Educating For Liberty The Best Of Imprimis 19722002:

Educating for Liberty Douglas A. Jeffrey, 2002 James Madison the Father of our Constitution explained in Federalist 55 that the moral character of a people molded through education is the most essential in a nation where people rule This understanding of education no longer predominates in America Even as our government takes more of a hand in education than it has traditionally or than it should constitutionally it concerns itself primarily with regulating admissions and hiring policies according to race and gender and with promoting multicultural curricula that downplay America s Western heritage It concerns itself little if at all with the character of its citizens The fact that our government today appears indifferent or even hostile to the kind of education America s Founders thought vital to preserving liberty the kind of education offered at Hillsdale College suggests that in many ways our government has grown indifferent or even hostile to liberty itself Under these circumstances a large part of the work of Hillsdale College is devoted to promoting liberty and its underlying moral principles nationwide Central to this mission is Imprimis a national monthly speech digest of presentations made at Hillsdale conferences and seminars by leaders writers and scholars who support limited government free enterprise individual rights personal responsibility and strong national defense Imprimis was launched thirty years ago with a circulation of only a few thousand Ten years ago upon the publication of In the First Place a collection of the best of Imprimis s first twenty years its circulation had grown to 335 000 As Imprimis turns thirty its circulation is well over 1 000 000 and growing Educating for Liberty collects thirty of the first 360 speeches published in Imprimis Some date back to its earliest days others are quite recent Each is worth reading Together they set a high standard as Imprimis looks to the future Authors include Larry P Arnn Russell Kirk Lynne V Cheney Clarence Thomas Thomas Sowell Edwin Meese III Mark Helprin Ronald Reagan George Gilder John Stossel Malcolm Muggeridge Michael Novak Michael Medved William J Bennett Aleksandr Solzhenitsyn Jeane Kirkpatrick Margaret Thatcher and Jesse Helms

Free Market Revolution Yaron Brook, Don Watkins, 2012-09-18 NATIONAL BESTSELLER A look at how our current crises are caused by too much government and how Ayn Rand s bold defense of free markets can help us change course The rise of the Tea Party and the 2010 election results revealed that tens of millions of Americans are alarmed by Big Government but skeptical that anything can or will be done to stop the growth of the state In Free Market Revolution the

keepers of Ayn Rand's legacy argue that the answer lies in her pioneering philosophy of capitalism and self-interest, a philosophy that more and more people are turning to for answers. In the past few years, Rand's works have surged to new peaks of popularity as politicians like Paul Ryan, media figures like John Stossel, and businessmen like John Mackey routinely name her as one of their chief influences. Here Brook and Watkins explain how her ideas can solve a host of political and economic ills, including the debt crisis, inflation, overregulation, and the swelling welfare state. And most important, they show how Rand's philosophy can enable defenders of the free market to seize the moral high ground in the fight to limit government. This is a fresh and urgent look at the ideas of one of the most controversial figures in modern history, ideas that may prove the only hope for the future.

Liberty and Learning Larry P. Arnn, 2004. History of how the educational system has changed from the beginning of this country till now. Arguments for liberal education and limited government.

Entrepreneurship and the Spirit of America, 2006. **Economic Theories and Controversies** Richard M. Ebeling, 2004. Even within the world of free market economists, there are spirited disagreements. These can be theoretical, as between the Austrian and public choice schools, as well as practical, as between monetarists and supply siders. And of course, as always in economics, theory and practice overlap dramatically. The essays in this volume, adapted from lectures given at Hillsdale College in February 2003, present the views of the proponents of these divergent positions.
