first book length ecocritical study of American theatre Earth Matters examines both familiar dramas but also lesser known grassroots plays in an effort to show that theatre can be a powerful force for social change From frontier drama of the late nineteenth century to the eco theatre movement Earth Matters argues that theatre has been part of the history of environmental ideas and action in the U S Earth Matters also maps the rise of an ecocritical thought and ecotheatre practice what the author calls ecodramaturgy showing how theatre has informed environmental perceptions and policies Through key plays and productions it identifies strategies for artists who want their work to contribute to cultural transformation in the face of climate change Readings in Performance and Ecology Wendy Arons, Theresa J. May, 2016-04-30 This ground breaking collection focuses on how theatre dance and other forms of performance are helping to transform our ecological values Top scholars explore how familiar and new works of performance can help us recognize our reciprocal relationship with the natural world and how it helps us understand the way we are connected to the land The Ecologies of Amateur **Theatre** Helen Nicholson, Nadine Holdsworth, Jane Milling, 2018-10-26 This book is the first major study of amateur theatre offering new perspectives on its place in the cultural and social life of communities Historically informed it traces how amateur theatre has impacted national repertoires contributed to diverse creative economies and responded to changing patterns of labour Based on extensive archival and ethnographic research it traces the importance of amateur theatre to crafting places and the ways in which it sustains the creativity of amateur theatre over a lifetime It asks how does amateur theatre making contribute to the twenty first century amateur turn An idea for a theatre ecology Carl Lavery, 2025-09-02 An Idea for a Theatre Ecology is the first book in the discipline of Theatre and Performance Studies to provide a rigorous and coherent theory of the ecology that is immanent to the theatrical medium Over six clearly written chapters the book provides a genealogy outlines a method provides a lexicon and demonstrates an alternative practice of ecoperformance analysis grounded in the figure of the archipelago Focusing on Antonin Artaud's theatre of cruelty the book argues that theatre has no need to provide ecological messages nor to transform itself into a platform for the narration of ecological stories Instead more is to be gained environmentally and politically by concentrating on the power of images gestures and voices to create corporeal affects and sensations that implicate the spectators in a terrestrial event **Ecologies of Precarity in Twenty-first Century Theatre** Marissia Fragkou, 2019 Presenting a rigorous critical investigation of the reinvigoration of the political in contemporary British theatre Ecologies of Precarity in Twenty First Century Theatre provides a fresh understanding of how theatre has engaged with precarity affect risk intimacy care and relationality in recent times The study makes a compelling case for reading precarity as a sticky theatrical trope which carries the potential to re animate our understanding of identity politics and responsibility for the lives of Others in an age of uncertainty Approaching precarity as an ecology cutting across various practices themes and aesthetics the book features a comprehensive selection of theatre examples staged in the UK since the 1990s Works by debbie tucker green Alistair McDowall Complicite Simon Stephens Stan

mutual influence and benefit the ecology In this way theatrical productions of Greek drama may in the long term influence Classics as an academic discipline and certainly contribute to attesting to the relevance of Classics in the modern world The chapters in this volume include contributions by both theatre makers and academics whose backgrounds vary between Theatre Studies and Classics They comprise a variety of case studies and approaches exploring the dissemination of knowledge about the ancient world through projects that engage with Greek tragedy theories and practices of theatre making through the chorus and practical relationships between scholars and theatre makers By understanding the staging of Greek tragedy in the United Kingdom today as being part of the Classics ecology the book examines practices and processes as key areas in which the value of engaging with the ancient past is re negotiated. This book is primarily suitable for students and scholars working in Classical Reception and Theatre Studies who are interested in the reception history of Greek tragedy and the intersection of the two fields It is also of use to more general Classics and Theatre Studies audiences especially those engaged with current debates around saving Classics and those interested in a structural systemic approach to the intersection between theatre culture and class **Ecologies of Precarity in Twenty-First Century Theatre** Marissia Fragkou, 2018-09-06 Presenting a rigorous critical investigation of the reinvigoration of the political in contemporary British theatre Ecologies of Precarity in Twenty First Century Theatre provides a fresh understanding of how theatre has engaged with precarity affect risk intimacy care and relationality in recent times. The study makes a compelling case for reading precarity as a sticky theatrical trope which carries the potential to re animate our understanding of identity politics and responsibility for the lives of Others in an age of uncertainty Approaching precarity as an ecology cutting across various practices themes and aesthetics the book features a comprehensive selection of theatre examples staged in the UK since the 1990s Works by debbie tucker green Alistair McDowall Complicite Simon Stephens Stan's Cafe Mike Bartlett Caryl Churchill The Paper Birds and Belarus Free Theatre are put in dialogue with interdisciplinary feminist vocabularies developed by Judith Butler Sara Ahmed Lauren Berlant and Isabell Lorey In focusing on areas such as children and youth at risk human rights environmental ethics and the politics of debt the study makes a vital contribution to the burgeoning field of politics and **Ecodramaturgies** Lisa Woynarski, 2021-12-10 This book addresses theatre s contribution to theatre in the 21st century the way we think about ecology our relationship to the environment and what it means to be human in the context of climate change It offers a detailed study of the ways in which contemporary performance has critiqued and re imagined everyday ecological relationships in more just and equitable ways The broad spectrum of ecologically oriented theatre and performance included here largely from the UK US Canada Europe and Mexico have problematised reframed and upended the pervasive and reductive images of climate change that tend to dominate the ecological imagination Taking an inclusive approach this book foregrounds marginalised perspectives and the multiple social and political forces that shape climate change and related ecological crises framing understandings of the earth as home Recent works by Fevered Sleep Rimini

The New Wave of British Women Playwrights Elisabeth Angel-Perez, Aloysia Rousseau, 2023-01-30 It is a fact that today s British stages resound with powerfully innovative voices and that very often these voices have been those of young women playwrights This collection of essays gives visibility and pride of place to these fascinating voices by exploring the vitality inventiveness and particularly strong relevance of these poetics. These women playwrights sometimes invent radically new forms and sometimes experiment with conventional ones in fresh and unexpected ways as for example when they re energize naturalism and provide it with new missions. The plays that are addressed are all concerned with the necessity to grasp the complexity of the contemporary world and to further investigate what it means to be human Intimate or epic and sometimes both at once visionary or closer to everyday life these plays approach the contemporary world through a multitude of prisms
