[The Knights Templar on Trial](#) Helen J Nicholson, 2011-08-26. The trial of the Templars in the British Isles 1308

1311 is a largely unexplored area of history Unlike the trial in France where the Templars were tortured into confessing to unspeakable activities in the British Isles there were no burnings and only three confessions after torture Several Templars went missing most of whom later reappeared Outsiders told stories of abominable Templar rituals secret meetings and murders at the dead of night but all these tales turned out to be mere rumour This book is based on extensive research into the records of the trial of the Templars and other unpublished medieval documents recording their arrest imprisonment and trial and the surveys of their property It traces the course of this the first heresy trial in the British Isles from the arrests in January 1308 to the dissolution of the Order and shows how by judicious selection of material the inquisitors made the scanty evidence against the Templars appear convincing The book includes a list of all the Templars in the British Isles at the time of the arrests and a gazetteer of the Templars major properties in the British Isles The Historical Geography of Scotland Since 1707 David Turnock,2005-08-04 This is the first book to take a comprehensive view of the historical geography of Scotland since the Union The period is divided into sections separated by the Napoleonic Wars and the First World War and each section offers a general view followed by detailed studies giving a balanced coverage of regional and urban rural criteria and the economic infrastructure The book contains a number of original researches and Dr Turnock attempts to set the Scottish experience in a framework of general ideas on modernisation The Literature and Study of Urban and Regional Planning Brenda White,2024-02-29 First published in 1974 The Literature and Study of Urban and Regional Planning discusses the processes of spatial planning and the range of subject knowledge which is required to contribute to it It describes the physical forms in which the literature relating to spatial planning is usually presented and the ways in which this literature is made available in different types of organization The author gives details of the most useful libraries whose facilities are available to students and of the research which is being undertaken into the principal problems of planning information The second part of the book consists of a subject bibliography divided for ease of reference into twenty six sections each concerned with a component part of spatial planning and containing annotated references to books official publications developmental plans legislation and other material This book will be of interest to students of sociology and urban studies Highland Heritage R. Celeste Ray,2001 Explores how the Scottish heritage and folklore thrives and blends with Southern regional myths and culture and how that creates a unique sense of identity for Scottish Americans

Scottish Society, 1707-1830 Christopher A. Whatley,2000 This book challenges conventional wisdom and provides new insights into Scottish social and economic history Christopher A Whatley argues that the Union of 1707 was vital for Scottish success but in ways which have hitherto been overlooked He proposes that the central place of Jacobitism in the historiography of the period should be revised Comprehensive in its coverage the book is based not only on an exhaustive reading of secondary material but also incorporates a wealth of new evidence from previously little used or unused primary sources The Journal of Education ,1918 *Report of the Federal Security Agency* United States. Office of

Education,1899 **Report of the Commissioner of Education** USA. Bureau of Education,1899 Death and the Royal Succession in Scotland, C.1214-C.1543 LUCINDA H. S. DEAN,2024-07-30

Illuminates how the ceremonial dimension of death and the succession reflected both Scottish royal identity and a broader culture of ceremony To date scholarly attention to royal ceremony in Scotland from the Middle Ages into the early modern period has been rather haphazard with few attempts to explore how these crucial moments for the representation of royal authority This monograph provides a long dur e analysis of the ceremonial cycle of death and succession associated with Scottish kingship from the thirteenth to the sixteenth centuries including the final century of the Canmore dynasty the crisis of the Bruce Balliol conflict and the emergence and consolidation of the Stewart family up to the funeral of last monarch buried in Scotland James V in 1543 Using a broad range of primary sources including financial records and material culture many of them previously untapped it addresses key questions about kingship and power the function of ceremony in legitimising royal authority its significance in relation to the practical exercising of power and evidence for Scottish similarities and distinctiveness within wider European contexts Housing in the United Kingdom Brian Lund,2019-02-19 In this book Brian Lund builds on contemporary housing crisis narratives which tend to focus on the growth of a younger generation rent to include the differential effects of class age gender ethnicity and place across the United Kingdom Current differences reflect long established cleavages in UK society and help to explain why housing crises persist Placing the UK crises in their global contexts Lund provides a critical examination of proposed solutions according to their impacts on different pathways through the housing system As the first detailed analysis of the multifaceted origins impact and potential solutions of the housing crisis this book will be of vital interest to policy practitioners professionals and academics across a wide range of areas including housing studies urban studies geography social policy sociology planning and politics
