Education Policy And Society Theoretical Perspectives:

Education, Policy and Society Ben Cosin, Margaret Hales, 1983 **Education and Disability in Cross-Cultural Perspective** Susan Jeanne Peters, 2013-11-26 A radical departure from previous chronicles of education for people with disabilities this book views special education from a broader perspective Its central thesis is that cultural values and expectations play a dominant role in understanding the structure and function of special education While theories of the social construction of disability have been written about in a growing body of research since the 1960s no attempt has been made to create a cross cultural framework This work offers such a framework Eight chapters written by educators in each country s educational system cover the following nations China Great Britain Hungary Japan Iran Pakistan United States and Zimbabwe Historical discussions in each chapter provide a context for current practice An index and illustrations are also included

Teacher Education and the Development of Practical Judgement Ruth Heilbronn, 2011-11-03 Current conceptions of teacher training reflect key issues in professional practices Two prevailing views seem to be in conflict the first is that a teacher ought to be able to act as an autonomous professional trusted to have and apply subject knowledge through the exercise of judgement The second conception views the teacher more as a deliverer of a specific curriculum defined centrally in various government sponsored strategies Much has been written on the development of the reflective practitioner as crucial to the first conception and a strong critique of the audit culture in education has emerged Currently we are at a significant moment in teacher education a lighter touch KS3 curriculum and the instigation of new standards for the award of qualified teacher status QTS The QTS standards are important as they are set to form the basis of standards at all levels of teaching This book examines in depth current education and suggests why and how teachers need to develop and exercise practical knowledge and understanding how standards assessment alone cannot support this teacher formation and what good formation might be The nature of practical knowledge is analysed using some concepts from the work of John Dewey in two theoretical chapters 4 and 5 The current standards based model of teacher training in England is predominantly instrumentalist in its application of technical rationality and unsuited to the formation of teachers However the often invoked concept of the reflective practitioner is underdetermined and a conception of reflection is needed to illuminate its contribution to the development of practical judgement The book s argument applies more widely to the debate between deregulators and professionalisers in other spheres of economic and social activity In asking specific questions about teacher education questions about the aims of education within specific conditions are raised

Risk Society and School Educational Policy Grant Rodwell, 2018-09-14 Risk Society and School Educational Policy explores the impact of risk society on policy in the US UK and Australia through both practical and theoretical perspectives The book develops an in depth understanding of risk society itself and guides the reader in applying this knowledge to the problem of how this impacts policy and practice in school education Drawing on work by Ulrich Beck and Anthony Giddens Rodwell explores the

development of risk society as a field of interest discussing its history contemporary significance and links with neoliberalism school education and both mainstream and social media He also examines its impact on government policies and the practical implications of how this impacts the educational experiences of children around the globe today A book for policy professionals researchers academics and postgraduate students interested in Education Studies Theory and Policy and International and Comparative Education Risk Society and School Educational Policy is the first international academic monograph published in the field *Key Debates in Education* Ian Davies,Ian Gregory,Nicholas McGuinn,2002-02-01 Our society invests hugely in education but not always very thoughtfully Key Debates in Education outlines all of the main issues involved in arriving at an intelligent understanding of education In particular it provides in depth discussion of the purpose of education the nature of teaching learning and assessment education policy the contribution of education to society Above all the authors convey the liveliness and excitement of educational debate not least through the way that they take issue with each other In the process they show how and why people who care about education radically disagree with each other This text includes questions tasks and further reading sections *Education and Gender* Debotri Dhar,2014-11-20 Education and Gender draws on international research from the USA the UK India Mexico Sub Saharan Africa and the Caribbean to provide a comprehensive global overview of the relationship between gender and education Rooting constructions of gender and sexuality in specific geographical contexts the contributors consider a range of issues Themes discussed include the gender gap in educational attainment pedagogical strategies stereotyping in curricula and education policy Drawing on best practices worldwide the contributors identify the current gaps and propose solutions to promote gender just equitable and pluralistic societies Each chapter includes key questions to encourage active engagement with the subject and a list of further reading to support taking the exploration further *Making of an Educator* Andy Hargreaves,2025-10-01 Charting the first 15 years of his career in education as a teacher researcher academic and growing collaborator with schools Andy Hargreaves casts light on what he calls a Great Education Shift This was a period during the early 1980s which was marked by the rise of neoliberalism and which brought an end to an era defined by public investment pursuit of equality commitment to educating the whole child and support for a strong and highly qualified teaching profession Andy s reflections on the present and the past offer powerful and often provocative insights into some of the most pressing issues in education today including teacher autonomy evidence based practice early career struggles intellectual bias and the impact of mentors In this captivating and inspiring book you will learn quite a bit about Andy and the experiences that shaped him But you will learn far more about yourself your work and your world as you seek to create a better future for all our young people and those who serve them A must read for anyone working in or interested in education today Friendship and Educational Choice R. Brooks,2004-11-10 Friendship and Educational Choice provides a unique insight into how young people go about making decisions about their educational options and the subtle yet crucial influence of friends and peers on these processes It

argues that focusing on both the impact of friends on educational decisions and the reciprocal influences that such decisions may exert on young people's friendships helps us to understand the significance and impact of educational choice in the wider lives of young people

Adult Education Policy and the European Union: Theoretical and Methodological Perspectives, 2014-01-01 FREELY AVAILABLE ONLINE AS OPEN ACCESS BOOK The European Union is now a key player in making lifelong learning and adult education policy this is the first book to explore a range of theoretical and methodological perspectives researchers can use to investigate its role Chapters by leading experts and younger scholars from across Europe and beyond cover the evolution of EU policies the role of policy actors in what is often seen as the black box of EU policy making and the contribution state theory can make to understanding the EU and its relations with Europe's nations They consider what theories of governmentality drawing on the work of Foucault can contribute And they demonstrate how particular methodological approaches such as policy trails and the contribution the sociology of law can make Contributors include both specialists in adult education and scholars exploring how work from other disciplines can contribute to this field This is the first book in a new series from the European Society for Research on the Education of Adults and draws on work within its Network on Policy Studies in Adult Education

African Politics and Society in the 21st Century Tyodzua Atim, 2013-07-30 After more than one hundred years of statehood most African countries are still facing serious challenges of political instability low growth underdevelopment and stagnation These challenges have created a dysfunctional African society and destroyed the heroic and proud myth of resilience and hard work associated with a typical African The book has analyzed the trends and dynamics of the breakdown of family and institutional values which have necessitated the classification of most African states as failed While the book is of the opinion that in as much as the relationship between Africa and the West has contributed to the continent's current predicaments Africa's problems are predominantly self-induced and are traced from the stereotypical culture of lack of idealism The book has empirically demonstrated that this culture has hindered initiative and promoted mediocrity deceit and tyranny on the part of African leadership while the politics of exclusion has promoted the culture of self-resignation and fratricidal conflicts on the continent The book has also proved that the current wave of democratization in Africa particularly the electoral process as dramatized rituals that seek to legitimate the authority of the ruling class

Globalisation and Education Policy Reform in Botswana Richard Tabulawa, 2023-07-21 This book uses the global local dialect approach to explicate education policy reform in Botswana and interrogates the practical effects of the various education policies on curriculum pedagogy and governance of the Botswana General Education system Considering the effect of three reform policies since Botswana's Independence in 1966 the book

evaluates the performance of each of the policies and examines their consequences in terms of the interplay of global forces and domestic pressures. The result of this interplay has been an education landscape that while reflecting globally circulating education discourses markedly differs from those same discourses. The book argues that the State in Botswana has appropriated education policy to legitimate itself in times of crisis and that each policy has improved access to general education but collectively have failed to improve its quality making suggestions for how this can be improved in the future. As the first book of its kind to delve into education in Botswana from a single authored critical lens, the book will be a highly relevant reading for academics, researchers, and postgraduate students of African education, comparative education, education policy, and curriculum studies. *Education Policy, Theories, and Trends in the 21st Century* Izhak Berkovich, 2021-01-25. This book provides a highly accessible overview of public education policy. It organizes knowledge about 21st-century education policy around two main topics: the policy process and the discourse on public education policy. This unique organization provides a novel lens for better understanding the dynamics and contents of current education policy making. The work also offers a broad overview of theories of public policy, economics, demography, sociology, history, and psychology. Each chapter includes a discussion of data derived from the international and Israeli contexts. The book provides a series of valuable insights relevant to researchers, practitioners, and policymakers interested in understanding the multifaceted aspects that shape contemporary education policy. *Education Policy, Practice and the Professional* Jane Bates, Sue Lewis, Andy Pickard, 2019-03-21. In this introduction to educational policy, practice, and professionalism, the authors focus first on providing an historical overview of English policy from the state's first interventions in education through to Thatcherism and the election of the Blair government. Chapters then explore the key contemporary policies of recent times and offer a critique on how they have worked in practice with reference to the hysteria that often surrounds education policy. An important theme is media representation of educational matters and the effects this has on the teaching profession. Commentaries and case studies are presented throughout, providing an accessible link to what it was really like to learn, teach, and live at the time the policy was in place. This new edition now includes an account of the measures taken by the Coalition Government of 2010-15, examining the Coalition's continuities with the previous administration whilst also exploring departures from previous thinking and practices, updated references, and case studies throughout to represent new research and legislation since the first edition, an extended discussion of globalization and global policy, borrowing further coverage of social justice theory including a perspective on identity theory and the role of education in the development of identity and the marginalisation of individuals and groups, a new historical chapter covering the period 1945 to 1997, a summary of the development of the curriculum, and a critique of the 2014 National Curriculum as pioneered by Michael Gove, and a new conclusion setting out the trajectory of current policies and how this may affect educational practitioners. This is essential reading for all undergraduate students studying education policy and practice. **Education Policy and Realist**

Social Theory Robert Archer, 2018-05-04 In Europe welfare state provision has been subjected to market forces Over the last two decades the framework of economic competitiveness has become the defining aim of education to be achieved by new managerialist techniques and mechanisms This book thoughtfully and persuasively argues against this new vision of education and offers a different more useful potential approach This in depth major study will be of great interest to researchers in the sociology of education education policy social theory organization and management studies and also to professionals concerned about the deleterious impact of current education policy on children s learning and welfare

Global Knowledge Cultures, 2007-01-01 Knowledge is about cultural power Considering that it is both resource and product within the brave new world of fast capitalism this collection argues for knowledge cultures that are mutually engaged and hence more culturally inclusive and socially productive Globalized intellectual property regimes the privatization of information and their counterpoint the information and creative commons movements constitute productive sites for the exploration of epistemologies that talk with each other rather than at and past each other Global Knowledge Cultures provides a collection of accessible essays by some of the world s leading legal scholars new media analysts techno activists library professionals educators and philosophers Issues canvassed by the authors include the ownership of knowledge open content licensing knowledge policy the common wealth of learning transnational cultural governance and information futures Together they call for sustained intercultural dialogue for more ethical knowledge cultures within contexts of fast knowledge capitalism
