Education by Stone Joao Cabral De Melo Neto, 2012-04-26 Imagine making poems the way an architect designs buildings or an engineer builds bridges Such was the ambition of Jo o Cabral de Melo Neto Though a great admirer of the thing rich poetries of Francis Ponge and of Marianne Moore what interested him even more as he remarked in his acceptance speech for the 1992 Neustadt International Prize for Literature was the exploration of the materiality of words the rigorous construction of lucid objects of language His poetry hard as stone and light as air is like no other Education by Stone Joao Cabral De Melo Neto, 2005-02-01 Imagine making poems the way an architect designs buildings or an engineer builds bridges Such was the ambition of Jo o Cabral de Melo Neto Though a great admirer of the thing rich poetries of Francis Ponge and of Marianne Moore what interested him even more as he remarked in his acceptance speech for the 1992 Neustadt International Prize for Literature was the exploration of the materiality of words the rigorous construction of lucid objects of language His poetry hard as stone and light as air is like no other Selected Poems William Wordsworth, 1890

The Oxford Book of Latin American Poetry Cecilia Vicuña, Ernesto Livon-Grosman, 2009 The most inclusive single volume anthology of Latin American poetry in translation ever produced *Concrete Encoded* Nathaniel Wolfson, 2025-11-04 A study of concrete art and poetry its implications and influence in Brazil Concrete art and poetry burst onto Brazil's cultural stage in the 1950s while the country was embarking on a dizzying period of modernization Bringing together key poets and visual artists alongside less recognized figures Nathaniel Wolfson shows that concretism was hardly socially inert as pundits have suggested Rather it presciently grappled with an emerging information age that would soon reorganize human relations globally Concrete Encoded describes a nascent cybernetic imaginary Concretism has long been considered Brazil's most global aesthetic movement Wolfson traces new circles of international theorists and practitioners involved in critical technological thought Wolfson argues that concrete poetry is the quintessential literary genre of the early information age He shows that Brazilian poets artists and designers contested the military dictatorship's technological authoritarianism and information gathering operations Vigorous experimentalists their attention to form and semantics unveiled both the creative and nefarious possibilities of algorithmic writing A highly original work Concrete Encoded reckons with aesthetic responses from Brazil to an advancing capitalist and digital era

Thayer-Bacon, Lynda Stone, Katharine M.

Sprecher, 2013-12-15 Collection of important essays by feminist scholars from cultural studies philosophy of education curriculum theory and women's studies Education Feminism is a revised and updated version of Lynda Stone's out of print

anthology The Education Feminism Reader The text is intended as a course text and provides students a foundational base in feminist theories in education The classics section is comprised of the readings that students have most responded to in classes The contemporary readings section demonstrates how the third wave feminist criticism of the 1990s has an impact on today's feminist work Both of these sections address critical multicultural educational issues and have an inclusive diverse selection of feminist scholars who bring race class sexual orientation religious practices and colonial postcolonial perspectives to bear on their work The individual essays are concise and well written and arranged in such a way that it is easy for instructors to assign them around themes of their own choosing The incredible value of this fine collection is that it demonstrates what it means to critically consider interrogate and challenge historic and contemporary ideas regarding educational equity while using these very ideas to imagine new possibilities It will serve as an indispensable resource in graduate classrooms where students can use the text to ground and forward explorations of the necessarily complex considerations of equity in education today Adela C Licona coeditor of Feminist Pedagogy Looking Back to Move Forward
