Hanlon, 1998-03-01 America's efforts at economic development in the Caroline Mariana and Marshall Islands proved to be about transforming in dramatic fashion people who occupied real estate deemed vital to American strategic concerns Called Micronesians these island people were regarded as other and their otherness came to be seen as incompatible with American interests And so underneath the liberal rhetoric that surrounded arguments proposals and programs for economic development was a deeper purpose America's domination would be sustained by the remaking of these islands into places that had the look feel sound speed smell and taste of America had the many and varied plans actually succeeded However the gap between intent and effect holds a rich and deeply entangled history Remaking Micronesia stands as an important imaginative much needed contribution to the study of Micronesia American policy in the Pacific and the larger debate about development It will be an important source of insight and critique for scholars and students working at the intersection of history culture and power in the Pacific **Pub147, 2004 Sailing Directions (Enroute)** NIMA, 2004 Sailing Directions 147 Enroute Volume 1 covers the Caribbean Sea from Bermuda and the Straits of

**Learning** Thomas Festa,2013-09-13 This book shows that education constitutes the central metaphor of John Milton's political as well as his poetic writing Demonstrating how Milton's theory of education emerged from his own practices as a reader and teacher this book analyzes for the first time the relationship between Milton's own material habits as a reader and his theory of the power of books Milton's instincts for pedagogy and the habits of inculcation everywhere visible in his writings take on a larger political function in his use of education as a trope for the transmission of intellectual history The book therefore analyzes *Paradise Lost* in the complementary contexts of its outright educational claims and more subversive countervailing measures in order to show how Milton dramatizes the end of learning which is to say both its objective and its failure The thesis emphasizes the argumentative resourcefulness of Milton's efforts to liberate readers from the tyrannical bonds of their political innocence most immediately in the context of the failure of Cromwell's regime to establish lasting republican institutions More philosophically the book explores the ways in which Milton's works investigate the humane and intellectual yearning for justice in response to the problem of evil
