Economics Of Health In Developing Countries:

Principles of Health Economics for Developing Countries William Jack, 1999-01-01 Developing countries present health economists with an array of situations and circumstances not seen in developed countries This book explores those characteristics particular to developing countries **Economics of Health in Developing Countries** Kenneth Lee, 1982

The Economics of Health in Developing Countries Kenneth Lee, 1985 This useful collection examines the ways in which economic concepts and techniques can be applied to health and health services in developing countries indicating the present scope of economic analysis and its potential use in the future planning and management of the health sector Written by experts in the field each essay presents theoretical developments and research findings providing a state of the art review of the uses of economic analysis in such areas as health insurance primary health care immunization programs and the interrelationship between health sector and national development planning **Health Economics for Developing**

Countries Sophie Witter, 2000 This text is an introduction to health economics and finance for low income countries which is easy to use and read and does not assume previous training in economics It explains health economics in an accessible applied way using material from and relevant to developing countries The focus is on practical use Health Economics in Developing Countries Alan L. Sorkin, 1976 **Health Economics Research in Developing Countries** Anne Mills, 1993

Presents a number of empirical studies of the application of economic concepts and techniques to health in developing countries It clarifies the ways in which health economics can be used in practice and reports research results that are of importance to policy makers **Health Systems in Low- and Middle-Income Countries** Richard D. Smith, Kara Hanson, 2012 Outlines the key aspects issues concerning health systems of low middle income countries recognising the current global context within which these systems operate the dynamics of this context It brings together a set of renowned authors to tackle the issues that face population health health care in the twenty first century **Health, Economic**

Development and Household Poverty Sara Bennett, Lucy Gilson, Anne Mills, 2007-09-12 Accessible and edited by authors based at a top institution this book provides readers with an excellent summary in an easy to read style of this burgeoning field of research In this volume Bennett Gilson and Mills have gathered together essays written by academics and experts in the fields of health policy and economic development each underscoring the need for political commitment to meet the needs of the poor and the development of strategies to build this commitment covering evidence regarding the links between health economic development and household poverty evidence on the extent to which health care systems address the needs of the poor and the near poor innovative measures to make health care interventions widely available to the poor Current and topical this book is of great relevance to policy makers and practitioners in the field of international health and development and researchers engaged with global health and poverty as well as being ideal reading for students of international health and development **Health Economics and Development** Stuart Wells, Steven Klees, 1980-03-15 Our main goal in writing

this book is to examine the relationship between health and economic development Most investigators of health problems in developing countries seem to agree that malnutrition and high rates of disease are related to poverty but the interpretation of this relationship and the subsequent policy recommendations have led to different analytic approaches The two main approaches investigated here are disaggregated sequential policy analysis and structural analysis *Macroeconomics and Health* Jeffrey Sachs, World Health Organization. Commission on Macroeconomics and Health, World Health Organization, 2001-12 Describes a strategy for investing in health for economic development especially in the world's poorest countries The report proposes a partnership of developing and developed countries to save eight million lives yearly in developing countries from infectious diseases and maternal conditions

The Economics of Health in Developing Countries Anne Mills, Kenneth Lee, 1984 This book covers a range of important macro and micro economic issues that economists planners policy makers professionals and others face in the health sector Each chapter is a review of the state of the art in a particular area and includes theoretical developments methods and techniques and empirical findings Contents Developing countries health and health economics Economic development health services and health Health sector financing and expenditure surveys Economic aspects of health insurance Resources and costs in primary health care Some health manpower policy issues Economic appraisal in the health sector The economic evaluation of immunization programmes Economics and nutrition planning Health sector planning and national development planning The economics of health in developing countries a critical review

Social Rights and Economics Varun Gauri, 2003 Gauri analyzes contemporary rights based and economic approaches to health care and education in developing countries He assesses the foundations and uses of social rights in development outlines an economic approach to improving health and education services and then highlights the differences similarities and the hard questions that the economic critique poses for rights The author argues that the policy consequences of rights overlap considerably with a modern economic approach Both the rights based and the economic approaches are skeptical that electoral politics and de facto market rules provide sufficient accountability for the effective and equitable provision of health and education services and that further intrasectoral reforms in governance particularly those that strengthen the hand of service recipients are needed There remain differences between the two approaches Whether procedures for service delivery are ends in themselves the degree of disaggregation at which outcomes should be assessed the consequences of long term deprivation metrics used for making tradeoffs and the behavioral distortions that result from subsidies are all areas where the approaches diverge Even here however the differences are not irreconcilable and advocates of the approaches need not regard each other as antagonists This paper a product of Public Services Development Research Group is a background paper for the 2004 World Development Report

Economic Evaluation of Health Care in Developing Countries Guy Carrin, 1984 Textbook on theoretical and empirical aspects of health service in developing countries reviews the causes of poor health and the impact on economic development develops

an evaluation technique for economic evaluation of health policy and primary health care incl Linear programming case studies regression analysis simulation and cost benefit analysis employing statistical method Bibliography graphs statistical tables

Urban Health in Developing Countries Trudy Harpham, Marcel Tanner, 1995 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company

The underlying dynamics of health care systems in developing countries: Health policy, planning and the Impact of Social Economic Status (SES) on Health Disparities Mukasa Aziz Hawards, 2014-05-01 The impact of health policy and planning are tremendous remedies through which the health care systems derive their primary potentials in the health promotion ventures and interventions The programs designed in the health arena are tentatively equivocal and submissive to the implications influenced by the policy development criteria and much more open to the planning process Every day healthcare organizations are faced with crucial decisions about improving their systems of care and a lack of critical information to guide them The research they need should be designed to help them provide better care to the patients in their organization effectively and efficiently Where does the Medicaid and the medical care strategies as pursued in the United States of America have their remedies through policy structure and together with the political culture associated to the system or perhaps how possible is it that japan has the highest life expectancy co efficient The book is more of a fact file as results were generated by the health care research from suitable sectors and comparisons derived from the well off health care states mainly from the OECD fraternity as these bare differences due to policy even when their economic bases differ by small percentages This work should be helpful in directing and providing us with traceable landmarks to follow while seeking to avert the challenges that weaponize the communicable disease prevalence in the society for both the developed and the low developed states

Health Economics for Developing Countries Anne Mills, Lucy Gilson, London School of Hygiene and Tropical Medicine, Evaluation and Planning Centre for Health Care (London), 1988

Health Care Systems in Developing and Transition Countries Diana Pinto Masís, Peter C. Smith, 2009 Health policy is a central preoccupation of many if not all developing countries This book presents a selection of ten studies that illustrate the powerful tool that carefully conducted research can offer policy makers seeking to address common health policy issues The studies included in this book illustrate the major gains to patients and citizens that can accrue from research efforts stimulating research capacity in developing countries Although many of the challenges confronting health systems are universal it is often the case that research results derived from developing countries can be misleading when applied to the low or middle income settings This insightful book will be a valuable research tool for academics researchers and policy makers in economics and health Publisher s description
