Bad Education Lee Edelman, 2022-12-05 Long awaited after *No Future* and making queer theory controversial again Lee Edelman's *Bad Education* proposes a queerness without positive identity a queerness understood as a figural name for the void itself unnamable around which the social order takes shape Like Blackness woman incest and sex queerness as Edelman explains it designates the antagonism the structuring negativity preventing that order from achieving coherence But when certain types of persons get read as literalizing queerness the negation of their negativity can seem to resolve the social antagonism and totalize community By translating the nothing of queerness into the something of the queer the order of meaning defends against the senselessness that undoes it thus mirroring Edelman argues education's response to queerness its sublimation of irony into the meaningfulness of a world Putting queerness in relation to Lacan's *ab sens* and in dialogue with feminist and Afropessimist thought Edelman reads works by Shakespeare Jacobs Almod var Lemmons and Haneke among others to show why queer theory's engagement with queerness necessarily results in a bad education that is destined to teach us nothing
