Chiesa romana e modernità giuridica: L'edificazione del sistema canonistico (1563-1903) Carlo Fantappiè, 2008

Jurists and Legal Science in the History of Roman Law Fara Nasti, Aldo Schiavone, 2021-10-10 This book provides a new approach to the study of the History of Roman Law It collects the first results of the European Research Council Project *Scriptores iuris Romani* dedicated to a new collection of the texts of Roman jurisprudence highlighting important methodological issues together with innovative reconstructions of the profiles of some ancient jurists and works Jurists were great protagonists of the history of Rome both as producers and interpreters of law since the Republican Age and as collaborators of the principes during the Empire Nevertheless their role has been underestimated by modern historians and legal experts for reasons connected to the developments of Modern Law in England and in Continental Europe This book aims to address this imbalance It presents an advanced paradigm in considering the most important aspects of Roman law the Justinian Digesta and other juridical late antique anthologies The work offers an historiographic model which overturns current perspectives and makes way for a different path for legal and historical studies Unlike existing literature the focus is not on the Justinian Codification but on the individualities of ancient Roman Jurists As such it presents the actual legal thought of its experts and authors the ancient *iuris prudentes* The book will be of interest to researchers and academics in Classics Ancient History History of Law and contemporary legal studies Quaderni fiorentini per la storia del pensiero giuridico moderno (2010) ,2010 The Economic Theory of Structure and Change Mauro Baranzini, Roberto Scazzieri, 1990 This wide ranging 1991 inquiry into the general field of structural economic analysis provides a thorough appraisal of the method of economic dynamics *Il ruolo della civilistica italiana nel processo di costruzione della nuova Europa. Convegno internazionale di studio (Messina, 28-30 settembre 2005)* Vincenzo Scalisi, 2007 **Latinitatis rationes** Paolo Poccetti, 2016-12-05 This volume assembles 50 contributions presented at the XVII International Colloquium on Latin Linguistics They embrace essential topics of Latin linguistics with different theoretical and methodological approaches phonetics syntax etymology and semantics pragmatics and textual analysis It is a useful resource for the study of comparative and general linguistics not only for linguists but also for scholars of classical philology The Concept of Ius and the Nature of Law in Thomas Aquinas Loïc-Marie Le Bot, Petar Popović, Petar Popovic, 2025-01-10 This collection of essays constitutes the fruit of a scholarly conference held in Rome in April 2023 which was organized by the Pontifical University of Saint Thomas Aquinas the Pontifical University of the Holy Cross and the Angelicum Thomistic Institute The essays offer a scholarly reflection on various historical and doctrinal aspects of Aquinas's concept of *ius* and on the extent to which this concept helps to illuminate his account of the nature of law that is of the juridical phenomenon Each essay addresses from the viewpoint of its specific topic the implications of the Angelic Doctor's description of *ius* as the object of justice as presented in the *Secunda secundae* of his *Summa theologiae* starting from question 57 article 1 Following Aquinas

s own insights the focus on the virtue of justice is thus deemed crucial for understanding the essence or the ontological fabric of law Justice is simultaneously analyzed as always remaining inherently connected to its moral and divine salvific aspects The volume is divided in three parts The first part of the collection contains essays that are dedicated to the analysis of Aquinas s concept of ius in a historical perspective The second group of essays in this collection examine some further doctrinal and contextual issues pertinent to the essence of ius Each attempt to elucidate the ontology of law should be supported by the aptitude of the resulting accounts of law s nature to provide workable platforms for legal practices This line of reasoning represents the rationale for the third part of this collection which focuses on the matters of applying Aquinas s concept of ius in systemic and practical legal settings of State law and canon law **Fattispecie e disciplina dei servizi.**
