**Economic Growth and Structure in the Republic of Korea** Paul W. Kuznets, 1977-01-01      **Economic Growth, Low Income and Housing in South Korea** Kim Woo-Jin, 1997-01-12 a wide ranging scholarly and humane book which should be read by anyone seriously interested in this country David Donnison From the devastation of the Korean war there emerged one of the most dynamic rapidly growing economies the world has ever seen Starting from a concern about the housing of people struggling to survive on low incomes in the cities of South Korea Kim Woo Jin throws light upon the whole development of Korean society since the civil war He argues that housing has played a central part in both the development of the economy and its more recent slowdown In the future housing policies may play their part in resisting the destructive forces that the probable reunification of North and South will bring and recreate hope for the future      The Economic and Social Modernization of the Republic of Korea Edward S. readers who have little or no knowledge of the overall history of the Korean people The extensive bibliography has been updated to include the most current and best books journals and websites making this a valuable reference source for the scholar student and general reader      *Growth and Structural Transformation* Kwang Suk Kim, Michael Roemer, 1979 This study provides a comprehensive overview of Korea's macroeconomic growth and structural change since World War II The authors explore in detail colonial development changing national income patterns relative price shifts sources of aggregate growth and sources of sectoral structural change comparing them with other countries      **Economic Development Of Korea** Chuk Kyo Kim, 2019-03-06 The purpose of this book is to provide a systematic and policy focused analysis of Korea's development performance from a historical perspective The book begins with post war reconstruction efforts and extends to recent developments in the Korean economy Through a comprehensive analysis of Korea's development performance over the last six decades the book examines in detail how development strategies and policies evolved over time what were their consequences and underlying factors and what lessons can be drawn from the Korean experience A wide range of issues are discussed including the role of government capital accumulation growth and structural change industrial development and concentration economic liberalization human resource and technology development social development and income distribution The important features of the Korean development model are highlighted to draw lessons from the Korean experience      Korea's Economic Miracle Robert Castley, 2016-07-27 Very few developing countries have successfully industrialised Many are under pressure from international organisations to achieve self sustainable industrialisation This is why Korea's case is particularly interesting There have been many attempts to explain the causes of Korea's economic miracle These have focused mainly on the internal factors such as the discipline of the Korean workforce and export promotion policies The present study however shows that these factors contributed to Korea's impressive growth but do not explain the reasons for her success External factors have been more important the Japanese economy in particular This book examines therefore in detail the impact of Japan's economic growth on the Korean economy in particular the stimulating effects of trade sub contracting relocation of industry investment loans and technology transfer It demonstrates how Japan provided a range of goods services and capitals which were precisely what the newly industrialising country needed      **A New History of Korea** Ki-baik Lee, 1988-03-15 One of the first most widely read and respected histories of Korea Ki-baik Lee's *Han-guksa Sillon* has been translated into English by Edward W Wagner A New History of Korea offers Western readers a distillation of the best scholarship on Korean history and culture from the earliest times to the student revolution of 1960      Republic of Korea International Monetary Fund. Asia and Pacific Dept, 2019-05-13 This Selected Issues paper analyzes monetary policy and financial cycles the evolution of macroprudential policies in Korea the efficacy in prudential policies in taming financial excess and building financial resilience and the interaction between monetary policy and macroprudential policies Evidence for Korea suggests that financial stability will not necessarily materialize as a natural by product of a so called appropriate

monetary policy stance Although the effects of monetary and macroprudential instruments may overlap they are not perfect substitutes Macroprudential policies can also impact the banking system by affecting bank funding costs through the net interest margin In certain circumstances borrower based prudential measures and monetary policy can complement one another Macroprudential policies can impact banks profitability Policymakers should be mindful that macroprudential policy is not free of costs and that there may be trade offs between the stability and the efficiency of financial systems Military Industry in Taiwan and South Korea Janne E. Nolan,1986-02-24 Since World War II the United States has done much to support economic political and social development in the Third World At the same time its policies toward developing nations often reflect an overly narrow conception of national and global security in which the influences of the modernization process seem scarcely to have been taken into account Both strains in US policy are mirrored in strong academic traditions upon which policy makers have drawn liberally in the postwar years Developmentalists and security scholars alike will find much that is familiar in the case studies presented in Military Industry in Taiwan and South Korea Dr Nolan s discussion of the stresses of rapid economic and political development in both states draws deeply on the modernization and dependencia studies of the last two decades while her treatment of the security environment within which domestic policies must be made will satisfy the international relationist concerned with states as actors within the international system Throughout Dr Nolan provides a detailed presentation of the behaviour of both polities that will be of interest to North east Asian area specialists and students of US arms policy

**Economic Development, Population Policy, and Demographic Transition in the Republic of Korea** Robert Repetto,Tai Hwan Kwon,Son-Ung Kim,Dae Young Kim,John E. Sloboda,2020-03-17 Since the early 1960s the Korean experience represents a fairly extreme example of 1 development strategy the open export led labor intensive model Since the onset of rapid economic growth in the early 1960s triggered by a set of liberalizing economic policy reforms manufactured exports have expanded at an average annual rate of over 25% and have provided much of the impetus for the growth of industry and industrial employment Expanded domestic markets for intermediates and capital equipment have brought substantial import substituting industrial growth and a relative abundance of domestic and international finance Another aspect of Korea s experience which makes it a valuable case study is the fact that the country entered this period of development with an exceptionally equally distributed stock of human and physical wealth The Korean case represents close to an extreme in 2 dimensions rapid open export led labor intensive growth combined with markedly egalitarian initial social and economic structures For the student of demographic transition Korea s experience is noteworthy because of the rapidity of change The crude birthrate declined 40% between 1960 75 The mechanisms and socioeconomic determinants of this transition are questions of substantial interest to those concerned with population problems Kwon illuminates the historical antecedents to this period of rapid demographic change It was the drastic upheaval of Korean society during the wartime period that set the stage for fertility transition The dislocations and destruction of the Korean War

completed the process The war greatly weakened the family structure of Korean society and put an end to early marriage In addition to affecting family values and birth control practice in Korea it directly interfered with family formation and fertility Repetto explores the channels of influence through which the economic development of Korea affected the demographic transition Kim demonstrates that the policies with the most pronounced effect of population growth and distribution have been implicit and indirect Kim and Sloboda sheds light on the economic forces behind migration through the analysis of new data on the economic characteristics of migrants
