the environmental crisis through action and hope and in doing so develop into adults who possess greater care for the environment and a capacious imagination for solving the ecological problems we face [Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards](#), 2001 Theses on any subject submitted by the academic libraries in the UK and Ireland *Peace Research Abstracts Journal*, 2002

Economics of Ecological Resources Charles Perrings, 1997 Economics of Ecological Resources presents new or recently published work on ecological economies sustainability poverty resource degradation and decision making under uncertainty The book explores the allocation of resources in jointly determined ecological economic systems An introductory chapter examines the work of other major contributors to the field of ecological economics and introduces Professor Perrings's work and the material in this volume The first of three parts is concerned with the dynamics of joint systems and with the implications for the control and conservation of ecological resources The second part focuses on the conditioning effect of the economic environment on private decisions in low income resource dependent economies The final part considers the way that decision makers handle the uncertainty that is an integral feature of the evolution of the ecological economic system Economics of Ecological Resources will be of interest to academics researchers and students of ecological and environmental economics *Ecological Economics* Charles Perrings, R. Kerry Turner, Carl Folke, 1995 [Economy and Environment](#)

Charles Perrings, 1987 *Environmental and Resource Economics* Anthony C. Fisher, 1995 This important volume features essays dealing with a wide range of theoretical measurement and policy issues in environmental and resource economics Anthony Fisher is an internationally acclaimed environmental economist whose work combines relevance with intellectual rigour The integration of environmental considerations into decisions about extractive resource has been a central theme of Professor Fisher's work The essays in this collection range from exercises in the pure theory of resource depletion to applications of theoretical and empirical techniques on the management of energy and water resources Particular attention is given to uncertainty about environmental values and the irreversibility of certain kinds of resource depletion Featuring work on a wide range of topics and adopting a breadth of approaches Environmental and Resource Economics will be welcomed by researchers practitioners and policymakers

Nature, Economy and Society Nilanjan Ghosh, Pranab Mukhopadhyay, Amita Shah, Manoj Panda, 2015-09-01 This book presents an enquiry into the interface between nature economy and society which is still in its early stages notwithstanding the commendable progress and advances made in the field of environmental and natural resource economics within the ever expanding boundaries of economics as a discipline It further delineates the evolution of an inter disciplinary framework for analyzing the status the future goals mechanisms and policy instruments that can help move towards a more ecologically sustainable economically beneficial and socially just future A pre requisite for preparing a comprehensive and coherent framework involves unfolding the multiple layers of interconnectedness between the three systems nature economy and society each of which has its own internal consistencies

as well as externalities Against this backdrop the book presents scholarly contributions that focus on four broadly defined building blocks namely i accounting for ecosystems services for life and human well being ii impacts of economic growth on ecosystems iii social norms equity and governance and iv alternative approaches to green and socio economic systems The analyses presented by some of the most eminent national and international scholars address the major environmental challenges that nations around the world face today and consider which specific policy directions at the international and national level are needed In particular the choices India and South Asia now face as development and environment both need to be addressed adequately touch on many of these challenges The Economics of Environment and Development Edward Barbier,1998 This is a selection of the author s most influential papers on the role of environmental economics in economic development Each paper is placed in its original context and then related to the development of Barbier s ideas Land degradation and trade and the environment are covered **Environmental and Natural Resource Economics** Jonathan M. Harris,Brian Roach,2013-07-05 *Environmental and Natural Resources Economics* Steven C. Hackett,1998 Integrating aspects of philosophy political science and some environmental science this text provides a multidisciplinary approach to environmental economics and natural resources policy Included is a chapter on value systems and the role of ethics

Dimensions of Environmental and Ecological Economics Nirmal Chandra Sahu,Amita Kumari Choudhury,2005 Besides Covering The Paradigmatic Bases Of Environmental Ecological And Natural Resource Economics This Book Discusses The Economic Dimensions Of And Approaches To Pollution Environmental And Ecosystem Management Biodiversity Global Warming Energy And Resource Use And Sustainable Development *Economics of Natural & Environmental Resources* Vernon L. Smith,2013 First written in 1977 Economics of Natural and Environmental Resources presents a collection of articles written in exploration of the economic social and ecological problems peculiar to natural and environmental resources Whilst focusing on the economic theory of natural resources the contributions also consider geological technological and institutional features of particular resources Policy implications and considerations are central to the text and although the book was published over thirty years ago the issues discussed remain relevant to today s society

Environmental and Natural Resource Economics Thomas H. Tietenberg,Lynne Lewis,2016-03-04 Environmental and Natural Resource Economics is the best selling text for this course offering a policy oriented approach and introducing economic theory in the context of debates and empirical work from the field Students leave the course with a global perspective of both environmental and natural resource economics Gain flexibility in your course outlines The text is organized so that you can fit individual course outlines Use relevant material Students identify with up to date information which gives them a global perspective on key issues Engage students with self test exercises debates and examples Students are able to prepare for their field and learn from an active learning path which allows them to grasp concepts before moving through the text Frontiers in Ecological Economic Theory and Application Jon David Erickson,John M. Gowdy,2007

Research on the cutting edge of economics ecology and ethics is presented in this timely study Building from a theoretical critique of the tradition of cost benefit analysis the contributors lay the foundation for a macroeconomics of environmental sustainability and distributive justice Attention is then turned to three of the most critical areas of social and environmental applied research biodiversity climate change and energy The contributors redefine progress away from growth and toward development To this end the first section of the book tackles the dominant framework used in the US today to evaluate tradeoffs between economic growth and its inherent externalities Succeeding chapters cover a wide variety of studies related to biodiversity health and energy Each section is anchored with overviews by top scholars in these areas including Herman Daly Carl McDaniel Stephen Schneider and Nathan Hagens and followed by detailed analyses reflecting the transdisciplinary approach of ecological economics Students and scholars of ecological environmental and natural resource economics sustainability sciences and environmental studies will find this book of great interest Non profit and government agencies in search of methods and cases that merge the study of ecology and economics will also find the analyses of great practical value

Environmental and Natural Resources Economics Steven Hackett, Sahan T. M. Dissanayake, 2014-12-18 Extensively revised and updated this popular text presents an accessible yet rigorous treatment of environmental and natural resources economics including climate change and the economics of sustainability Completely revised and updated the fourth edition now includes new figures and tables definitions to assist the reader and updated policy information New advances in the science economics and policy approaches to climate change have been integrated into essentially all new chapters on incentive regulation and global climate change This innovative textbook integrates economics with science and public policy in a balanced and accessible way that will be appreciated by students from disciplines ranging from economics and natural resources management to environmental studies and energy policy

Ecology and Power Alf Hornborg, Brett Clark, Kenneth Hermele, 2013-06-19 Power and social inequality shape patterns of land use and resource management This book explores this relationship from different perspectives illuminating the complexity of interactions between human societies and nature Most of the contributors use the perspective of political ecology as a point of departure recognizing that human relations to the environment and human social relations are not separate phenomena but inextricably intertwined What makes this volume unique is that it sets this approach in a trans disciplinary global and historical framework
