Education For An Information Age Teaching In The Computerized Classroom:

Education for an Information Age Bernard John Poole,1997 Reviews various areas related to technology especially computer based technology in K 12 schools This text aims to help pre service and in service teachers reflect upon and discover the range of issues that need to be addressed in order to achieve integration of computer based technology for teaching and learning into the K 12 curriculum

Education for an Information Age , ICT and Changing Mindsets in Education Kathryn Toure,Therese Tchombe,2008-07-15 The debate is no longer whether to use information and communication technologies ICT in education in Africa but how to do so and how to ensure equitable access for teachers and learners whether in urban or rural settings This is a book about how Africans adopt and adapt ICT It is also about how ICT shape African schools and classrooms Why do we use ICT or not Do girls and boys use them in the same ways How are teachers and students in primary and secondary schools in Africa using ICT in teaching and learning How does the process transform relations among learners educators and knowledge construction This collection by 19 researchers from Africa Europe and North America explores these questions from a pedagogical perspective and specific socio cultural contexts Many of the contributors draw on learning theory and survey data from 36 schools 66000 students and 3000 teachers The book is rich in empirical detail on the perceived importance and appropriation of ICT in the development of education in Africa It critically examines the potential for creative use of ICT to question habits change mindsets and deepen practice The contributions are in both English and French

Cyberteaching Morriss Henry Partee,2002 The advances in communication technology over the past few years offer an unparalleled opportunity for almost every dedicated teacher to reach students in new and powerful ways The necessary hardware to create a classroom in cyberspace probably sits on the instructor s desk right now a computer connected to a network Moreover increasingly user friendly software insures that the instructor does not need sophisticated technical skills in order to embrace these innovative pedagogical techniques The efficiency of electronic communication allows average teachers to become good and good teachers to become superb Cyberteaching addresses the vast numbers of non technically oriented faculty and administrators in institutions of public and especially higher education
