Economic Development In The Soviet Union:

Economic Development in the Soviet Union Stanley Harold Cohn,1970 *Economic Development in the Soviet Union* Stanley Harold Cohn,1970 Law And Economic Development In The Soviet Union Peter B. Maggs,2019-03-04 In the past Soviet policymakers planners and jurists in their enthusiasm for economic and technological development devoted little attention to the often negative consequences of modernization New concerns however have become apparent in recent literature statutes and decrees In this book political scientists and experts on Soviet law address many of those concerns analyzing the legal issues associated with economic modernization in the USSR The central themes of the book are the increasingly centralized nature of the policymaking process in the USSR and Eastern Europe and the marked tendency to rely on law as a principal mechanism for managing the undesirable consequences of scientific and technological progress The authors also assess the impact of the scientific technical revolution on Soviet East European relations and East West relations emphasizing the foreign policy consequences of increased financial and technological interdependence The study does not deal with narrow legalistic issues of technical progress rather its focus on policy questions reflects the inclination of Soviet and Eastern European governments to view those questions in terms of law and legislative activity and to see law as an instrument of social engineering The Economic Development of the USSR Roger Munting,2023-06-14 The Economic Development of the USSR 1982 examines the economic advances the Soviet Union made as the first major economy to adopt full scale socialist planning It argues that the Soviet experience demonstrates that remarkable quantitative economic progress can be achieved but at a price which Western democracies would not tolerate Moreover while the planning and control mechanism of the USSR produced striking results in the case of agriculture it often failed to produce satisfactory results The book provides an impartial assessment of the merits and defects of the Soviet planning system which also served as a model for many other Communist countries *Soviet Economic Development from Lenin to Khrushchev* Robert William Davies,1998-03-28 This book provides a comprehensive survey of Soviet economic development from 1917 to 1965 in the context of the pre revolutionary economy In these years the Soviet Union negotiated the first stages of modern industrialisation and then after the defeat of Nazi Germany and its allies emerged as one of the two world superpowers This was also the first attempt to construct a planned socialist order These developments resulted in great economic achievements at great human cost Using the results of recent Russian and Western research Professor Davies discusses the inherent faults and strengths of the system and pays particular attention to the major controversies Was the Russian Revolution doomed to failure from the outset Could the mixed economy of the 1920s have led to a democratic socialist economy What was the influence of Soviet economic development on the rest of the world *Economic Development in the Soviet Union and Eastern Europe* Zbigniew M. Fallenbuchl,1975 Russian Economic Development Since the Revolution Maurice Dobb, Henry Charles Stevens,1928 Western Technology and Soviet Economic Development 1917 to 1930 Antony

C. Sutton, 1968 THIS is the first volume time period 1917-1930 of an empirical study of the relationship between Western technology entrepreneurship and the economic growth of the Soviet Union By far the most significant factor in the development of the Soviet economy has been its absorption of Western technology and skills The continuing transfer of skills and technology to the Soviet Union through the medium of foreign firms and engineers in the period 1917 to 1930 can only be characterized as extraordinary *Soviet Economic Development Since 1917* Maurice Dobb, 1948 Economic development in the Soviet Union Stanley Cohn, 1970 Western Technology and Soviet Economic Development 1945-1968 Antony C. Sutton, 2022-05-10 THIS is the third volume of an empirical study of the relationship between Western technology and entrepreneurship and the economic growth of the Soviet Union The continuing transfer of skills and technology to the Soviet Union through the medium of foreign firms and engineers in the period 1945 to 1965 can only be characterized as extraordinary **Economic Development of the Soviet Union** A.
