Teaching Literacy to Students With Significant Disabilities June E. Downing, 2005-01-20 Break down literacy barriers to enrich the lives of students with significant disabilities All educators and family members would agree that depriving any student of the enhanced self esteem independence social skills and general quality of life afforded by

literacy would be wrong. However, because of the particular challenges perceived or otherwise of providing literacy instruction to children and youth with significant disabilities, these students are often overlooked in receiving meaningful experiences and equal access to this aspect of the core curriculum. *Teaching Literacy to Students With Significant Disabilities* offers tangible support for overcoming the obstacles to effective literacy instruction, including effective strategies for tailoring literacy materials to students with disabilities, tactics for adapting state standards and meeting No Child Left Behind NCLB and Individuals with Disabilities Education Act IDEA requirements. Straightforward chapter summaries, frequently asked questions, web sites, and other resources that reinforce key points are easy to implement. Planning and assessment guidelines, brimming with practical ideas, tips, and examples, this definitive guide offers K-12 educators the research findings and means for creating an inclusive environment that encourages students with significant disabilities to become actively engaged in literacy learning. It empowers teachers, family members, and all team members with creative, sensitive, and all-embracing ways to successfully set and meet realistic communication development goals that yield lifelong benefits.

Educating Individuals with Disabilities Elena L. Grigorenko, 2008-02-22 Print CourseSmart **Handbook of Research-Based Practices for Educating Students with Intellectual Disability** Karrie A. Shogren, 2016-10-14 The Handbook of Research-Based Practices for Educating Students with Intellectual Disability provides an integrated transdisciplinary overview of research-based practices for teaching students with intellectual disability. This comprehensive volume emphasizes education across life stages from early intervention in schools through the transition to adulthood and highlights major educational and support needs of children and youth with intellectual disability. The implications of history, recent research, and existing information are positioned to systematically advance new practices and explore promising possibilities in the field. Driven by the collaboration of accomplished nationally recognized professionals of varied approaches and philosophies, the book emphasizes practices that have been shown to be effective through multiple methodologies so as to help readers select interventions based on the evidence of their effectiveness.
