A Bibliography on Writing and Written Language Konrad Ehlich, Florian Coulmas, Gabriele Graefen, 2011-06-01 The bibliography offers information on research about writing and written language over the past 50 years No comprehensive bibliography on this subject has been published since Sattler's 1935 handbook With a selection of some 27 500 titles it covers the most important literature in all scientific fields relating to writing Emphasis has been placed on the interdisciplinary organization of the bibliography creating many points of common interest for literacy experts educationalists psychologists sociologists linguists cultural anthropologists and historians The bibliography is organized in such a way as to provide the specialist as well as the researcher in neighboring disciplines with access to the relevant literature on writing in a given field While necessarily selective it also offers information on more specialized bibliographies In addition an overview of norms and standards concerning script and writing will prove very useful for non professional readers It is therefore also of interest to the generally interested public as a reference work for the humanities *Education of the Gifted in Europe* H.W.

Mentality Åke Daun, 1996-01-12 Is there a distinctly Swedish national character Are Swedes truly shy unemotional conflict avoiding melancholy and dour Swedish Mentality the English translation of the hugely successful book published in Sweden in 1989 considers the reality behind the myth The author Åke Daun is a respected ethnologist who is sometimes referred to as the guru of Swedish character In recent years it has become popular to discuss Swedishness and Swedish identity The advent of the European Union and the increasing presence of immigrant refugees in Sweden have fueled public debate on the distinctiveness of Swedish culture Daun however goes beyond stereotype drawing upon statistics gathered over more than a decade of research The result is an entertaining and engagingly written book Throughout Daun quotes from interviews with native Swedes and immigrants as well as from travel accounts folklore and proverbs We learn why some Swedes might prefer to walk up a flight of stairs rather than share an elevator with a neighbor and why some gain satisfaction from walking alone in the woods or going fishing Daun describes a range of factors influencing Swedish character including population composition rural background and even climate He recognizes behavioral variations related to gender age class and region and he considers subtleties of individual character as well Swedish Mentality should interest a wide array of readers whether of Swedish descent or not **Evaluación Diagnóstica en la Atención de Estudiantes Con Necesidades Educativas**
