinición en las directrices rectoras de los actores políticos impulsando movimientos sociales ideológicos a utopía hasta unas nacientes variantes de fetichización del yo felicidad creatividad expresividad. Se compone de tres partes. En una primera se encara la naturaleza ambivalente de los cimientos sobre los cuales se ha asentado la modernidad occidental así como los efectos consiguientes en la significación de la trama social derivados de esta ambivalencia. En una segunda se encara cómo los imaginarios estructuradores de la significación de la experiencia compartida por los actores sociales responden a una herencia cultural legada por la modernidad con sus contradicciones dando cuenta del asomo de unas reacciones alternativas a ella con una expresividad política de doble faz. En la tercera se aborda la conformación de unos novedosos perfiles de subjetividad que a resultas de las mutaciones habidas en los imaginarios modernos conduce a la forja de un yo que a la par que fetichizado se ve sobrecargado de tribulaciones.

La desheredada Benito Pérez Galdós, 2007-04-01 La modernidad en literatura comienza en 1881 con la publicación de La desheredada. Con esta novela Galdós toma una decisión pensada y arriesgada una decisión histórica rompe con las divisiones tecnicistas y formales entre los géneros literarios para mayor eficacia político social del arma ideológica recién reinventada en sus manos la novelización de los conflictos de clases. Representante de la burguesía liberal revolucionaria decimonónica realiza una crítica interna implacable hacia su propia clase social con sus propuestas por encontrar ciertos ideales y resolver ciertos problemas que preocupan a todos y conocer el origen y el remedio de ciertos males que turban las familias ya en la vida exterior ya en la vida doméstica de la clase media o burguesía. Al mismo tiempo y también desde el frente burgués al que pertenece se posiciona contra el internacionalismo proletario en sus comienzos organizativos en España. He aquí la modernidad hecha la revolución que acusa La desheredada. Una novela que ha de leerse para volver a pensar nuestra historia actual y contemporánea.
