Education For Judgment The Artistry Of Discussion Leadership:

Education for Judgment C. Roland Christensen, David A. Garvin, Ann Sweet, 1992 At its best discussion teaching has an extraordinary ability to stimulate learning Through a skillful orchestration of questioning listening and response it helps students master course material and critical judgment skills in tandem Education For Judgment unravels the intricacies of successful group leadership and shows how you can consciously practice those elements that turn an average class into a great one You ll discover practical advice on how to negotiate a contract for the conduct of the group how to lead a discussion without stalling it getting students to talk to each other guiding participants to adopt new and thoughtful roles the ethics involved in choosing material how to encourage independent thinking structuring technical material how to evaluate student participation creating a sense of closure and accomplishment much much more Unedited summary from book cover

Education for Judgment Harvard Business Review, 1992-07-01 The contributors to Education for Judgement maintain that the elements of great teaching can be identified orchestrating a constructive process of questioning listening encouraging independent thinking guiding participants toward useful roles in their interaction with one another The other chapters in the volume take a broader more philosophical view of discussion leadership They cover the ethical considerations of discussion teaching the special challenges of teaching technical material using this method one pioneering effort to introduce a participative mode of medical education First person accounts of discussion leaders experiences provide useful insights into the joys pitfalls of teaching by the discussion method **Education for Judgement, The Artistry of**

Discussion Leadership , 1992 **Teaching and the Case Method** Louis B. Barnes, Carl Roland Christensen, Abby J. Hansen, 1994 This third edition of Teaching and the Case Method is a further response to increased national and international interest in teaching teachers and learning as well as the pressing need to enhance instructional effectiveness in the widest possible variety of settings Like its predecessors this edition celebrates the joys of teaching and learning at their best and emphasizes the reciprocal exchange of wisdom that teachers and students can experience It is based on the belief that teaching is not purely a matter of inborn talent On the contrary the knowledge skills and attitudes that make for excellence in teaching can be analyzed abstracted and learned One key premise of Teaching and the Case Method is that all teaching and learning involve a core of universally applicable principles that can be discerned and absorbed through the study and discussion of cases A User's Guide to German Cultural Studies Scott D. Denham, Irene Kacandes, Jonathan

Petropoulos, 1997 Capitalizes on the ripeness of the German case for interdisciplinary investigation **Development of Professional Expertise** K. Anders Ericsson, 2009-06-22 Professionals such as medical doctors aeroplane pilots lawyers and technical specialists find that some of their peers have reached high levels of achievement that are difficult to measure objectively In order to understand to what extent it is possible to learn from these expert performers for the purpose of helping others improve their performance we first need to reproduce and measure this performance This book is designed to

provide the first comprehensive overview of research on the acquisition and training of professional performance as measured by objective methods rather than by subjective ratings by supervisors In this collection of articles the world's foremost experts discuss methods for assessing the experts knowledge and review our knowledge on how we can measure professional performance and design training environments that permit beginning and experienced professionals to develop and maintain their high levels of performance using examples from a wide range of professional domains

A Feminist I Christine Overall, 1998-10-29 Our universities are the locus of ongoing debates over the politics of gender of class of disadvantage and disability and over the issue of political correctness In *A Feminist I* Christine Overall offers wide ranging reflections from a first person point of view on these issues and on the politics of the modern university itself In doing so she continually returns to underlying epistemological concerns What are our assumptions about the ways in which knowledge is constructed To what degree are our perceptions shaped by our social roles and identities In the past generation feminists have led the way in recognising the importance of such questions and recognising too the ways in which personal experience may be an invaluable reference point in academic

theory and practice But reliance on personal experience is fraught with problems how is one to deal with tensions between the autobiographical and the analytic This book points the way to resolving some of those tensions and to fruitfully sustaining others It is a book of considerable insight warm humanity and genuine importance **Becoming a Leader** Al Bolea, Leanne Atwater, 2020-09-22 By blending the real world insights of business executive Al Bolea with tested research findings provided by leadership scholar Leanne Atwater *Becoming a Leader Nine Elements of Leadership Mastery* effectively bridges theory and practice to outline powerful leadership behaviors and teach readers how to become a leader Based on Bolea's original J Curve model of leadership this approachable guide identifies and describes nine essential elements for leadership mastery including skills such as setting direction creating key processes and nurturing behaviors Each chapter pairs concrete narratives with succinct research synopses to show how to expand the potential of people and organizations This unique experiential text engages readers with self reflection and self assessment exercises to encourage their development as future leaders *Becoming a Leader Nine Elements of Leadership Mastery* is a must have resource for practicing managers consultants and practitioners as well as being applicable to graduate and undergraduate courses on leadership

Enhancing Autonomy in Language Education Manuel Jiménez Raya, Flávia Vieira, 2015-04-24 The book explores the idea that pedagogy for autonomy requires the integration of teacher and learner development and can be enhanced through a case based approach in teacher education A case based approach values experiential professional learning and expands professional competences necessary to promote autonomy in schools developing a critical view of language education managing local constraints so as to open up spaces for manoeuvre centring teaching on learning interacting with others in the professional community Two strategies to implement the approach are presented and illustrated The first one involves teachers in designing implementing and evaluating experiences of pedagogy for autonomy which are the basis for writing professional narratives and building a case portfolio The second draws on teachers pedagogical experience as the basis for the construction of case materials where experiential elements are combined with theoretical input and reflective tasks so that the teachers who use those materials can reflect about and explore their own practice **Open Conversations** David Carr, 2011-09-19 Cultural institutions must reimagine their roles as education facilities for their communities and address the public need for conversations in safe and fair places thereby renewing their essential place in democratic society This book explains how *Open Conversations Public Learning in Libraries and Museums* is a provocative book one that is designed to offer courage to cultural institution administrators and staff even as it opens their eyes to the possibility that their facilities can offer more than they are Rather than offering prescriptive answers the author invites readers to consider museums and libraries in fresh ways Author David Carr believes professionals in libraries and museums need to think more broadly He challenges them to address communities national social change psychology and learning and to think about ways to frame their institutions not as repositories or research chambers but as instruments for human thinking Now is the time for these

institutions to recover their integrity and purpose as fundamental informing structures in a struggling democracy Based on lectures and previously published writings by the author and drawing on new scholarship and research the essays here will inspire professionals to understand their collections and institutions as instruments of personal social and cultural change
