Day Wallace picks up the thread of her best selling Legal Control of the Multinational Enterprise National Regulatory  
Techniques and the Prospects for International Controls In the present work she applies herself to legal and pragmatic  
aspects of control surrounding MNE operations The primary focus is on legal and administrative techniques and measures  
practised by host states to control transparently or less so foreign MNE activity within their territories or even  
extraterritorially when effects are felt within national boundaries The primary geographic focus is the six most investment  
intensive industrialized states namely Canada France Germany Japan the United States and the United Kingdom At the same  
time an important message of the present study is precisely the implication for the developing countries as well as for the  
emerging market economies of central and eastern Europe and even Asian nations besides Japan because it is the sharing of
