Economic Borders Of The State:

The Economic Borders of the State Dieter Helm, 2011 *State-owned Enterprise Reform in Vietnam* C. Y. Ng, Nick J. Freeman, Frank C. H. Huynh, 1996 This study is a collaborative effort between officials and researchers from the transitional economy of Vietnam and researchers from the market economies of Japan and ASEAN The first section covers aspects of the reform process undertaken in Vietnam as perceived by Vietnamese officials and scholars and includes rare data and statistics Section two deals with relevant aspects of the process of deregulation liberalization and privatization experienced in Japan and the ASEAN countries The final section provides recommendations for consideration by Vietnam's economic reform planners Vietnam became a member of ASEAN on 1 July 1995 This study can possibly contribute to Vietnam's integration into the ASEAN economies **The Political Economy of Economic Freedom** Alan T. Peacock, 1997-01-01 The captivating nature of these contributions to political economy which were all published between 1976 and 1996 but mostly in the last decade is a clear reflection of Sir Alan's authoritative standing both as an academic economist and a government economic advisor the book addresses a wide range of philosophical questions and practical policy issues thus offering plenty of stimulating material for both the theoretical and applied economist as well as other social scientists M Teresa Lunati The Economic Journal many of the papers are worth reading and each paper has a useful introduction explaining the context in which it was written The best part of the book is the selection of papers in the last part especially his Alan Peacock's discussions of the regulation of broadcasting There is much for an economist to learn from these papers the role economists can play in public policy debates the inner workings of committees the role of information control in policy decisions William Sjostrom Kyklos The Political Economy of Economic Freedom brings together a timely selection of Sir Alan Peacock's views on economic freedom its philosophy its influence on the critique of economic policy and the problems encountered in expanding it The State and Social Welfare Dorothy Wilson, Thomas Wilson, 2018-10-08 Aims to review the issues raised by the state provision of social benefits and to examine the principles on which their provision may be deemed to rest

Economic Management And Transition Towards A Market Economy: An Asian Perspective Anthony Theng Heng Chin, Hock Guan Ng, 1996-10-04 Much attention has been focused in recent years on the transformation of the economies of Eastern and Central Europe and the former Soviet Union However a growing demand for policy advice technical assistance and expertise is also coming from Asian reforming countries such as China Mongolia Vietnam Laos and Cambodia In addition business communities abroad are increasingly interested in exploring investment and marketing opportunities in these reforming countries Such developments are too important to overlook or ignore The transformation of socialist economies towards market based systems entails an unusually wide range of problems Studies of related topics are complicated by the speed of the changes and the lack of clear historical precedents Although the structural features of Asian reforming economies are in important ways different from those of the Eastern European economies all socialist economies share

similar fundamental conditions on the eve of economic reform which raise a similar set of reform issues This volume brings together a rich collection of expertise and information in an attempt to shed some light on the transitional process in Asia The contributions are by no means exhaustive However they provide the reader and analyst with an excellent starting point to the problems and prospects which are specific to Asian transforming economies *The State of Interpretation of Keynes* John B. Davis,2012-12-06 Interest in John Maynard Keynes s economic political and philosophical thinking has undergone a tremendous revival in the last decade The essays and comments collected in this volume were written on a set of themes representative of the current state of interpretation of Keynes s thinking Some of the topics investigated have received much attention in the past and some are of more recent interest In the former category are topics on standard issues in the interpretation of Keynes s economics the transition in Keynes s thinking from the *The Treatise on Money* to *The General Theory* the nature of the argument in *The General Theory* and Keynes s economic policy views The latter category introduces themes of a wider nature and includes two papers on Keynes s vision and one on Keynes s philosophical thinking The strategy adopted in the selection of topics was to review the debates over Keynes s economics from fresh perspectives and then go on to supply discussions of broader issues concerning the nature of Keynes as a thinker This collection as a whole adds to our general understanding of Keynes s work and contributes to the current revival of interest in Keynes **Economic Policy in the Age of Globalisation** Nicola Acocella,2005-02-17 In the age of globalisation both domestic and foreign economic policies play an important role in determining firms strategies Understanding such policies is an essential part of the cultural background of managers at all levels of a firm At the same time firms choices have a greater impact on economic policymaking in a global economy as the range of alternatives open to them expands In this textbook Professor Acocella analyses both sides of this relationship Special emphasis is placed on current issues in policymaking on the basis of social choice principles and the normative and positive theory of economic policy and issues concerning the establishment of international public institutions that can match the global reach of the private institutions markets and firms that generate many of today s economic challenges Broad in scope this book is aimed at students who have completed an introductory course in both micro and macroeconomics **Environmental Economic: Evaluates Economics Impacts on the Environment** Dr. Sadhna Yadav,2024-05-09 Economic impacts refer to the effects that a particular event policy or decision has on the economy of a region country or even globally These impacts can be both positive and negative and can manifest in various ways including changes in employment levels income distribution consumer spending patterns business profitability investment flows inflation rates and overall economic growth Economic impact assessments often seek to quantify these effects to understand the broader implications of specific actions or events on the economy Over the past 30 years the NSW economy has been shifting from a resource intensive industry base to a services based economy that has reduced environmental impacts Alternative Theories of the State S. Pressman,2006-10-10 This book examines the role and

function of the state in contemporary economics from a number of diverse economic perspectives including Austrian feminist institutionalist Marxian radical and Post Keynesian

Making of India's Northeast Dilip Gogoi, 2019-09-23 This book examines India's Northeast borderland strategically positioned at the confluence of South Asia East and Southeast Asia from the perspective of international relations The volume interrogates the geopolitics of region making in both colonial and postcolonial times and traces the transformation of Northeast India from a British strategic frontier into a securitised borderland It situates the region in transnational interactions both in conflict and cooperation with its immediate neighbouring regions of China Bangladesh and Myanmar especially in the context of India's Look East Act East policy The volume paves the way for a new region state framework borne out of the constructivist worldview and offers answers to many conundrums centring border studies It further delineates approaches to overcoming the present geopolitical and territorial challenges of India's Northeast with a critical thrust on regional policymaking The volume will be of interest to students and researchers in the disciplines of social sciences and humanities in India as well as South and Southeast Asia It will be especially useful to those in politics and international relations strategic studies international political economy foreign policy development studies and regional development besides foreign policy makers and diplomats development practitioners economists and policy analysts

States of Division Sagi Schaefer, 2014 *States of Division* analyses the division of Germany and the development of the Iron Curtain during the four and a half decades of the Cold War The centerpiece of this global fault line was the thousand mile long border dividing Germany into West and East This long border traversed primarily rural peripheries and the development of division along it entailed protracted processes of social and cultural demarcation Unlike the Berlin Wall which sprang up overnight in the urban enclave under watchful eyes of Soviet and Western armies the inter German border evolved slowly through interactions between frontier residents and various state agencies The division of Germany and of the world emerged through conflicts between everyday practices economic necessities policies of German and foreign governments and their ability to push these policies through The division of Germany was a multi faceted process which progressed slowly and unevenly *States of Division* demonstrates that along with the crucial context of the Cold War multiple historical and social frameworks are required to decipher division and explain how and where it took place Dividing a modern integrated society along a thousand mile border was not planned or intended by the allies and at no stage was agreed upon by East and West German authorities It gave rise to contradictions and conflicts with practice and tradition undermining economy and culture in the borderlands and required protracted negotiations and considerable resources It was not a fait accompli of Yalta or Potsdam nor was it completed with the construction of the Berlin Wall in 1961 German division only stabilized as a sociopolitical fact through the inter German compromise of the 1970s which also planted the seeds of its undoing Integrating local regional and national perspectives this volume tells a complex story showing how diplomacy and policy affected daily practices and were affected by them

The Oxford Handbook of Jurisdiction in International Law

Stephen Allen, Daniel Costelloe, Malgosia Fitzmaurice, Paul Gragl, Edward Guntrip, 2019-09-17 The Oxford Handbook of Jurisdiction in International Law provides an authoritative and comprehensive analysis of the concept of jurisdiction in international law Jurisdiction plays a fundamental role in international law limiting the exercise of legal authority over international legal subjects But despite its importance the concept has remained until now underdeveloped Discussions of jurisdiction in international law regularly refer to classic heads of jurisdiction based on territoriality or nationality or use the SS Lotus decision of the Permanent Court of International Justice as a starting point However traditional understandings of jurisdiction are facing new challenges Globalization has increased the need for jurisdiction to be applied extraterritorially non State forms of law provide new theoretical challenges and intersections between different forms of jurisdiction have become more intricate This Handbook provides a necessary re examination of the concept of jurisdiction in international law through a thematic analysis of its history its contemporary application and how it needs to adapt to encompass future developments in international law It examines some of the most contentious elements of jurisdiction by considering how the concept is being applied in specific substantive and institutional settings **The Political Economy of Border Drawing**

Regine Paul, 2015-01-01 The conditions for non EU migrant workers to gain legal entry to Britain France and Germany are at the same time similar and quite different To explain this variation this book compares the fine grained legal categories for migrant workers in each country and examines the interaction of economic social and cultural rationales in determining migrant legality Rather than investigating the failure of borders to keep unauthorized migrants out the author highlights the different policies of each country as border drawing actions Policymakers draw lines between different migrant groups and between migrants and citizens through considerations of both their economic utility and skills but also their places of origin and prospects for social integration Overall migrant worker legality is arranged against the backdrop of the specific vision each country has of itself in an economically competitive globalized world with rapidly changing welfare and citizenship models **Modern State Intervention in the Era of Globalisation** Nikolaos Karagiannis, Zagros

Madjd-Sadjadi, 2007-06-26 Modern State Intervention in the Era of Globalisation is a thoughtful and well researched assessment of the evolving role of the state in the contemporary world economy This work is provocative because it goes against the predominant arguments in favor of a minimal state as commonly asserted by neoclassical economics Instead Karagiannis and Madjd Sadjadi think outside of the box and produce both theoretical arguments and evidence from important cases such as the EU Singapore and Hong Kong to support the idea of a viable and continuing role for the Developmental State The scholarship underlying this very readable book which includes contemporary material as well as ancient economic thought is truly impressive Readers will be left with much to reconsider about the benefits of globalisation Patrick James University of Southern California US Sinews of Power Yi-Chong Xu, 2017 Politics of the State Grid Corporation of China Electricity From the ministry to a corporation Overseeing SGCC the contested regimes of central

agencies State Grid Corporation of China SGCC in action as a policy entrepreneur SGCC in action as technology innovator SGCC in action internationalisation Collective Goods Sally Sargeson, 2012-10-02 This edited collection explores issues surrounding the provision of collective goods within the context of post crisis East and Southeast Asia It includes case studies on Korea Indonesia China Laos Malaysia and Singapore among others **State / Space** Neil Brenner, Bob Jessop, Martin Jones, Gordon Macleod, 2008-04-15 This groundbreaking interdisciplinary volume brings together diverse analyses of state space in historical and contemporary capitalism The first volume to present an accessible yet challenging overview of the changing geographies of state power under capitalism A unique interdisciplinary collection of contributions by major theorists and analysts of state spatial restructuring in the current era Investigates some of the new political spaces that are emerging under contemporary conditions of globalization Explores state restructuring on multiple spatial scales and from a range of theoretical methodological and empirical perspectives Covers a range of topical issues in contemporary geographical political economy Contains case study material on Western Europe North America and East Asia as well as parts of Africa and South America *The SAGE Handbook of Political Sociology, 2v* William Outhwaite, Stephen Turner, 2017-10-30 The SAGE Handbook of Political Sociology offers a comprehensive and contemporary look at this evolving field of study The focus is on political life itself and the chapters written by a highly respected and international team of authors cover the core themes which need to be understood in order to study political life from a sociological perspective or simply to understand the political world The two volumes are structured around five key areas PART 1 TRADITIONS AND PERSPECTIVES PART 2 CORE CONCEPTS PART 03 POLITICAL IDEOLOGIES AND MOVEMENTS PART 04 TOPICS PART 05 WORLD REGIONS This future oriented and cross disciplinary handbook is a landmark text for students and scholars interested in the social investigation of politics **Department of State Bulletin**, 1989 The official monthly record of United States foreign policy **North American Borders in Comparative Perspective** Guadalupe Correa-Cabrera, Victor Konrad, 2020-04-07 The northern and southern borders and borderlands of the United States should have much in common instead they offer mirror articulations of the complex relationships and engagements between the United States Mexico and Canada In *North American Borders in Comparative Perspective* leading experts provide a contemporary analysis of how globalization and security imperatives have redefined the shared border regions of these three nations This volume offers a comparative perspective on North American borders and reveals the distinctive nature first of the overportrayed Mexico U S border and then of the largely overlooked Canada U S border The perspectives on either border are rarely compared Essays in this volume bring North American borders into comparative focus the contributors advance the understanding of borders in a variety of theoretical and empirical contexts pertaining to North America with an intense sharing of knowledge ideas and perspectives Adding to the regional analysis of North American borders and borderlands this book cuts across disciplinary and topical areas to provide a balanced comparative view of borders Scholars policy makers and practitioners convey

perspectives on current research and understanding of the United States borders with its immediate neighbors Developing current border theories the authors address timely and practical border issues that are significant to our understanding and management of North American borderlands The future of borders demands a deep understanding of borderlands and borders This volume is a major step in that direction Contributors Bruce Agnew Donald K Alper Alan D Bersin Christopher Brown Emmanuel Brunet Jailly Irasema Coronado Guadalupe Correa Cabrera Michelle Keck Victor Konrad Francisco Lara Valencia Tony Payan Kathleen Staudt Rick Van Schoik Christopher Wilson
