Development Asia—Tackling Asia's Inequality: Creating Opportunities for the Poor Asian Development Bank,2008-12-01 One worrisome trend in Asia is growing inequality the rich are getting richer much faster than the poor This issue of Development Asia was brought into sharp focus with the current financial turmoil which is having a much greater impact on the poor than the rich How much should inequality be a cause for alarm if at all What are the implications of a widening social divide Should governments do something or nothing The stories on this cover theme look at many aspects of a complex issue Guest economists present the case for and against interventions toward social inclusion though they tend to support policies that promote equal opportunity and access to good education and basic health services One of the issue s main stories looks at the role of globalization in increasing well being at all levels of society but it also notes that the well to do are better placed than the poor to take advantage of the opportunities that globalization offers Contrasting profiles of India and the Philippines are provided One shows how strong growth can create jobs for the poor despite structural inequalities The other illustrates how even robust growth can fail to provide enough jobs because of structural inequalities *Education for Development in Asia* Jandhyala B. Asian Development Outlook 2014 Asian Development Bank, 2014-04-01 The Asian Development Outlook 2014 projects that developing Asia's growth will increase from 6.1% in 2013 to 6.2% in 2014 and 6.4%

in 2015 Moderating growth in the People's Republic of China as its economy adjusts to more balanced growth will offset to some extent the stronger demand expected from the industrial countries as their economies recover Risks to the outlook have eased and are manageable The monetary policy shift in the United States may invite some volatility ahead in financial markets albeit mitigated by accommodative monetary policy in Japan and the euro area The regional growth outlook depends on continued recovery in the major industrial economies and on the People's Republic of China managing to contain internal credit growth smoothly Widening income gaps in developing Asia strengthens the case for greater use of fiscal policy to foster equality of opportunity While the region has benefited from fiscal prudence in the past demographic and environmental challenges are expected to compete for public resources in the coming years To boost public spending on equity enhancing programs such as education and health without undermining fiscal sustainability the authorities will need to explore a wide range of options for mobilizing revenue and to build equity objectives into their fiscal plans Widening Access to Education as Social Justice Akpovire Oduaran, Harbans S. Bhola, 2006-07-10 Among the greatest challenges of the twenty first century is that of providing adequate educational opportunities to all citizens of the globe The broad availability of such opportunities and the genuine ability to take advantage of them are fundamental components of any equitable society In examining how widening access to education contributes to social justice this anthology composes a tribute to the life and work of the Nigerian educationist Michael A Omolewa The twenty seven contributions to this volume discuss foundational issues related to the educational dimensions of social justice present overviews of approaches related to widening access and analyze case studies from around the world as well as consider future directions in education policy and research This thematic depth is matched by the geographic representativeness of the work with contributors coming from the global South and North Widening Access to Education as Social Justice speaks with a credible and powerful voice about how making greater formal and informal educational opportunities available to men and women young adults and children everywhere can help bring about more equitable ways of living together thereby fostering the goods of cultural diversity tolerance and respect along with the creativity and responsibility vital to bringing about actual social harmony *Asian Development Outlook 2022* Asian Development Bank, 2022-04-01 Developing Asia faces greater uncertainty from the Russian invasion of Ukraine even as the region continues to contend with COVID 19 outbreaks The war has sent shockwaves across financial and commodity markets The highly transmissible Omicron variant has fueled a sharp rise in cases in the region though its less severe health impact coupled with increased immunity has allowed economies to remain relatively open As such growth in the region is forecast to remain strong supported by recovering domestic demand The Russian invasion of Ukraine aggressive monetary policy tightening in the US and renewed COVID 19 outbreaks pose near term risks to the outlook alongside medium term risks such as rising inequality due to school closures Fiscal resources are needed to aid recovery and support sustainable development But deficits and debt expanded substantially during the pandemic Mobilizing taxes and

optimizing tax incentives needs to be combined with improved spending efficiency to help developing Asia achieve its development objectives *Governance in Developing Asia* Anil B. Deolalikar, Shikha Jha, Pilipinas F. Quising, 2015-04-30 Governance in Developing Asia is one of the first books of its kind to provide an overview of the role that better governance and citizen empowerment can play in improving public service delivery in developing Asia The World Development Report 2004 se **Handbook on Comparative and International Studies in Education** Donald K. **Development Asia—Urban Planning Laboratory** Asian Development Bank, 2010-03-01 The rise of Asia s megacities is the upshot of robust economic growth in the region In turn the expansion of these centers of industry and commerce is fueling further growth opening more opportunities for business and employment With six out of 10 of the world s largest cities in Asia and eight out of 10 of the most densely populated the continent will be the world s de facto laboratory for urban planning Yet urbanization does not mean prosperity for all A great disparity between the rich and the poor not just in terms of income but also in living conditions persists Asia accounts for some 60% of the world s urban slum residents Rapid development puts pressure on infrastructure and the delivery of basic services such as health care water and sanitation and energy particularly for cities with poor urban planning Investments in public utilities must keep pace with business and

population expansion Otherwise economic growth cannot be sustained This edition of Development Asia examines the opportunities and challenges that urbanization presents how it can drive or disrupt economic growth in Asia It looks into the case of Viet Nam one of Asia s economic stars which is grappling with problems arising from massive urban migration In The Cruel Utility of Slums we weigh the economic value of informal settlements against the human toll To round out coverage this issue reports on the progress of urban renewal programs that seek to revitalize old cities while preserving their cultural heritage In other stories this issue explains the rollout of a form of political risk insurance that covers acts of terrorism This issue also looks at how development organizations are adapting in a networked world How well are these organizations using social media And how are internet scammers posing as development organizations Finally this issue puts the spotlight on Thailand s Mr Condom Mechai Viravaidya
