La cultura en la Edad Media Johannes Böhler, 2005 Considerado durante décadas simplemente como un tiempo oscuro de transición entre la Antigüedad y el Renacimiento el periodo conocido como Edad Media tiene sin embargo un carácter propio y específico de una riqueza difícil de sospechar si nos atenemos a los prejuicios que han dominado su concepción no ya en los ámbitos eruditos en los que esta riqueza nunca estuvo en tela de juicio aunque

Chivalry and Violence in Late Medieval Castile Samuel A. Claussen, 2020 First full investigation in English into the role played by chivalric ideology and its violent results in late medieval Castile The Kingdom of Castile in the late Middle Ages suffered from regular civil strife warfare dynastic contests and violence such that only a century before the birth of the Spanish Empire it is difficult to imagine a successful world empire centered in this tumultuous realm The chaos that marked this period of Castilian history was not mere chance but the result of key historical developments which have not been fully examined in Anglophone scholarship This book explores the roots of the disorder that plagued Castile in the fourteenth and fifteenth centuries identifying the ideology of chivalry and its knightly practitioners as the chief instigators of the violence

that destabilized the kingdom The author argues that chivalry was far from being a code of good behaviour scrupulously observed but rather encouraged knights to avenge themselves violently upon their neighbours pursue a zealous holy war against Islam and tear at the social fabric of Castilian society Their powerful ideas and values shaped the course of Castilian history in the crucial years before the unification of the Spanish kingdoms pursue a zealous holy war against Islam and tear at the social fabric of Castilian society Their powerful ideas and values shaped the course of Castilian history in the crucial years before the unification of the Spanish kingdoms pursue a zealous holy war against Islam and tear at the social fabric of Castilian society Their powerful ideas and values shaped the course of Castilian history in the crucial years before the unification of the Spanish kingdoms pursue a zealous holy war against Islam and tear at the social fabric of Castilian society Their powerful ideas and values shaped the course of Castilian history in the crucial years before the unification of the Spanish kingdoms

Agrarian Change and Crisis in Europe, 1200-1500 Harilaos Kitsikopoulos, 2012-03-15 Agrarian Change and Crisis in Europe 1200 1500 addresses one of the classic subjects on economic history the process of aggregate economic growth and the crisis that engulfed the European continent during the late Middle Ages This was not an ordinary crisis During the period 1200 1500 Europe witnessed endemic episodes of famine and a wave of plague epidemics that amounted to one of its worst health crises rivaled only by the Justinian plague in the sixth century These challenges called into question the production of goods and services and the distribution of wealth opening the possibility of fundamental systemic change This book offers an empirical synthesis on a host of economic demographic and technological developments which characterized the period 1200 1500 It covers virtually the entire continent and places equal emphasis both on providing a solid factual framework and comparing and contrasting various theoretical interpretations The broad geographical and conceptual scope of the book renders it indispensable not only for undergraduate students who take courses relating to the economic and social life of the Middle Ages but also to more advanced scholars who often specialize in only one country or region

The Learned King Joseph F. O'Callaghan, 2016-11-11 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 100 titles from Penn Press's distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas

Food Consumption in Medieval Iberia Juan Vicente García Marsilla, 2022-05-15 From the banquets of kings and nobles to the daily struggle for the subsistence of the poor food was already much more than a biological necessity in the Middle Ages it was a social phenomenon full of meaning In this book all the implications and meanings that food had on the Iberian Peninsula between the 13th and 15th centuries are analyzed Historical assessment of the region is particularly rewarding because of the quantity and variety of historical sources and because of the coexistence in medieval Iberia of the three great monotheistic religions Christianity Judaism and Islam Taking both economic and sociological perspectives every aspect of food is analyzed

from the commercialization of food production to its consumption and from the evolution of culinary techniques to table manners

Lordship and the Decentralized State in Late Medieval Europe Erika Graham-Goering, Jim van der Meulen, Frederik Buylaert, 2025-01-23 Lordship and the Decentralized State in Late Medieval Europe rethinks the rise of modern European states as a process of decentralization The idea that states made lordships obsolete is challenged by showing how the distribution of authority among local lords reinforced the development of new political systems

From Heaven to Earth Teofilo F. Ruiz, 2016-07-26 Between the late twelfth century and the mid fourteenth Castile saw a reordering of mental spiritual and physical space Fresh ideas about sin and intercession coincided with new ways of representing the self and emerging perceptions of property as tangible This radical shift in values or mentalities was most evident among certain social groups including mercantile elites affluent farmers lower nobility clerics and literary figures middling sorts whose outlooks and values were fast becoming normative Drawing on such primary documents as wills legal codes land transactions litigation records chronicles and literary works Teofilo Ruiz documents the transformation in how medieval Castilians thought about property and family at a time when economic innovations and an emerging mercantile sensibility were eroding the traditional relation between the two He also identifies changes in how Castilians conceived of and acted on salvation and in the ways they related to their local communities and an emerging nation state Ruiz interprets this reordering of mental and physical landscapes as part of what Le Goff has described as a transition from heaven to earth from spiritual and religious beliefs to the quasi secular pursuits of merchants and scholars Examining how specific groups of Castilians began to itemize the physical world Ruiz sketches their new ideas about salvation property and themselves and places this transformation within the broader history of cultural and social change in the West

Shortage and Famine in the Late Medieval Crown of Aragon Adam Franklin-Lyons, 2025-03-18 In the late fourteenth century the medieval Crown of Aragon experienced a series of food crises that created conflict and led to widespread starvation Adam Franklin Lyons applies contemporary understandings of complex human disasters vulnerability and resilience to explain how these famines occurred and to describe more accurately who suffered and why Shortage and Famine in the Late Medieval Crown of Aragon details the social causes and responses to three events of varying magnitude that struck the western Mediterranean the minor food shortage of 1372 the serious but short lived crisis of 1384 85 and the major famine of 1374 76 the worst famine of the century in the region Shifts in military action international competition and violent attempts to control trade routes created systemic panic and widespread starvation which in turn influenced decades of economic policy social practices and even the course of geopolitical conflicts such as the War of the Two Pedros and the papal schism in Italy Providing new insights into the intersecting factors that led to famine in the fourteenth century Mediterranean this deeply researched convincingly argued book presents tools and models that are broadly applicable to any historical study of vulnerabilities in the human food supply It will be of interest to scholars of medieval Iberia and the medieval Mediterranean as well as to historians of food and

of economics
