Economie Des Talacoms:

L'économie des télécommunications en Afrique Raymond Lemesle, 2002-01-01 L'Afrique subsaharienne compte environ le même nombre de téléphones que la ville de Tokyo Son retard pourrait s'accroître l'heure où le monde industrialisé se lance sur les super autoroutes de l'information De plus la plus grande partie des équipements en service en Afrique est importée et l'assistance technique y manque de coordination Le poids économique des télécommunications repose aujourd'hui sur des disparités techniques et financières que les organisations internationales tentent d'atténuer afin de promouvoir le Continent sur le marché mondial des télécommunications Dans cette perspective l'évolution des statuts des opérateurs des télécommunications africaines s'oriente vers la privatisation des services à l'instar des pays industrialisés Parallèlement l'abandon des technologies obsolètes s'impose afin que la fracture numérique n'aille pas en s'approfondissant Le présent ouvrage n'est ni un traité d'économie ni un traité technologique mais plutôt une synthèse des principaux problèmes intéressant une économie spécialisée où les aspects des télécommunications spécifiques à l'Afrique sont abordés

Économie des télécommunications : ouverture et réglementation Nicolas Curien, Michel Gensollen, 1992-01-01 T00:00:00+01:00 Présente les éléments techniques et les concepts économiques indispensables une analyse pertinente du secteur des télécommunications Copyright Electre

Telecom Management in Emerging Economies Murali Krishna Medudula, Mahim Sagar, Ravi Parkash Gandhi, 2016-04-26 This book discusses the ideas interventions by different players and technological revolutions that have transformed the telecom industry to propel it towards a growth cycle Pursuing a comprehensive approach it examines highly topical issues in depth e.g mobile data security via 4G the new industrial revolution green telecommunications and consumer awareness of radio signals Along with input from regulators government organizations and industry players expert opinion columns in each chapter clearly present the viewpoints of the industry and ministry Several graphical tools are used throughout the book helping readers to contemplate the text in different ways and to make concepts more hands on Readers will also gain a holistic perspective of the industry key players regulatory bodies and the consumer and a clearer understanding of various policy issues and their implementation mechanisms business dynamics and technology issues in this sector New Telecom Networks Daniel Battu, 2014-10-13 Nowadays the Internet has become an irreplaceable tool feeding us information about new innovations and the evolution of the markets relating to all human activities What the Internet lacks though is a guiding narrative thread which is crucial to understand the evolution from old technologies into the technologies available today and to benefit from the commentary which could elucidate that process of evolution In spite of its inherent richness no encyclopedia can constitute the one and only referential information source The actors involved also have the right to be heard all those who have devoted their working lives to the collective effort of edifying networks can of course present their personal views about the evolution of the world of telecommunications and thus provide invaluable testimony to companies in this area who can make use of it It is that approach which is adopted in this book Whilst the primary objective of this book is

to encourage SMEs to use digital technologies and help them to organize with that goal in mind it has proved necessary to describe the transformations currently under way in the field of networks and to outline the efforts to obtain a competitive edge in terms of clerical applications compare the various techniques that are available for high data rate communications and touch upon the advent of the Internet of Things cloud computing and various new multimedia technologies All in all this book should help companies particularly SMEs to garner overall information about the current movement in the area of networking and assist them in putting in place and managing their own communications systems **Telecommunications**
