The Cambridge Handbook of Environmental Justice and Sustainable Development Sumudu A. Atapattu,Carmen G. Gonzalez,Sara L. Seck,2021-04-01 Despite the global endorsement of the Sustainable Development Goals environmental justice struggles are growing all over the world These struggles are not isolated injustices but symptoms of interlocking forms of oppression that privilege the few while inflicting misery on the many and threatening ecological collapse This handbook offers critical perspectives on the multi dimensional intersectional nature of environmental injustice and the cross cutting forms of oppression that unite and divide these struggles including gender race poverty and indigeneity The work sheds new light on the often neglected social dimension of sustainability and its relationship to human rights and environmental justice Using a variety of legal frameworks and case studies from around the world this volume illustrates the importance of overcoming the fragmentation of these legal frameworks and social movements in order to develop holistic solutions that promote justice and protect the planet s ecosystems at a time of intensifying economic and ecological crisis

Research Handbook on Environment and Investment Law Kate Miles,2019 The Research Handbook on Environment and Investment Law examines one of the most dynamic areas of international law the interaction between international investment law and environmental law and policy The Research Handbook takes a thematic approach analysing key issues in the environment investment nexus such as freshwater resources climate biodiversity biotechnology and sustainable development It also includes sections which explore regional experiences and address practice and procedure and offers innovative approaches and critical perspectives including the interface between foreign investment and the environment with human rights gender indigenous peoples and economics

Rethinking Environmental Protection Phillip F. Cramer,2000-01-01 Despite widespread popular support for environmental action Phillip F Cramer argues that current U S environmental policy approaches fail to address the real threat of environmental insecurity Cramer traces this failure to a reluctance to recognize and address the interconnectedness of natural forces just as all elements within the environment are linked so too should our perspectives on and responses to environmental degradation be linked In this book Cramer provides an innovative holistic approach to environmental protection that incorporates the best lessons learned from the fields of biology ethics philosophy political science law ecology and international relations He especially advocates local action and providing illustrative examples demonstrates how local action around the world is most effective when carried out within a global framework that supports information dissemination and international coordination This book will energize to thought and action any scholar student or general reader concerned with environmental issues and our current trajectory toward

environmental decay Private Capital Flows and the Environment Bradford S. Gentry, 1998 This work offers an assessment of private capital flows to emerging market countries and their impacts on the environment t emphasises the critical role that private capital plays in the financial transfers from post industrial to developing nations far e ceeding foreign aid

International Environmental Law Compliance in Context Belen Olmos Giupponi, 2021-04-22 This book explores how compliance with international environmental law has changed over time offering a critical analysis of its current shifting patterns Beginning with an overview of compliance with international environmental law the book goes on to explore in detail compliance in the different legal regimes instituted by Multilateral Environmental Agreements MEAs the addition of new subjects of international law the legal relations between developed and developing countries and the emergence of new compliance mechanisms in global environmental law The analysis takes two key developments into consideration the evolution in forms of compliance and non state involvement in compliance with international environmental law In the final section three case studies are provided to demonstrate how these changes have occurred in selected areas climate change biodiversity and water resources Throughout the book topics are illustrated with extracts from specific international environmental law jurisprudence and relevant international environmental law instruments In doing so the book offers a comprehensive analysis of compliance with international environmental law providing original insights and following a clear and systematic structure supported by reference to the sources This book will be of interest to professionals academics and students working in the field of compliance with international environmental law *Birnie, Boyle, and Redgwell's*

International Law and the Environment Alan E. Boyle, Catherine Redgwell, 2021 As conservation of the environment plays an increasingly important role within society Birnie Boyle and Redgwell s *International Law and the Environment* continues to be an essential read for students and practitioners alike Whilst remaining rooted within the substantive law the book places legislation on the protection of the environment firmly at the core of the text Written by experts in the field the authors employ sharp and thorough analysis of the laws allowing them to share their extensive knowledge and experience with the reader The authors provide a unique perspective on the implications of international regulation promoting a wider understanding of the pertinent issues impacting upon the law Bibliography of Agriculture with Subject Index , 1993-03
