alive and relevant **The Democratic Ideal in Education (Classic Reprint)** R. E. Hughes, 2015-07-01 Excerpt from The Democratic Ideal in Education In our land there is to day considerable discussion upon educational matters Appeals are made sometimes to our reason and sometimes to our prejudices and considerable bitterness of feeling is aroused and displayed and generally much pother is created upon matters that are only incidentally educational Let us trust that out of this evil good may come Let us hope that what is at present an interest produced artificially and with much labour may become perennial and natural Let us seize this golden opportunity to make our people permanently interested in this fateful problem of national education so that the popular apathy which in the past has been our curse may develop into a popular vigilance without which no truly national system is possible But popular vigilance needs popular intelligence Until our people can be made to see the true inwardness of their own instinctive faith until they can be made to realise what national training means and to understand why we need a better system of education not indeed to beat the German but to beat the devil only when these matters have become part of our common faith may we look for the regeneration of this land The superficial is always evident but the spirit is rarely recognised About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Education and the Democratic Ideal in the Eighteenth Century with Emphasis on the Contribution of Switzerland Ethel Douglass Lock, 1940 Visions of Jewish Education Seymour Fox, Israel Scheffler, Daniel Marom, 2003-07-07 This book looks at the philosophical consideration of Jewish existence in our time as reflected in Jewish education its alternative visions its purposes and instrumentalities the values it should serve and the personal and social character it ought to foster Prevalent conceptions and practices of Jewish education are neither sufficiently reflective nor thoroughgoing enough to meet the multiple challenges that the world now poses to Jewish existence and continuity New efforts are needed to develop an education of the future that will honor the riches of the Jewish past and grasp the opportunities of fruitful interactions with the general culture of the present To promote such efforts six leading scholars in this book formulate their variant visions of an ideal Jewish education for the contemporary world This book also translates these visions into educational practice and finally articulates a vision abstracted from a case study of a school s ongoing practice **Liberal Education and the Democratic Ideal and Other Essays** Alfred Whitney Griswold, 1961 **Philosophy of Education: Society and education** Hirst, Paul Heywood Hirst, Patricia White, 1998 *Reason and Education* H. Siegel, 1996-11-30 Israel Scheffler is the pre eminent philosopher of education in the English speaking world today This volume collects seventeen original invited papers on Scheffler s

philosophy of education by scholars from around the world. The papers address the wide range of topics that Scheffler's work in philosophy of education has addressed, including the aims of education, cognition and emotion, teaching, the language of education, science education, moral education, religious education, and human potential. Each paper is followed by a response from Scheffler himself. The collection is essential reading for anyone concerned with contemporary scholarship in philosophy of education or with the place of this singularly important author in it.
