Educational Evaluation Classic Works Of Ralph W Tyler:

Educational Evaluation: Classic Works of Ralph W. Tyler George F. Madaus, D.L. Stufflebeam, 2012-12-06 I personally learned to know Ralph Tyler rather late in his career when in the 1960s I spent a year as a Fellow at the Center for Advanced Study in the Behavioral Sciences at Stanford His term of office as Director of the Center was then approaching its end This would seem to disqualify me thoroughly from preparing a Foreword to this Classic Works Many of his colleagues and not least of his students at his dear Alma Mater the University of Chicago are certainly better prepared than I to put his role in American education in proper perspective The reason for inviting me is I assume to bring out the influence that Tyler has had on the international educational scene I am writing this Foreword on a personal note Ralph Tyler's accomplishments in his roles as a scholar policy maker educational leader and statesman have been amply put on record in this book not least in the editors Preface My reflections are those of an observer from abroad but who over the last 25 years has been close enough to overcome the aloofness of the foreigner Tyler has over many years been criss crossing the North American continent generously giving advice to agencies at the federal state and local levels lecturing and serving on many committees and task forces that have been instrumental in shaping American education

Advances in Educational and Psychological Testing: Theory and Applications Ronald K. Hambleton, Jac. N. Zaal, 2013-12-01 Over the last 20 years there have been a large number of technical advances and changes in the field of educational and psychological testing According to Anne Anastasi The decade of the 1980 s has been a period of unusual advances in psychological testing Technological progress theoretical sophistication and increasing professional responsibility are all evident in the fast moving events in this field A Anastasi Psychological Testing Sixth Edition New York Macmillan 1988 On the psychometric front advances in topics such as item response theory criterion referenced measurement generalizability theory analysis of covariance structures and validity generalization are reshaping the ways that ability and achievement tests are constructed and evaluated and that test scores are interpreted But Psychometric advances as substantial and important as they have been are only a fraction of the major changes in the field of testing Today

for example the computer is radically changing the ways in which tests are constructed administered and scored Computers are being used to administer tests adaptively That is the sequence of questions an examinee is administered depends upon his or her performance on earlier administered items in the test Tests are adapted to the ability levels of the examinees who are being assessed One result is shorter tests with little or no loss in measurement precision Computers are also being used to store or bank test items Later items of interest can be selected and the computer is used to print copies of the test

Creative Ideas For Teaching Evaluation Donna M. Mertens, 2013-04-17 In 1976 the first session on the teaching of evaluation was held at an annual meeting of evaluators A few hardy souls gathered to exchange ideas on improving the teaching of evaluation At subsequent annual meetings these informal sessions attracted more and more participants eager to talk about common teaching interests and to exchange reading lists syllabuses assignments and paper topics The sessions were irreverent innovative lively and unpredictable Eventually the group formalized itself with the American Evaluation Association as the Topical Interest Group in the Teaching of Evaluation TIG TOE As word of TIG TOE's activities spread instructors from all over the country clamored for assistance and advice It became apparent that a handbook was needed a practical interdisciplinary guide to the teaching of evaluation Donna M Mertens a long standing member of TIG TOE and an accomplished teacher of evaluation volunteered to edit the book and her skills sensitivity and experience in the craft of teaching are apparent throughout

Evaluability Assessment M.F. Smith, 2013-03-09 My interest in and appreciation for program evaluation began in the early 1970's when conducting a curriculum development research project at the University of Florida's P K Yonge Laboratory School This interest was sparked when it became apparent that testing the success of an education program required more skills than just statistics and research methods After pursuing additional formal schooling I embarked on a career featuring educational program evaluation as its central thrust as a private consultant later in a university health sciences center involving seven academic colleges and then in the Cooperative Extension Services of Florida and Maryland Adding evaluability assessment EA to the performance of evaluations to program development and to teaching about evaluation has been a significant development for me personally and I hope to those who have been participants with me in each endeavor This book grew out of many of these experiences and involved numerous colleagues who made significant contributions First among these is Dr George Mayeske Program Evaluation Specialist Extension Service U S Department of Agriculture Washington D c
