Economic Criminal Offences A Theory Of Economic Criminal Law

Emilie Sanchez

Economic Criminal Offences A Theory Of Economic Criminal Law:

Economic Criminal Offences A. Imre Wiener,1990 Economic Criminal Offences Imre A. Wiener,1990 *The New Palgrave Dictionary of Economics and the Law* Peter Newman,2016-04-30 A great deal of economics is about law the functioning of markets property rights and their enforcement financial obligations and so forth yet these legal aspects are almost never addressed in the academic study of economics Conversely the study and practice of law entails a significant understanding of economics yet the drafting and administration of laws often ignore economic principle The New Palgrave Dictionary of Economics and the Law is uniquely placed by the quality breadth and depth of its coverage to address this need for building bridges Drawn from the ranks of academics professional lawyers and economists in eight countries the 340 contributors include world experts in their fields Among them are Nobel laureates in economics and eminent legal scholars First published in 1998 and now available in paperback for the first time The New Palgrave Dictionary of Economics and the Law has established itself as a classic reference work in this important field Research Handbook on the Economics of Criminal Law Alon Harel,Keith N. Hylton,2012-01-01 Jeremy Bentham and Gary Becker established the tradition of analyzing criminal law in utilitarian and economic terms This seminal book continues that tradition with specially commissioned original papers that span the philosophical foundations of the use of economics in criminal law both traditional economic perspectives and behavioral and experimental approaches to the discipline The contributors examine and evaluate the optimal design of criminal law norms as well as the ideal structure of law enforcement institutions They delineate what wrongs ought to be criminalized identify the boundaries between criminal law and tort and determine the optimal size of sanctions given the differential vulnerability of victims They also analyze the special considerations that apply to the regulation of corporate crime the effects of technology on crime and the effects of the distribution of wealth on sentencing This essential Handbook provides students and scholars of criminal law and law and economics the opportunity to explore the diversity of contemporary approaches to the economics of crime Criminologists sociologists and policymakers will also find it a valuable addition to their collections **Theoretical Foundations of Law and Economics** Mark D. White,2009 A book length examination of the methodology and philosophy of law and economics *The Elgar Companion to Law and Economics* Jürgen G. Backhaus,2005-01-01 Acclaim for the first edition Backhaus's book is a good companion Pablo Salvador Coderch Indret A most valuable collection of papers serving to provide the reader both with an overview of some key areas in law and economics and with a biographical introduction to the work of some important if also neglected sources of scholarship in the discipline Anthony I Ogus CBE University of Manchester UK This thoroughly updated and revised edition of a popular and authoritative reference work introduces the reader to the major concepts and leading contributors in the field of law and economics The Companion features accessible informative and provocative entries on all the significant issues and breaks new ground by bringing together widely dispersed yet theoretically congruent ideas Following a

comprehensive introduction by the editor the renowned contributors look in detail at several critical areas including fundamentals of the law and economics approach private law and economics public law and economics labour law and economics regulation taxation and public enterprise dispute resolution different sources of the law economic analysis of a legal problem classical authors in law and economics Students and scholars interested in a comprehensive and rigorous overview of the field of law and economics will find this volume to be a unique and welcome resource The Companion will also have a broad appeal amongst industrial economists and historians of economic thought The Law and Economics of the Environment Anthony Heyes, 2001-01-01 their collection together here represents a valuable addition to the library of those who are concerned with studying teaching analysing practicing or making environmental law as well as students and practitioners of environmental economics David Hadley The Economic Journal The exploration of the basic economics of externalities and the basic common law doctrines and institutions for dealing with externalities constitute a first generation of economic analysis of environmental law The present book of essays illustrates the second generation of economic analysis of environmental law The fundamental economic issues and the common law are no longer the focus The lessons of the first generation have been absorbed and transcended The focus has shifted to the level of application which is the level at which the economist and the lawyer economist can best hope to influence policy We are making progress and the essays in this volume will do much to assure that progress continues From the foreword by Richard A Posner United States Court of Appeals for the Seventh Circuit and University of Chicago Law School US One of the most exciting and productive areas of research in environmental policy is resulting from the integration of the traditionally separate fields of environmental economics and law and economics This book brings together the top researchers engaged in this enterprise to share the useful insights that are emerging Both in terms of the scope of coverage and the depth of analysis this is an absolutely first rate book Tom Tietenberg Colby College Maine US This outstanding book focuses on how economics can contribute to the design implementation and appraisal of legal systems that create the right incentives for environmental protection The sixteen original and specially commissioned contributions written by some of the leading names in their field span many of the important areas of contemporary interest and employ case study material combined with theoretical empirical and experimental research The book addresses many topical issues including the fundamental notions of property rights and social norms the design and implementation of civil liability regimes the use of criminal law as an instrument of environmental policy the role that citizen suits self monitoring and self enforcement could and should play in the implementation of law the international harmonisation of environmental law and the treatment of environmental damages in courts Cutting edge economic technique is motivated by and articulates with real and pressing policy debates The contributors refer to a range of legal cases and policy decisions and draw out a host of policy implications and prescriptions for settings as diverse as Superfund reform in the US and the harmonisation of landfill regulations in the European Union By

combining incisive overviews of the latest thinking and results complemented by original analysis The Law and Economics of the Environment will appeal to researchers and students of the environment law and economics policy practitioners and those with an interest in knowing what constitutes good environmental law

Fundamental Principles of Law and Economics Alan Devlin, 2014-10-17 This textbook places the relationship between law and economics in its international context explaining the fundamentals of this increasingly important area of teaching and research in an accessible and straightforward manner In presenting the subject Alan Devlin draws on the neoclassical tradition of economic analysis of law while also showcasing cutting edge developments such as the rise of behavioural economic theories of law Key features of this innovative book include case law directives regulations and statistics from EU UK and US jurisdictions are presented clearly and contextualised for law students showing how law and economics theory can be understood in practice succinct end of chapter summaries highlight the essential points in each chapter to focus student learning further reading is provided at the end of each chapter to guide independent research Making use of tables and diagrams throughout to facilitate understanding this text provides a comprehensive overview of law and economics that is ideal for those new to the subject and for use as a course text for law and economics modules

Insider Dealing and Criminal Law Iwona Seredyńska, 2011-11-03 This work is a multidisciplinary analysis of the issue of insider dealing from the perspective of the applicability of criminal law to regulate it First it examines the nature of its prohibition in the European Union and in the United States of America The text includes a more extensive overview of prohibition in four Member States of the European Union France the United Kingdom Luxembourg and Poland Then it summarises the arguments presented by ethicists and economists in favour of and against insider dealing Further it analyses the foundations of criminal law and justifications that are given for its application On the basis of this analysis it presents a new two step theory of criminalisation The first step is based on a liberal theory of wrongfulness that makes reference to protection of the basic human rights The second step relies on classical but often forgotten principles of criminal law Finally it examines possible alternatives to criminal rules

The Economic Dimensions of Crime NA NA, 2016-04-30 This book seeks to raise the profile of economic perspectives on crime and criminal justice It includes exemplars and original contributions welded into a coherent whole by commentaries on each chapter and annotated further readings It includes sections concerning the economic analysis of crime and punishment crime and the labor market and modeling the system wide costs of criminal justice policies

The New Palgrave Dictionary of Economics, 2016-05-18 The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product

International Handbook of White-Collar and Corporate Crime Henry N. Pontell, Gilbert L. Geis, 2010-05-27 Insider trading Savings and loan scandals Enron Corporate crimes were once thought of as victimless

offenses but now with billions of dollars and an increasingly global economy at stake this is understood to be far from the truth The International Handbook of White Collar and Corporate Crime explores the complex interplay of factors involved when corporate cultures normalize lawbreaking and when organizational behavior is pushed to unethical and sometimes inhumane limits Featuring original contributions from a panel of experts representing North America Asia Europe and Australia this timely volume presents multidisciplinary views on recent corporate wrongdoing affecting economic and social conditions worldwide Criminal liability and intent Stock market and financial crime Bribery and extortion Computer and identity fraud Health care fraud Crime in the professions Industrial pollution Political corruption War crimes and genocide Contributors offer case studies historical and sociopolitical analyses theoretical and legal perspectives and comparative studies featuring examples as varied as NASA Parmalat the Italian government and Watergate Criminal justice responses to these phenomena the role of the media in exposing or minimizing them prevention regulation and self policing strategies and larger global issues emerging from economic crime are also featured Richly diverse in its coverage The International Handbook of White Collar and Corporate Crime is stimulating reading for students academics and professionals in a wide range of fields from criminology and criminal justice to business and economics psychology to social policy to ethics This powerful information is certain to change many of our deeply held views on criminal behavior

The Criminalization of European Cartel Enforcement Peter Whelan, 2014 The challenges facing the criminalization of cartel activity in the EU are threefold theoretical legal and practical This book analyses these crucial challenges so that the complexity of the process of European antitrust criminalization can be accurately understood

Economic Crime Mark Button, Branislav Hock, David Shepherd, 2022-04-24 This book is the first attempt to establish economic crime as a new sub discipline within criminology Fraud corruption bribery money laundering price fixing cartels and intellectual property crimes pursued typically for financial and professional gain have devastating consequences for the prosperity of economic life While most police forces in the UK and the USA have an economic crime department and many European bodies such as Europol use the term and develop strategies and structures to deal with it it is yet to gain traction as a widely used term in the academic community

Economic Crime From Conception to Response aims to change that and covers definitions of the key premises of economic crime as the academic sub discipline within criminology an overview of the key research on each of the crimes associated with economic crime public private and global responses to economic crime across its different forms and sectors of the economy both within the UK and globally This book is an essential resource for students academics and practitioners engaged with aspects of economic crime as well as the related areas of financial crime white collar crime and crimes of the powerful

Current Legal Theory, 1992 International Encyclopedia of Organization Studies Stewart Clegg, James R. Bailey, 2008 Describing the field spanning individual organisation societal and cultural perspectives in a cross disciplinary manner this is the premier reference tool for students lecturers academics and practitioners to gather knowledge about a

range of important topics from the perspective of organisation studies **Morality, Rationality, and Efficiency** Richard M. Coughlin, 1991 Selected papers from the Second Annual International Conference on Socio Economics held at George Washington U Washington DC March 1990 provide a snapshot of the current state of research being pursued across a range of established academic disciplines with respect to this emerging movement formally launched by the publication of Amitai Etzioni's book *The moral dimension* in 1988 Paper edition unseen 17 95 Annotation copyrighted by Book News Inc Portland OR

European Union Law Catherine Barnard, Steve Peers, 2020 This text offers students a relevant case focused account of EU law Under the experienced editorship of Catherine Barnard and Steve Peers it draws together a range of perspectives on EU law designed to introduce students to the key debates and case law which shape this vast subject **Cybercrimes and Financial Crimes in the Global Era** Yanping Liu, Minghai Tian, Yanming Shao, 2022-08-12 This book presents the latest and most relevant studies surveys and succinct reviews in the field of financial crimes and cybercrime conducted and gathered by a group of top professionals scholars and researchers from China India Spain Italy Poland Germany and Russia Focusing on the threats posed by and corresponding approaches to controlling financial crime and cybercrime the book informs readers about emerging trends in the evolution of international crime involving cyber technologies and the latest financial tools as well as future challenges that could feasibly be overcome with a more sound criminal legislation framework and adequate criminal management In turn the book highlights innovative methods for combating financial crime and cybercrime e g establishing an effective supervision system over P2P encouraging financial innovation and coordination with international anti terrorism organizations and multiple countries improving mechanisms for extraditing and punishing criminals who defect to another country designing a protection system in accordance with internationally accepted standards and reforming economic criminal offenses and other methods that will produce positive results in practice Given its scope the book will prove useful to legal professionals and researchers alike It gathers selected proceedings of the 10th International Forum on Crime and Criminal Law in the Global Era IFCCLGE held on Nov 20 Dec 1 2019 in Beijing China **Radical and Marxist Theories of Crime** Paul B. Stretesky, 2017-03-02 The essays selected for this volume show how radical and Marxist criminology has established itself as an influential critique since it emerged in the late 1960s Unlike orthodox criminology which emphasizes individual level explanations of criminal behavior radical and Marxist criminology emphasizes power inequality and structures especially those related to class as key factors in crime law and justice This collection of essays draws attention to the way in which structural forces shape and influence both individual and institutional for example governmental behavior highlights neglected crime corporate governmental state corporate and environmental which causes more extensive damage than the street crimes examined by orthodox criminology and discusses the ways in which law and criminal justice processes reinforce power structures and contribute to class control
