Center for International Economic and Economic Development,1969 **Institutional Balancing in the Asia Pacific** Kai He,2008-11-06 This book examines the strategic interactions among China the United States Japan and Southeast Asian States in the context of China's rise and globalization after the cold war Engaging the mainstream theoretical debates in international relations the author introduces a new theoretical framework institutional realism to explain the institutionalization of world politics in the Asia Pacific after the cold war Institutional realism suggests that deepening economic interdependence creates a condition under which states are more likely to conduct a new balancing strategy institutional balancing i.e. countering pressures or threats through initiating utilizing and dominating multilateral institutions to pursue security under anarchy To test the validity of institutional realism Kai He examines the foreign policies of the U.S. Japan the ASEAN states and China toward four major multilateral institutions Asia Pacific Economic Cooperation APEC the Association of Southeast Asian Nations ASEAN Regional Forum ARF ASEAN Plus Three APT and East Asian Summit EAS Challenging the popular pessimistic view regarding China's rise the book concludes that economic interdependence and structural constraints may well soften the dragon's teeth China's rise does not mean a dark future for the region Institutional Balancing in the Asia Pacific will be of great interest to policy makers and scholars of Asian security international relations Chinese foreign policy and U.S. foreign policy Economic Interdependence and Development in East Asia Hans C. Blomqvist,1997-08-26 The rapid development of Asian countries has met with mixed reactions among economists Most economists understand that a genuine development is underway but since the process has been a complex one each has been able to apply favorite explanations to the situation In Eastern Asia regional interdependence has been important to developing countries This work discusses the interaction between the regional economies through trade and foreign direct investment relating interaction to economic growth and development *Economic Interdependence in Southeast Asia* ,1970 **Small States and Hegemonic Competition in Southeast Asia** Chih-Mao Tang,2018-03-20 In the last few decades Southeast Asia has become generally more peaceful and more prosperous with progress in economic development regional cooperation and integration ASEAN in particular plays a leading role within

and beyond the region in promoting multilateral cooperation in both security and economic matters All these developments progress amid increasing hegemonic competition between the US and China for regional dominance in the Asia Pacific region According to the realist viewpoint of international politics Southeast Asian states can do nothing but choose sides at the expense of international political autonomy in order to maintain their national interests Tang argues however that in fact there exists an opportunity for Southeast Asian states to simultaneously reinforce their military security economic development and international political autonomy in face of the US China hegemonic competition Drawing on the ideas of power transition theory and recent works of capitalist peace Tang argues that small states can exploit the competition between great powers to make economic gains and ensure security while maintaining their autonomy He outlines the necessity of cooperation among these small states and of economic liberalization for the effectiveness of this reinforcing dynamics applying policy and econometric analyses to a wide range of qualitative and quantitative data *Economic*

Japan's Relations

with Southeast Asia Peng Er Lam,2013 The Fukuda Doctrine has been the official blueprint to Japan s foreign policy towards Southeast Asia since 1977 This book examines the Fukuda Doctrine in the context of Japan Southeast Asia relations and discusses the possibility of a non realist approach in the imagining and conduct of international relations in East Asia The collapse of 54 years of Liberal Democratic Party rule and the advent of a new Democratic Party of Japan raises the question of whether the Fukuda Doctrine is still relevant as a framework to analyse Tokyo s policy and behaviour towards Southeast Asia Looking at its origins and norms amidst three decades of change the book argues that the Fukuda Doctrine is still relevant to Japan Southeast Asian relations and should be extended to relations between China and Japan if an East Asian Community is to be built The book goes on to discuss the Fukuda Doctrine in relation to the power shift in Asia including the revitalization of Japan s security role By providing a detailed understanding of a non western perspective of Japan s relationship with Southeast Asia this book is a useful contribution for students and scholars of Asian Studies Politics and International Relations
