Council on Education,1895      **School Governance** Jacqueline Baxter,2016-03-29 What impact have the unprecedented and rapid changes to the structure of education in England had on school governors and policy makers And what effect has the intensifying media and regulatory focus had on the volunteers who take on the job Jacqueline Baxter takes the 2014 Trojan Horse scandal in which it was alleged that governors at 25 Birmingham schools were involved in the Islamisation of secular state schools as a focus point to examine the pressures and challenges in the current system Informed by her twenty years experience as a school governor she considers both media analysis and policy as well as the implications for the future of a democratic system of education in England      **Statutes of Practical Utility Passed in** Great Britain,1905      **Report of the Committee of Council on Education in Scotland** Great Britain. Scottish Education Dept,1920      Wisconsin Journal of Education ,1877      *School Government Chronicle and Education Authorities' Gazette* ,1907      Patterns of Education in the British Isles Robert Bell,Nigel Grant,2025-04-01 First published in 1977 Patterns of Education in the British Isles is the first modern discussion of the educational systems of the British Isles and the ways in which they influence each other It is no arid account of administrative structures but the first major attempt to set the systems in their cultural political and historical context and to

relate them to each other The book discusses the extravagant claims sometimes made for Scottish education the often neglected merits of Irish education and the fortunes of the Celtic languages it examines the peculiar problems of the remote areas the offshore islands and the politics of the educational profession Although particularly concerned with the non English systems of these islands it also considers their relationships with education in the rest of Europe and the world beyond

The Conservative Party and the Destruction of Selective Education in Post-War Britain Piers Legh, 2023-01-26 The book tells the untold story of the Conservative Party s involvement in terms of stance and policy in the destruction of selective state education from 1945 up to the present day Close consideration is paid to their attitudes and prejudices towards education both in power and in opposition Legh examines the Party s responses to the pressure for comprehensive schooling and egalitarianism from the Labour Party and the British left In doing so Legh defies current historiography to demonstrate that the Party were not passive actors in the advancement of comprehensive schooling The lively narrative is moved along by the author s critical examination of the Education Ministers throughout this period Florence Horsbrugh and David Eccles serving under Churchill and Eden and also Quintin Hogg and Geoffrey Lloyd under Macmillan as well as Edward Boyle and Margaret Thatcher under Edward Heath Legh s detailed research utilises a range of government documents personal papers parliamentary debates and newspapers to provide this crucial re assessment of the Conservative Party and selective education and in doing so questions over simplistic generalisations about wholesale support for selective education policy It reveals instead questioning compromises and disagreements within the Party and its political and ideological allies The result is a stimulating revival of existing scholarship which will be of interest to scholars of British education and politics
