## **Economic Structures Of Antiquity:**

*Economic Structures of the Ancient Near East* Morris Silver, 2024-08-28 *Economic Structures of the Ancient Near East* 1985 is a political economy of antiquity which applies the universal conclusions of theoretical economics to the interpretation of economic life. The first part of the book shows that the analysis of transaction costs that is the resources used up in exchanging ownership rights including costs of communication and of designing and enforcing contracts provides numerous insights into the structure of the ancient economy. The role of temples as centres of commerce inculcation of professional standards by gods elevation of technology to the status of divine gift religious syncretism and fetishism and many more seemingly exotic practices are comprehended as elements in a strategy to cope with high transaction costs by increasing the stock of what might be called trust capital. It is shown that similar considerations lie behind the ubiquity of diversified multinational family firms the prominent entrepreneurial role of high born women the prominence within the contractual process of publicly performed conventional gestures and recitations and the intrusion of gifts friendship and other manifestations of personal economics into exchange relationships. The book goes on to examine carefully and then reject the view of economic historian Karl Polanyi and others that the ancient Near East lacked true markets for consumer goods and productive factors. The direct evidence of market exchange local and long distance occupational specialisation supply demand determined prices investment in material and human capital production for the market and other modern traits is uneven with respect to place and time but nevertheless abundant. The requisite market functions demanded by Polanyi including a market for labour slave and free and elaborate credit and investment markets can be seen plainly from very early times. Finally the book deals with the impact on the ancient Near Eastern economy of changes in economic incentives and of changes in economic policy. It becomes evident that ancient economies were capable of making profound alterations in order to take advantage of new economic opportunities. It is also shown that the ancient Near East was not static as is usually asserted periods of pervasive economic regulation by the state are interspersed with lengthy periods of relatively unfettered market activity and growth.

**Economic Structures of Antiquity** Morris Silver, 1995-02-14 The economy of the ancient Middle East and Greece is reinterpreted by Morris Silver in this provocative new synthesis. Silver finds that the ancient economy emerges as a class of economies with its own laws of motion shaped by transaction costs the resources used up in exchanging ownership rights. The analysis of transaction costs provides insights into many characteristics of the ancient economy such as the important role of the sacred and symbolic gestures in making contracts magical technology the entrepreneurial role of high born women the elevation of familial ties and other departures from impersonal economics reliance on slavery and adoption and the insatiable drive to accumulate trust capital. The peculiar behavior patterns and mindsets of ancient economic man are shown to be facilitators of economic growth. In recent years our view of the economy of the ancient world has been shaped by the theories of Karl Polanyi. Silver confronts Polanyi's empirical propositions with

the available evidence and demonstrates that antiquity knew active and sophisticated markets In the course of providing an alternative analytical framework for studying the ancient economy Silver gives critical attention to the economic views of the Assyriologists I M Diakonoff W F Leemans Mario Liverani and J N Postgate of the Egyptologists Jacob J Janssen and Wolfgang Helck and of the numerous followers of Moses Finley Silver convincingly demonstrates that the ancient world was not static periods of pervasive economic regulation by the state are interspersed with lengthy periods of relatively unfettered market activity and the economies of Sumer Babylonia and archaic Greece were capable of transforming themselves in order to take advantage of new opportunities This new synthesis is essential reading for economic historians and researchers of the ancient Near East and Greece

**Capitalism** Jürgen Kocka,Marcel van der Linden,2016-08-25 Capitalism has been a controversial concept In the second half of the 20th century many historians have either not used the concept at all or only in passing Many regarded the term as too broad holistic and vague or too value loaded ideological and polemic This volume brings together leading scholars to explore why the term has recently experienced a comeback and assess how useful the term can be in application to social and economic history The contributors discuss whether and how the history of capitalism enables us to ask new questions further explore unexhausted sources and discover new connections between previously unrelated phenomena The chapters address case studies drawn from around the world giving attention to Europe Africa and beyond This is a timely reassessment of a crucial concept which will be of great interest to scholars and students of economic history

*The Agrarian Sociology of Ancient Civilizations* Max Weber,2013-08-06 Max Weber widely recognized as the greatest of the founders of classical sociology is often associated

with the development of capitalism in Western Europe and the analysis of modernity But he also had a profound scholarly interest in ancient societies and the Near East and turned the youthful discipline of sociology to the study of these archaic cultures The Agrarian Sociology of Ancient Civilizations Weber s neglected masterpiece first published in German in 1897 and reissued in 1909 is a fascinating examination of the civilizations of Mesopotamia Egypt Hebrew society in Israel the city states of classical Greece the Hellenistic world and finally Republican and Imperial Rome The book is infused with the excitement attendant when new intellectual tools are brought to bear on familiar subjects Throughout the work Weber blends a description of socio economic structures with an investigation into mechanisms and causes in the rise and decline of social systems The volume ends with a magisterial explanatory essay on the underlying reasons for the fall of the Roman Empire

Our Reason for Being T. F. Leong,2022-08-11 Ecclesiastes is a persuasive speech with a rhetoric so unique that it can be easily misunderstood It speaks powerfully to believers as well as nonbelievers because it addresses the question of the meaning of life in the most satisfying way The heart of this book is an expository commentary that interprets Ecclesiastes as authoritative Scripture It seeks to recover the rhetoric of the speech in terms of its comprehensive message on the meaning of life as well as its compelling force to get the message across Preceding the expository commentary is an introduction to Ecclesiastes that presents a new approach to outlining and reading Ecclesiastes as a coherent speech It also presents an overview of the forest the overall rhetorical flow of the speech from beginning to end This is to prevent one from getting lost when immersed in the trees of the expository commentary Following the expository commentary are two topical studies to give Ecclesiastes the breadth and depth of coverage it deserves The first is an interdisciplinary exposition on the meaning of life The second is an interpretive essay to defend exegetically the interpretation of Ecclesiastes as a coherent speech **The**

*A History of Management Thought* Morgen Witzel, 2016-12-16 Of all the sciences and social sciences management is the one that most deliberately turns its back on the past. Yet management as we know it today did not spring into life fully formed. Management has more than just a present it also has a past and a future and all three are inextricably linked. This book charts the evolution of management as an intellectual discipline from ancient times to the present day. Contemporary management challenges including sustainability technology and data and legitimacy are analysed through an historical lens and with the benefit of new case studies. The author helps readers understand how the evolution of management ideas has interacted with changes in society. By framing management's history as one of challenge and response this new edition is the perfect accompaniment for students and scholars seeking meaningful study in the business school and beyond. Essential reading as a core textbook in management history the book is also valuable supplementary reading across the humanities and social sciences.

Law and Commerce in Pre-Industrial Societies Barry Hawk, 2015-10-20 Well before states literacy or legal systems there were commerce and trade which are found in all societies irrespective of politics social norms or ideologies. Athenian landowners Roman senators and Qing mandarins screened their participation in commerce and trade. Legal and informal institutions were developed to secure persons and property resolve commercial disputes raise capital and share risk promote fair dealing regulate agents and gather market information. *Law and Commerce in Pre Industrial Societies* examines commerce its participants and these institutions through the lens of nine pre industrial societies: Hunter gatherers Mesopotamia Egypt Athens Rome the early Islamic world medieval Europe medieval Southern India and Qing China. The book provides historical perspective to contemporary debates about the relationship between commerce and law public ordering versus privately created systems of law the rule of law and the relative merits of courts versus merchant networks to resolve disputes.
