Edge Of Disaster:

Edge of Disaster John Parker, 2000 When Darren's parents separate his world falls apart and he can't see the point of anything anymore But when he goes on a skiing trip the violence of nature teaches him more than he ever wanted to learn

The Edge of Disaster Stephen Flynn, 2007-02-20 Why do we remain unprepared for the next terrorist attack or natural disaster Where are we most vulnerable How have we allowed our government to be so negligent Who will keep you and your family safe Is America living on borrowed time How can we become a more resilient nation Americans are in denial when it comes to facing up to how vulnerable our nation is to disaster be it terrorist attack or act of God We have learned little from the cataclysms of September 11 and Hurricane Katrina When it comes to catastrophe America is living on borrowed time and squandering it In this new book leading security expert Stephen Flynn issues a call to action demanding that we wake up and prepare immediately for a safer future The truth is acts of terror cannot always be prevented and nature continues to show its fury in frighteningly unpredictable ways Resiliency argues Flynn must now become our national motto With chilling frankness and clarity Flynn paints an all too real scenario of the threats we face within our own borders A terrorist attack on a tanker carrying liquefied natural gas into Boston Harbor could kill thousands and leave millions more of New Englanders without power or heat The destruction of a ship with a cargo of oil in Long Beach California could bring the West Coast economy to its knees and endanger the surrounding population But even these all too plausible terrorist scenarios pale in comparison to the potential destruction wrought by a major earthquake or hurricane Our growing exposure to man made and natural perils is largely rooted in our own negligence as we take for granted the infrastructure handed down to us by earlier generations Once the envy of the world this infrastructure is now crumbling After decades of neglect our public health system leaves us at the mercy of microbes that could kill millions in the next flu pandemic Flash flooding could wipe out a fifty year old dam north of Phoenix placing thousands of homes and lives at risk The next San Francisco earthquake could destroy century old levees contaminating the freshwater supply that most of California relies on for survival It doesn't have to be this way *The Edge of Disaster* tells us what we can do about it as individuals and as a society We can and Flynn argues we must construct a more resilient nation With the wounds of recent national tragedies still unhealed the time to act is now Flynn argues that by tackling head on eyes open the perils that lie before us we can remain true to our most important and endearing national trait our sense of optimism about the future and our conviction that we can change it for the better for ourselves and our children

PTL John H. Wigger, 2017 *PTL* traces the lives of Jim and Tammy Faye Bakker from humble beginnings to wealth fame and eventual disgrace after revelations of a sex scandal and massive financial mismanagement Adapted from book jacket

Shadow of Spirit Philippa Berry, Andrew Wernick, 2006-04-27 By illuminating the striking affinity between the most innovative aspects of postmodern thought and religious mystical discourse *Shadow of Spirit* challenges the long established assumption that western thought is committed to nihilism This collection of essays by

internationally recognised scholars explores the implications of the fascination with the sacred divine or infinite which characterizes much contemporary thought It shows how these concerns have surfaced in the work of Derrida Baudrillard Lyotard Kristeva Irigaray and others Examining the connection between this postmodern turn and the current search for a new discourse of ethics and politics it also stresses the contribution made by feminist thought to this unexpected intellectual direction
